COMMISSION ON GRAIN

Will Inquire Into Question and Report to Parliament.

During Discussion of Yukon Estimates, W. F. Maclean Wins Admission From the Minister That Transportation Problem Lay at Very Foundation of the Yukon—But There Is No Move to Solve It.

Ottawa, June 23.—The House of Commons began work yesterday morning on the bill to amend the Manitoba Grain Act.

Hon. Mr. Fisher explained the bill, and announced that a commission will be appointed to go over the whole grain trade question and will report to Parliament next session.

Under this bill the grade known as extra Manitoba hard is defined and the word "plump" is eliminated from the definition of Manitoba No. 1 hard.

A new grade of winter wheat is established, No. 1 Alberta red, No. 2 and No. 3, which, it is believed, will give winter wheat a better standing in the grain market.

The House went into Committee of Supply on the Yukon estimates. Mr. Foster suggested that the expenses of administration there should be reduced, as the cost of living had been so high.

Mr. Oliver admitted that the transportation problem lay at the very foundation of the Yukon. The Government must approach this problem at once.

Mr. Patterson said that the House had provided for a railway in 1898, but that was the fact.

Mr. Maclean said that he did not regret his action but what happened in 1898 was unfortunate. It was now the duty of the Government to solve this problem. Every one admitted that the need was urgent. The Government must either move in the matter or admit incapacity and give way to others.

A Prisoner's Ill-Treatment. Dr. Sproule called the attention of the Government to a grave abuse of authority by certain officers in the Yukon.

One Campbell was unjustly accused of assault and sentenced to four months' imprisonment. He desired to make an appeal, but the clerk of the court refused to furnish him with a copy of the evidence and justified his refusal by saying that the judge, Mr. Justice Dugas, had directed him not to give it.

Campbell applied for a writ of mandamus, but when the transcript was given, material evidence in the defendant's favor was omitted. He applied personally and through Dr. Thompson (Yukon) to the Department of Justice, and some rather curt and discourteous replies were received from Mr. Fitzpatrick.

Sir Wilfrid Laurier suggested that the judge might be impeached, but that it was improper to discuss his rulings in the House.

W. F. Maclean (South York) said that in England the House was finding a way to discuss a miscarriage of justice.

Borden Does Not Shrink. Two recent decisions in elections in cases were to be considered this week by the Commons. R. L. Borden said there could be no course of conduct more wrong than for a judge and clerk of the trial court to prevent a defendant from obtaining a review of a judgment against him in a criminal case. The clerk was a ministerial officer, and his conduct was not official. He did not shrink from criticizing a judge whose conduct was improper. Neither was he forbidden from commenting upon his rulings. There was above criticism. In England the press and people freely commented upon the courts and without any serious injury. The Premier promised attention.

Hon. Geo. E. Foster made merry again respecting the contract with Hatfield, the American rainmaker.

Railway Subsidies. The railway subsidies were brought down by the Minister of Railways last night. They call for subsidies of \$3,200 per mile up to a cost of \$15,000 per mile for construction, and above that sum 50 per cent. of the cost of construction up to a maximum of \$6,400 per mile. There are 43 lines to be subsidized, which cover a length of 2,885 miles, and on the basis of the minimum subsidy of \$3,200 per mile represent a total of \$9,200,000, including the lump subsidy of \$56,800 to the Brookville, Westport & Sault Ste. Marie Railway.

Express Company Withdraws. Ottawa, June 23.—The special committee to consider the telephone and express company amendments to the Railway Act made progress yesterday.

The committee was not in session yesterday, but the subject was reached as this important matter occupied the entire attention of the committee. F. H.

TWO REPORTS ON ARCTIC.

Conservative Minority Will Hardly Agree With Others.

Ottawa, June 23.—The inquiry into the supplies for the Arctic terminated suddenly yesterday morning, and a report will be made to the House probably on Wednesday next.

The Conservative members of the committee, it is expected, will present a minority report, as it is not probable that there will be an agreement on all points.

When the committee met yesterday morning, Mr. Northrup, who has been the chief examiner of witnesses for the Opposition, made a brief statement.

He said that the Conservative members were prepared to call a couple of witnesses to give evidence as to the conduct of the crew of the Arctic with the Eskimos in the Arctic.

The ship was found at Fullerton. Mr. Pardee assured Mr. Northrup that it would be useless to summon the witnesses, and it was mutually agreed to close the inquiry.

The members of the committee then settled down to work to select the evidence it will be necessary to print.

SHOULD BE ANALYZED. Government Action In Regard to Proprietary Medicines.

Ottawa, June 23.—Dr. Roddick, of Montreal, appeared before the committee on patent medicines yesterday morning. He strongly urged that the formulae of all patent medicines should be submitted to the Government for examination. He condemned soothing syrups, and said they should be abolished altogether, as their careless use led to many infant deaths.

Dr. Roddick claimed that the public was entitled to know the contents of preparations containing dangerous drugs.

Mr. Watters, an Ottawa druggist, gave evidence along much the same lines. He said that from one to ninety per cent. of the patent medicines sold were harmless—and useless.

A draft bill prepared by Mr. MacFarlane, the chief analyst, was explained by its author. It requires all patent medicine manufacturers to submit analyses to the department. The proprietary medicine manufacturers have themselves offered to furnish the Government with samples and affidavits that their preparations do not contain any excess of alcohol and other dangerous poisons, and giving the Minister power to prohibit the sale of preparations which after analysis are judged unsafe.

WHO ORDERED THE FILES? Prefontaine's Son First Had Them Charged Up Against Him.

Ottawa, June 23.—George J. Desbarats, of the Public Works, was examined at the public accounts committee yesterday. He said that he did not purchase the steel files and bars from Mr. Strubbe, but he received the goods at Sorel. In the first instance he was asked by Mr. Prefontaine to go and see the files and find out if they could be utilized at Sorel. He would not have purchased so many if he had been ordering them. His order amounted to 264 dozen. Strubbe gave fifteen per cent. discount.

Mr. Busted, of Busted & Lane, Montreal, said that the files were invoiced in the first instance to Roland Prefontaine, son of Hon. R. Prefontaine. Roland ordered the files or that, either he did not order so many, and would not accept them. Mr. Busted said that he asked the Minister about the order, but he said that he knew nothing about it. The goods were finally sold to Mr. Strubbe for \$2,234. Mr. Busted was appointed chairman of the committee as Mr. Belcourt is leaving for Europe.

UPSET BY RIVER CURRENT. Mother and Child Drowned While Driving Through River.

Innisfail, Man., June 23.—A drowning in the Red Deer River is reported. Mrs. Band, Mrs. Michael Lamarche and daughter, all of Solihalla, attempted to ford the river near Penhold station, when the wagon box was lifted by the current and all were thrown into the river.

Mrs. Bond succeeded in regaining the wagon box and bravely recovered Mrs. Lamarche, but she was dead. The child was also drowned. A husband and eight children survive.

To Revise the Statutes. Toronto, June 23.—At yesterday's meeting of the Provincial Cabinet, a commission to revise the statutes was appointed. The names were not officially announced, but it is understood that the commission will consist of Mr. Justice Oiler, Chief Justice Meredith, Mr. Justice Garrow, Mr. Justice Teet, Mr. Justice Anglin, Mr. Justice Teet, and the members of the executive council, and a prominent member of the Opposition in the Legislature. Several positions will be employed by the Government to assist in the work of revision. The statutes are revised every ten years. The commission will get to work almost immediately.

Lineman Electrocuted. Hamilton, June 23.—James Lorne Carpenter, 125 West Main street, head lineman for the Hamilton-Grimsby and Beamsville Railway, was electrocuted yesterday afternoon. He was standing on top of a construction car about a half a mile west of Beamsville fixing a wire. He seized a naked live wire with his hands, and was instantly killed. He was 23 years of age.

Lieut. Donnelly Injured. Montreal, June 23.—Lieut. Donnelly of Sherbrooke Field Battery was seriously injured internally in a camp at Sherbrooke, his horse falling back on him.

Inspector Murray's Will. Toronto, June 23.—The will of John Wilson Murray, Government detective, disposes of an estate of \$40,676.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces, such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten-fold to the good they may possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c. per bottle.

Take Hall's Family Pills for constipation.

English Regard For Teacher. If there is one occupation which Englishmen are unanimous in condemning as degraded and degrading it is that most fascinating, most difficult, delicate and important work, the training of the mind. In what are humorously called "the higher walks" of teaching there are respectable salaries to be earned and agreeable rooms or houses for occupation. Here, purged of the dross of utility, a man may once more take rank as a gentleman, and if he becomes head of a house the supreme usefulness of his position commands universal and silent respect.—Nineteenth Century.

It is wonderful what a little careful grooming will do for a woman. It's inspiration and sweetness. It's delight and bewitching. The effect of Hollister's Rocky Mountain Tea. 35 cents. Tea or Tablets.

Don't Kill the Hawk. Man has slain more than any other animal in trilling with nature's balance. Clover crops and the killing of hawks are apparently unrelated, yet the hawks eat the field mice, the field mice prey on the immature bees, and the bees fertilize the clover blossoms. The death of a hawk means an over-increase of field mice and a consequent destruction of the bees.

Cleanliness is the first law of beauty; also the second and third. No matter what your complexion is, use Hollister's Rocky Mountain Tea or Tablets. A. I. McCall & Co.

A man will generally rise to the occasion if you tread on his toes.

MRS. HOGLE

A CHATHAM LADY ADDS HER TESTIMONY TO THE THOUSANDS ALREADY ON RECORD.

Anti-Pill, the new remedy, seems to be a perfect cure for constipation and all diseases of the stomach and bowels. Many cures are being reported in this neighborhood, among these that of Mrs. Edward Hogle, of Murray St., who says:—

"Three years ago I began to be bothered with constipation, and
