

OUR THEATRES

CASINO

(Halifax Recorder, June 28) Geo. Kennedy, manager of the Montreal Canadians, and the well known promoter of wrestling and other sport events, is at the Halifax Hotel. He has secured the rights of the Johnson-Willard fight pictures for this country, and following a most successful tour of the pictures in other parts of Canada, is arranging to have them produced in Halifax.

A private exhibition of the pictures was given at the Empire Theatre this morning before a number of newspaper men and others. They are certainly not surpassed by any pictures of the kind ever shown here; they are remarkably clear, every blow is distinctly seen, and the men are clearly outlined, while at times they are brought close to the camera, giving particularly good views of the men.

The pictures are also of unusual interest, as they give a different impression as to what was conveyed by the press reports, which gave the idea that Willard was simply standing off his opponent until he wore him down, but instead, Willard was always aggressive, he was not dismayed by Johnson's rushes or attacks, but always came back forcing the fighting. The result is the public are given a different idea of the bout to what they had anticipated, and the pictures thus grow in interest with every round. They certainly give everybody a better opinion of Willard as a fighter than they have had before. There are also splendid views of scenes before and after the fight.

These pictures are to be shown at the Casino on Thursday, Friday and Saturday.—Adv't.

THE NICKEL

The second day's showing of the presentation of the colors at Stobb's Camp attracted equally as many as the opening day. At the matinee yesterday and the evening performance the theatre was crowded, and the greatest enthusiasm prevailed. As our soldier lads passed by the enthusiasm was unbounded, and the applause deafening.

Capt. Carty, Lieut. Fox, Capt. Rendell, Sam Elsbury, Bert Dicks, Cecil Cliff and others were quite plain. It seemed like old times to see the boys. Many attended yesterday's show who only go on special occasions, but they wanted to see their soldier boys again.

To St. John's it is the best picture ever shown here. Every one should see it. The Manager has very kindly consented to show it as an extra with the usual week end change.

The "Hazards of Helen" are good to-day. Helen leaps from the water to-day.

Don't forget to send the children to the bumper matinee to-morrow. They will have another chance to see the soldier. If you have not yet seen this picture, don't miss it to-day.

THE CRESCENT

This evening, patrons of the Crescent will be greeted with another very interesting, entirely new and most original programme. The first picture to be shown, in two reels, will be the famous detective drama "The Ticket of Leave Man" by the Biograph Co. This is a most interesting theme, and in itself should draw a full house. "The Heart of Sunny Jim" features Bobby Connolly, the clever boy actor in a powerful melodrama and "Broncho Billy's Christmas Shirt" is a catching Western drama, of a most entertaining character. "Diogenes Weekly" and other comedies will chase away the "blues" easily, and the whole show is excellent.

The music will be of the usual high order and you should send the children to-morrow to see the big matinee bill.

THE AEROPLANE CONCERT

Arrangements for this big show are nearly complete. It will be a great programme and all interested in the Aeroplane Fund should attend. The programme for this night will eclipse anything of the kind ever presented here. Mrs. Rossley has secured the best of our local artists. Mrs. Colville, the dainty artist who has appeared in so many of our best entertainments; Mrs. Chatter, Miss Flora Cliff, Miss Mary Doyle, Miss Frances Gosling and Miss Bradshaw; the string band from the Calypso, Mr. T. O'Neil, the Sunshine Girls, Bonnie Rossley, Jack and Marie Rossley in their own original act; and Mr. A. Crocker, the pianist of St. John's; Mr. Tago with his violin and others. Under the distinguished Presence of His Excellency the Governor and Lady Davidson.

"OURS" IN THE WEST END

There was a crowded house last night at the popular little house. The two little singers were loudly applauded for their great song: "The Kiltie Lads" which they sang in great form. They are the best that have appeared at the little house. Don't miss this, it is a treat. A complete change of pictures to-night.

ARTISTIC CABINET WORKMANSHIP

Yesterday, in an informal way, a Mail and Advocate representative visited the cabinet factory of the firm of Callahan & Glass, and was shown some subjects of the cabinetmakers' art which it is a positive joy to look at. These consist of seven mantles, recently turned out by the firm for the new residence of Mr. James Haw, now nearing completion, on the Topsail Road. The execution of these beautiful creations of the cabinetmakers' art exhibit an excellence in design and a beauty in finish which it would be difficult to duplicate in more pretentious centres of commerce than St. John's.

Three of the mantles for as many bedrooms are finished in white enamel and another of the same is intended for the parlor. The carved work on these is of a very delicate pattern and the scroll work and other designs on them are traced with an artistic finesse and cleverness in execution which leaves nothing to be desired. Three others of the mantles which are intended for drawing and sitting rooms, are massive creations, done in quartered oak, golden finish. They are flanked on either side by beautiful columns after the Grecian style and rest on pedestals with exquisitely carved Venuses thereon, while they are surmounted with capitals carved in superlatively beautiful style, over which are entablatures of rare beauty and wrought in a most artistic manner. They will be fitted with heavy plain finish plate glass mirrors, 42 by 30 inches, and are otherwise beautifully embellished.

The work of polishing them was done by Mr. Thos. Dunne, head of the paint and polish department, and shows the execution of a master hand.

The designs were evolved by Mr. Jno. Callahan, jr., and are certainly a tribute to his artistic taste.

We congratulate the firm of Callahan & Glass on the superiority it displays in turning out work of this kind.

EXPLOITS NOTES

The S.S. Prospero called here last night going South. Two of our young men, Luff and Gillett, went by her to volunteer to do duty for King and Country. We wish them God speed and a safe return.

Northeast winds and rain to-day. Manual's salt schooner arrived here last evening from St. John's. Many of our Labrador friends were waiting her arrival to get supplied.

No fish up to date, not two quintals under sail, and none reported around the Bay anywhere.

No fish to-day, schooners taking salt for the Labrador; caplin still plentiful; fishery outlook the worst for thirty years.

Mr. J. C. Stone arrived on the S.S. Home to-day after completing his work in opening the new F.P.U. store at Lewisporte.

The S.S. Can't Lose with President Coaker arrived here this evening. She landed flour, beef, coal and other freight, and took away one hundred brils of herring. A quick despatch was given the steamer which speaks well of the Union Spirit here. Men worked all night in discharging goods and all say it was the quickest despatch the Can't Lose ever got. At 5 o'clock in the morning she steamed away with ringing cheers for the President and Capt. Barbour.

If Mosdell, the graball tool, was here it would make him feel small to see such union spirit amongst our toilers.

TAKEN FROM A SHACK Since their discovery there some weeks ago, the woman, who with her two babies lived in an old shack at the quarry off Blackhead Road, has been looked after by Sgt. Byrne and Const. Tobin. They suffered much in the cold and wet weather of the past week and were removed from their equal home yesterday afternoon to the police station, where they will be held pending being domiciled in a decent dwelling. The mother badly needs clothing. The children do not seem to have suffered much as a result of the hardships under which they lived.

Don't forget to ask your grocer about LaFrance & Satina Tablets. ap12,t

The Fogota left Fogo, coming south at 8.30 this a.m.

VOLUNTEERS

The Volunteers, owing to the rain yesterday, drilled in the Armory. About 30 recruits were examined and most passed the board of doctors in a creditable examination.

Buy a few packages of Coca-Cola Gum on your way home. Your wife will like it. Get the Coca-Cola Gum habit.

YESTERDAY'S BASEBALL GAME

The Red Lion won easily from the Shamrocks in the second game of the Mount Cashel series, at St. Bon's practice grounds last evening, and as a result of the victory the R. L's will be one of the competing teams on the day of the garden party, when they will face the winners of the Cubs-Wanderers game which will be played, weather permitting, on Monday evening next. The heavy drizzle made field-work of a very indifferent order. Messrs Cheesman and R. McGrath umpired the game and Mr. P. J. Grace was scorer.

The people who are always "chewing the rag" about the wa would be better occupied in chewing Coca-Cola Gum.

THE "POTEMHALL GOES ON DOCK

The S.S. Potemhall, Capt. Warrer, which yesterday morning struck near Cape Broyle during a dense fog, went into the dry dock yesterday afternoon. By 6 p.m. the basin was dried out and then it could be seen that the ship was pretty severely damaged on both sides under the water line about the bows. The water poured from the holes made, in streams for several hours. When the ship docked the water was well over the tanks in No. 1 hold, about 10 or 15 feet aft of the stem. On the port side the plates are bulged in several places, and the same applies to the other side about 20 feet in from the stem, while the keel and plates below are also badly damaged about 30 or 40 feet about the stem.

It is thought the ship went over a shoal, as the stem is not injured, which must have occurred had she struck a "bold" shore. If permanent repairs are given it will take at least two weeks working night and day.

She is a compartment vessel, owned by the West Hartlepool Steam Navigation Company or as is better known, belongs to the Hull Line.

She is 410 tons gross, 258 nett, is 246 feet long, 47.9 feet beam and 19.4 feet draft and built in 1901. She came through the submarine zone on her voyage to Cape Harry without meeting any of the Hunnish wasps of the water. Capt. Warrer, quite a young man, is a typical British sea dog and has been on the ship the past 2 years.

A nine-year-old girl, of Job St., suffering from diphtheria, was removed to the Hospital yesterday.

The Gum that everyone praises—Coca-Cola.

To-day on the East Coast the weather was calm and dull and on West Coast calm and fine. The temperature was from 50 to 58 above.

Have you seen the latest melody: "The Coca-Cola Rag!" Look out for it. We will publish it.

For the week just ended the city's collections amounted \$1923.30 as compared with \$1385.92 for the same last year.

Try Honeyfruit flavor—Coca-Cola Chewing Gum.

The police last night sheltered an old outboard man in the lockup, who since coming here some time ago, has been getting alms from the charitable. He told the police he had sold his home, separated from his wife to live with his son in another harbor, but in getting there, the son had gone to Sydney. His case will be attended to today.

Have you tried Coca-Cola Chewing Gum?

Yesterday the schr. "Monitor" sailed from Woods' Island for Gloucester, with 370,000 lbs salt bulk fish, 162 qtls dry fish, 30 casks cod oil and 17 brils herring for the Gorton Pew Co.

MOUNT CASHEL GARDEN PARTY

We direct the attention of readers of The Mail and Advocate to the advertisement of the Mount Cashel Garden Party in another column of our paper.

This festival is one of the fixed events in our annual affairs and has come to be regarded as equal to our national sport of boat racing on Quidi Vidi.

The object for which the sports are held is the most praiseworthy, and deserves the success that has ever attended it, and we hope that this year will prove no exception to the rule.

Th public have many calls upon their purses this year for patriotic and charitable purposes, but we venture say there is not one more appealing than this, to help the poor little orphan boys that the good Brothers are laboring to make good and useful citizens of, who otherwise might be thrown upon the world unfitted for the struggle of life, and doubly handicapped because of their orphanhood.

The appeal for the boys we are sure will fall on responsive hearts, and Mount Cashel Garden Party of 1915 will be a great success.

LOST—One Box of Books

A 15-year-old laborer, of LeMarchant Road, another of these incorrigible youth who give the police and the public no end of trouble, was sent down for three months for the larceny of an overcoat. Three ordinary drunks were discharged.

The Sebley family, taken by the police from the shack on the South Side hills, were taken to the police station for safe keeping. To-day arrangements will be made to take care of them.

LOST—On Friday between Water St. and Queen St., a Bundle of Papers, the property of the Inland Game and Fisheries Board. Finder will please return same to GOWE RRABBITTS, Sec. Inland Game and Fishery Board.—jy24,t

THE STELLA MARIS AGAIN AFLOAT

Shortly before 2 p.m. yesterday, the Stella Maris, after being over a year on the bottom near Morey & Co.'s premises, was raised through the energetic work of Capt. Saunders and the captain and crew of the tug Coast Guard and towed by the latter and Bowring's launch to Mudge's Cove where she was beached for further disposal.

A large number of people witnessed the salving of the ship from boats near the scene and from Morey's and the dry dock premises. An annoying obstruction to shipping in that section of the harbor has thus been eliminated. The work has been accomplished in little more than two weeks and those who prosecuted it deserve congratulation. The largest pump employed on the work disposed of 60 tons of water an hour, and this was supplemented by three other powerful pumps.

The captain, mate, and chief engineer of the Coast Guard are expert divers and worked with a will, each going under the ship daily for hours at a time.

The ship as she lies on the beach has a decided starboard list and is unken aft, owing to the coal in that part of the hold. Her hull is necessarily very foul, owing to the long time it had been submerged, and this with the boilers and machinery, will need a deal of attention and be thoroughly overhauled and repaired before the good old ship can once again "proudly sail the ocean blue" as of yore.

The boilers of the schooner Bessie Fenix and Coast Guard helped materially in the result in supplying steam for the pumps.

Capt. Saunders and his men will next week, we hear, begin work on the raising of the submerged S.S. Desola and this will it is thought, be a more difficult proposition than the other.
