

# Saves one ton in seven

Figure up your annual coal bill, divide it by seven, and you have the amount the Hecla Furnace will save you every year. ¶ The steel-ribbed fire-pot does it. Adding steel ribs to the fire-pot increases its radiating surface three times more than is possible by any other method. The steel-ribbed fire-pot heats the air quicker. It sends the heat through the registers instead of up the chimney. ¶ Examine the Hecla. Compare it with other Furnaces. ¶ You will find every feature that makes for convenience and ease of operation. But the Hecla is the only one that has the Steel-ribbed Fire-pot—the fire-pot which saves thousands of users one ton of coal in seven.

Section of fire-pot showing ribs of steel plate which save 1 ton in 7.

## HECLA FURNACE

No Gas or Dust

Burns wood as well as coal.

And this furnace cannot possibly leak gas or dust. The joints, usually bolted or cemented, are fused in the Hecla in a perfectly tight joint. Time and service cannot loosen the Fused Joint. The fusing welds the Hecla Radiator into one piece.

Our Booklet "Comfort & Health" should be in the hands of everyone who has a heating problem to solve. It will be sent free of charge.

**CLARE BROS. & CO., LIMITED,**  
Dept. L, Preston, Ont.

## The Call of the North

Do you know of the many advantages that New Ontario, with its millions of fertile acres, offers to the prospective settler? Do you know that these rich agricultural lands, obtainable free, and at a nominal cost, are already producing grain and vegetables second to none in the world?

For literature descriptive of this great territory, and for information as to terms, homestead regulations, settlers' rates, etc., write to

**H. A. MACDONELL**  
Director of Colonization

Parliament Bldg. TORONTO, ONT.

## "Monarchs" Make Farm Work Light

A willing, easily-moved "Monarch" Engine saves hours of work sawing wood, pumping, grinding, cutting silage, cream separating, etc. It pays to have one. The "Monarch" has spark retarder, throttle, speed regulator, priming cup, carbon-steel shaft, sight fuel gauge, etc.—the quality features of an automobile engine. Sizes from 1 1/4 to 35 h.p.

Get our "red circle" folder for a post card. It explains every feature.
