

REGISTRATION OF VOTERS 1908

NOTICE is hereby given that, under the provisions of The Saskatchewan Election Act in that behalf, His Honour the Lieutenant Governor by and with the advice of the Executive Council has been pleased to issue his proclamation this day setting forth:

1. That it has been determined to make and revise lists of voters for each electoral division in the Province.

2. That it has been determined that in the case of polling subdivisions not included in city constituencies, cities and towns each deputy registrar shall compile a list of voters by process of enumeration subject to final revision by the court of revision and that no personal application for registration will be necessary in such polling subdivisions and further declaring that Sections 47 to 51, both inclusive, of The Saskatchewan Election Act shall apply to the making and revision of such lists of voters, and that Sections 52 to 56, both inclusive, shall not apply.

3. That in city constituencies, cities and towns each deputy registrar shall sit for the purpose of receiving applications for registration of voters on Thursday, the sixth day of August, 1908, and each successive day thereafter (exclusive of Sundays) until and inclusive of Monday, the seventeenth day of August, 1908, between the hours of nine o'clock in the forenoon and nine o'clock in the afternoon with interruptions from half past twelve o'clock to two o'clock and from six o'clock to half past seven o'clock, for the purpose of receiving applications for the registration of voters.

4. That each deputy registrar shall post up the list of voters for each polling subdivision for which he is appointed as required by Sections 45 and 50 of the aforesaid Act on or before Saturday the twenty-second day of August, 1908.

N.B.—By Section 12 of the Act persons entitled to secure reliable information on problems of Western Agriculture. It has been organized for the purpose of giving the farmers of Saskatchewan a chance to see what may be accomplished by intelligent effort on a bare prairie farm, in the growing of trees, shrubs, hedges, shelter, flowers, and fruits, and in the production of heavy yielding crops of grains and grasses. It furnishes an opportunity to study at first hand the results of the different methods of rotation, different methods of soil cultivation, and the comparative values of the different varieties of grains, grasses, roots and vegetables.

Dated at the Executive Council Chamber, Regina, this sixth day of July, 1908.

JOHN A. REID,
Clerk of Executive Council.

Annual Excursion to the Experimental Farm Indian Head, on Thursday, July 30

THIS excursion presents a good opportunity to secure reliable information on problems of Western Agriculture. It has been organized for the purpose of giving the farmers of Saskatchewan a chance to see what may be accomplished by intelligent effort on a bare prairie farm, in the growing of trees, shrubs, hedges, shelter, flowers, and fruits, and in the production of heavy yielding crops of grains and grasses. It furnishes an opportunity to study at first hand the results of the different methods of rotation, different methods of soil cultivation, and the comparative values of the different varieties of grains, grasses, roots and vegetables.

TIME TABLE (C.P.R. Main Line West)

	Arrives	Return
Mortlach	6.45	2.30
Duron	7.00	2.00
Boharm	7.15	1.80
Moose Jaw	7.35	1.65
Pasqua	7.50	1.65
Belle Plaine	8.10	1.65
Pense	8.25	1.55
Grand Coulee	8.42	1.40
Pinkie	8.55	1.20
Regina	9.17	1.10
Pilot Butte	9.35	.85
Balgownie	9.50	.85
McLean	10.10	.75
Qu'Appelle	10.28	.40
Arrive Indian Head	10.45	
Time of departure	18.30	

Children Under 12 years Half Fare;
Under 5, Free.

PROGRAMME

10.45 On arrival of train carriages will be in waiting to conduct the women and children to the grounds.

11.00 to 1.30 Free lunch will be served on the grounds. Short addresses by the Hon. W. R. Mowbray, Commissioner of Agriculture; Dr. Wm. Saunders, Director, Dominion Experimental Farms, Ottawa; Angus MacKay, Supt. Experimental Farm, Indian Head, and other prominent agriculturists.

1.30 to 6.00 Competent guides will escort the excursionists to all places of interest on the farm. As many carriages as can be obtained will be secured for the day and will be placed at the disposal of the excursionists, free of charge.

Mr. T. N. Willing, Chief Weed Inspector, will have an exhibit of our most troublesome weeds. Bring specimens for identification.

J. BRACKEN,
Supt. of Pairs and Institutes,
Department of Agriculture, Regina,
July, 7th, 1908.

GOVERNMENT REPORT ON GROWING CROPS

The Report of the Department of Agriculture for June Indicates that the Crops Are Advancing Favorably—Little Frost or Hail.

DISTRICT No. 1. Nearly all of the reports received from our correspondents in this district express satisfaction with the weather conditions that have prevailed during June. Some thought that a little too much rain fell during the early part of the month, but little, if any damage has been caused thereby. There are of course small patches on which water has lain for some time and in these grains have come up patchy and yellow; but, on the whole, correspondents are extremely well pleased with the condition of the crops at present. A frost occurred on the 9th and damaged slightly the oats and barley on low land; tender garden vegetables also were slightly injured. Hailstorms are reported to have occurred in some localities on the 15th but they do not seem to have been of sufficient violence to cause much damage. The general appearance of the crops is very good. There are, however, reports that mention some fields of grain are spindly; but correspondents are emphatic as to the cause of this, viz., frozen seed. Comparatively speaking the crops are well up to the average of other years and are fully twenty days earlier than last year.

DISTRICT No. 2. During the first part of the month the weather was a little too wet and cold to insure a very rapid growth of vegetation, but fine warm days during the latter part of the month combined with adequate moisture in the land has made adequate growth possible. The greater part of the crop is looking well at present, is of good color and has made very rapid and vigorous growth. Early sown flax is very promising, but some of the latter sown fields are badly infested with weeds.

There has been no damage by frost or hail; but during the early part of the month, very high winds drifted summer fallow, especially in the most north-western part of the district. There is quite a lot of new land under cultivation in this district, and at the end of the month, this and stubble land was in need of rain. Reports indicate that crops are from three to four weeks earlier than last year, and further advanced than they have been in any of the last five years.

DISTRICT No. 3. Correspondents in this district are comparatively few and their opinions differ widely. Some report dry weather and others say that sufficient rain has fallen for present requirements, but that there has not been enough precipitation to weather. The cause of such discrepancy may be attributed to the uneven character of the land in that part of the province, which in many places is better adapted for mixed farming and ranching than for grain growing. However, while the growth may not be very luxuriant, the crops are nevertheless fairly good.

A good rain in the near future will improve conditions, and be productive of good results. Barley is heading out and other crops are advancing

proportionately. Some splendid samples of alfalfa, fall rye, and fall wheat have been received from Maple Creek.

DISTRICT No. 4. The first week of June was rather dry, but during the remainder of the month, plenty of moisture fell. Some correspondents report the weather was a little cooler than the average for June, but, on the whole, weather conditions left little to be desired. Crops on low land have suffered from excessive moisture, and this with poor seed has been the cause of many patchy and uneven spots. However, the general condition of the crops at the present time is very satisfactory and should no untoward incident occur, a great crop will be harvested. Wheat is looking fine, oats are well advanced, and barley is excellent. All crops are more advanced than at this date in previous years, and are from three to four weeks earlier than in 1907.

DISTRICT No. 5. Nearly all the correspondents in this district report plenty of rain and sunshine during June. The temperature was about normal, and conditions were perfect for vegetation. The rainfall was a little greater than was required on low land, and as a result of this the grain in such places is yellow and patchy. On higher land the crops are excellent, especially that sown in summer fallow and breaking. On stubble land and on fall plowing, a volunteer crop has made this year's sowing to a certain extent crowded and uneven. No damage by frost is reported from this district, but a hail storm on the 11th did considerable damage between Last Mountain lake and Last Mountain district.

Other parts escaped damage although hail is mentioned frequently by correspondents. The crops are healthy and have a good appearance, and are fully three weeks earlier than last year.

DISTRICT No. 6. At present this district is sparsely settled, and the land under cultivation is held principally by homesteaders. During the earlier days of the month, the weather was rather dry, but since the 7th conditions have been all that could be desired. Wheat has a good appearance and is strong and healthy. Other grains have made fine growth since the rains came. Some reports say that the grain is of an uneven character caused probably by the dry period that followed seeding, but this applies only to land of a very sandy nature. A slight frost on the 10th was followed by a hail storm on the 11th, but crops are not sufficiently advanced to permit of more than slight damage being caused thereby. The crops seem to be quite as far advanced in this district as in other parts of the province.

DISTRICT No. 7. Reports from this district are few in number and as very little agriculture is yet carried on in this part of the province, no attempt has been made to summarize them.

DISTRICT No. 8. The first week in June was very dry, and there was

very little growth of vegetation. However, plenty of rain fell later, and in a very little while the change in weather conditions brought about a marked improvement in the crops. In common with lowlands in other parts of the province, those in this district were too wet. A little less rain and more sun would have been more advantageous. Crops have a good appearance and compare well with those in other districts. There is not a single reference in the reports of our correspondents to the occurrence of frost or hail in this district during the month. Present indications point to a good yield, and harvest will be from two to three weeks earlier than last year.

DISTRICT No. 9. Up to the 11th of the month the weather was very dry, and growth thereby retarded. During the remainder of the month it rained very frequently and the crops were greatly benefited thereby. Some of the grain was very slow in recovering from the drought that existed during May and the early part of June. This, no doubt, accounts for the comparatively weak state of the plants and the undeveloped roots. On the 16th a rather severe frost affected oats and barley in the vicinity of Raddell; the damage, however, was confined principally to that district. Speaking generally the grain crops have a very promising appearance; they are thrifty and of good color. The grain is fully six inches higher than at this time last year, and it should mature at least three weeks earlier.

OLYMPIC GAMES

Have Started in London—Unfavorable Weather the First Day.

London, July 13.—In the great stadium at Shepherd's Bush the Olympic games opened this afternoon in the presence of King Edward, Queen Alexandra, Princess Victoria, the Crown Prince and Crown Princess of Sweden, the Duke and Duchess of Cornwall, and many other members of the royal family and nobilities of Europe, and a great assemblage of spectators which comprised visitors from nearly every nation of the world.

The track was in poor condition owing to a downpour of rain.

The Americans made a fairly good showing in spite of the unfavorable conditions. J. P. Sullivan and Melvin Sheppard, both of the Irish American Athletic Club, qualified for the finals in the fifteen hundred metre race.

In the 400 metre swimming race, Batterby representing the United Kingdom took first honors in the first heat, and Lastorres of Hungary second; Rudd Goodwin of New York, third.

Foster of England won the second heat, Hallows, England won the third heat, and Loney, England, won the fourth, beating out Coe of Michigan. Tait of Canada won the fifth heat.

The two thousand metre tandem bicycle race went as follows: First heat, Brooks and Isaacs, of the United Kingdom. Second heat, Hamlin and Johnson, United Kingdom. Third heat, Goetze and Goetze, of Germany.

Fourth heat, Paton and Cockleberg, Belgium. The Americans have decided to protest Longboat, the Canadian Indian runner, but will abide by the decision of the committee in any event. In lawn bowling the Canadians beat Hove as to points.

Brett-Dodds.

The marriage of Miss May Irene Dodds, daughter of Mr. and Mrs. Hugh Dodds, to Mr. James Allan Brett, of Toronto, son of Mr. James Brett of Regina, was solemnized yesterday at the family residence, St. Joseph Street. The ceremony was performed by the Rev. S. Brett, of Allison, cousin of the groom, under a wedding bell of marguerites and palms. The bride, who was given away by her father, wore a brocade silk and lace, and tulle veil caught with a wreath of lilies of the valley. She carried a shower bouquet of white roses and ferns, her only ornament being a pin of pearls and amethyst, the gift of the groom. Miss Charlotte Dodds, in pink silk with lace and ribbon trimmings, and mohair hat, with pink roses, attended her sister as bridesmaid, and Dr. J. P. McLaughlin was best man. Miss McLaughlin of Orangeville, played the wedding march. After the ceremony there was a reception at the family residence, Mrs. Dodds mother of the bride, wearing grey silk with black lace and black hat. Mr. and Mrs. Brett left later in the afternoon to spend their honeymoon in Rochester, New York and Atlantic City, the bride going away in grey cloth and tulle hat with white wings. The groom's gift to the bridesmaid was a gold bracelet, to Miss McLaughlin a gold locket and chain set with diamonds, and to the best man pearl cuff links.—Toronto News.

Bathford, July 13.—The body of Frank Morley was brought from Scott, forty miles south of here, this afternoon. He was suffocated by gas while working in a well on the farm of A. Muir. He was aged twenty-three and recently arrived here from Bolesevain, Man.

THE BIG FAIR

Final Arrangements Being Made—Exhibits and Attractions to Excel Past Years.

Secretary Andros of the Provincial Fair is as busy as a bee these days with his staff making the final arrangements for the big fair which commences next Tuesday. There is a very large number of entries in for each class, and, judging from the entries for live stock this year's fair will exceed that of Winnipeg and Brandon.

W. M. Williamson has gone to Brandon to make further arrangements for entries for stock and racers.

The attractions this year will far excel that of past exhibitions even with what has been already secured. But to have the attractions thoroughly up-to-date, Secretary Andros has gone east to secure further attractions and this year when visitors get tired looking at the exhibits they can enjoy themselves with the racing events and other attractions.

The Sons of Edna have secured the privilege of placing a tent on the grounds for the benefit of their members and guests. The W.C.T.U. will also have a "Rest" tent on the fair grounds.

If the weather man is good, there is no doubt but that this year's fair will be an eminent success.

CHILDREN'S DAY

The first day of the Provincial Exhibition, July 21st will be children's day. All children under 14 years of age will be admitted free to the fair grounds when accompanied by parents or guardian.

ADD ANOTHER CLASS

The executive has decided to add a class for Shetland ponies, single and in teams, and those who have these little animals will also be able to take part as exhibitors at the great Provincial Fair.

PROVINCIAL NEWS

Lemberg now has a paper called "The Budget."

The workmen on the waterworks construction at Yorkton struck for higher wages last week. They were getting \$1.50 a day.

E. B. Kingsley and bride arrived in the city from British Columbia on Monday.

E. MacKenzie Ellis of McDowall, is in the city today on business.

Indian Head, July 13.—The Orangemen of this town held their annual celebration today in the form of a picnic at Donnelly's Grove, three miles south of Indian Head.

The first large six wheeled compound engine sent over the Kirkella branch met with an accident. A flange broke just west of the Pheasant Creek bridge and threw five cars in the ditch, three of them total wrecks, as well as tearing up the roadbed badly. For a couple of days a large gang of men supplemented by the wrecking train from Brandon were busy clearing away the debris.

After searching fourteen years for her daughter, Mrs. R. Campbell, now of Detroit, will leave on the 21st instant for Rouleau, Sask., where the girl has a home of her own. Mrs. Campbell had been left a widow with two children, which she turned over to a London institution from which they were adopted. She was unable afterwards to secure the names of the foster parents. The other child has not been found.

Jas. Tyres who was arrested as a hobo near town two weeks ago by Sgt. Dubuque and who put up a story that he had served years in the British navy and had left a wife and child behind him in England, has been traced as a deserter from the naval force, having escaped from one of the men-of-war taking part in the Tercentenary celebration at Quebec, and reaching this point, where he encountered the watchful staff sergeant, who has made a most important capture. The deserter was sent up for thirty days to Regina gaol and will be sent back to Quebec under escort.—Prairie Witness.

Saskatoon, July 13.—Armed with permission to nail the best in sight a grubstake for five months and full in the way of timber limits or mining claims, G. de La Cretois and John Magrath, two experienced surveyors and prospectors, left today for the country that lies between Cedar lake and Hudson Bay. The party is sent out by a syndicate of prominent local citizens with a view to securing some good things known to lie north of the Saskatchewan river. The party are going from here to Pas Mission, where they will outfit, and then proceed down the Cedar lake trail on the road to the bay. They have no limit given them where to stop, and if nothing shows up on the way they will go through to Churchill. The syndicate behind them can command considerable capital and should anything good turn up would put up any amount of money to develop it. Both men have been through the country before.

Comic and Serious

A fool must now and then be right by chance.

The only legitimate way to kill time is to work it to death.

Talking should be an exercise for the brain, not for the tongue.

A lazy man is no better than a dead one and takes up more room.

Of all sad words of tongue or pen the saddest are "I've flunked again."

Mr. Microbe: "Horrible catastrophe. Ten million lives lost!"
Mrs.: "Good gracious, Mike! what happened?"
"The First National Bank without a word of warning sterilized a dollar bill."—Independent.

"Willie, did you put your nickel in the contribution box in Sunday school today?"
"No, mamma, I lost Eddy Lake, the preacher's son, if I couldn't keep it and spend it for candy, an' he gave me permission."—Denver News.

"Did you hear about the defacement of Skinner's tombstone?"
"No. What was it?"
"Some one added the word 'friends' to the epitaph."

"What was the epitaph?"
"He did his best."—The Review.

A newspaper down in Maine in telling of the death of a man through being struck by a railway train, adds that "it will be remembered that he met with a similar accident a year ago." It is hoped that

the habit which he appears to have contracted will not become chronic.—Philadelphia Enquirer.

A Real Invalid.—During the Spanish-American war a certain amateur nurse found ample scope for her enthusiasm and abilities, but her zeal was slightly abated after one morning visit to her ward, when a suffering hero was discovered lying with the coverlet pulled over his head, and a placard pinned to the outside which read:
"Too sick to be nursed today."—Harper's Magazine.

A young man from Boston who had failed to pay his laundry bill endeavored to turn his Chinaman aside from inquiry, by an attack on the celestial's manner of speech. "Why do you say 'Fliday' John?" he asked. "Say Fliday because I mean Friday," replied John stoutly. "No say Fliday, and mean week after nex' like Meilcan man."—Christian Register.

The Hardest Job.—Every man thinks his own is the really hardest job.

The really hardest job, however, is that of the hero in the modern novel. These are the performances of one hero in one chapter of a recent novel. His countenance fell.

His voice broke.
His heart sank.
His hair rose.

His eyes blazed.
His words burned.
His blood froze.

Now, how would you like to be that hero?—Detroit News.

While in the hay mow, Walter Simons of Ingersoll, Ont., met with a shocking accident. The hay fork dropped on him and he was nearly disemboweled. He may recover.

Mr. John Henniker Heaton, whose name will always be associated with penny postage, has publicly announced the possibility in the very near future of an Imperial government scheme of penny cable messages across the Atlantic at a penny per word. He made this startling statement in London, and confidently predicted it not as a future possibility, but as an almost accomplished fact.

All arrangements for the consolidation of the Crown bank of Canada with the Northern Bank, which has its head office in Winnipeg, have now been consummated. The following are the board of directors of the Northern-Crown Bank: Sir D. H. McMillan, Lieut.-Gov. of Manitoba, president; Edward G. Gurney, Toronto, and Capt. W. Robinson, Winnipeg, vice presidents; Chas. Adams, A. J. Adamson, M.P., D. C. Cameron, J. L. Cliffe, Chas. Magee, Hon. W. H. Montague, F. Nation, J. W. De C. O'Grady, Hon. R. P. Roblin.

Recently Judge Reid, of the United States court in Alaska, pre-emptorily issued orders closing all dance halls, houses of prostitution and gambling dens in Juneau, Treadwell and other Alaska points. As a result of this the most undesirable class have been coming into the Yukon by hundreds. "With the reduced strength of the police force," says Commissioner Woods, "We have not the necessary men to preserve law and order. Complaints are coming in from the creeks of flagrant violations of the laws regarding gambling, prostitution, sale of liquor, etc. If not before, there will be trouble this fall, when work closes down and the 1,600 laborers get paid off in town. In the meantime matters are getting beyond our control, and our work is no longer efficient. Our strength should be kept up to 100 at least."
