...Gospel Temperance meetings, conducted by members of the W. C. T. U., are held every Sunday alternoon at 3:30 o'clock, in the vestry of the Methodist church. All are welcome.

Have Me Excused.

What a large variety of reasons there are which Christian people give for not entering actively into temperance work. Here are a few, only a sample of many more that are frequently heard:

1. "I believe in the license system, because I take a practical and business-like view of it."

We how our heads with shame that Christian men, church members, can be found giving this answer. I fancy that this is just the wisdom that actuated Mr J. lecariot once upon a sad time. He thought, no doubt, that the apprehension of the Master by the Jews was bound to occur pretty soon anyway. It was in the nature of things, and it would be the practical business view to make what he could out of the inevitable. The over-ruling, all-powerful Master could and would be sure to look out for himself and His followers, and he could make a little money for the treasury, which was often sadly empty. Judas had a regulated and restricted way of managing. And licensing; he saloons for more or less silver is the same thing over again.

2. I cannot afford to openly fight the close of the inevitable of more or less silver is the same thing over again.

4. "If don't admire many of the leaders of the movement."

And they are not leaders because they want to be admired. Ministers do not stand up in their pulpits and ask you to come and join their churches because you admire them. Leaders want help to do the work that needs to be done, and they want you to look at the work and come and help do it.

5. "If take care of my boys. If others did the same there would be no need of temperance work."

Good for all the boys taken care of But not every boy taken care of its safe is and don't you care anyway about the boys—yes, and girls too—of parents weak, wicked, ignorant, careless or in different enough to not take care of their boys? How selfish is it best to be! Would it not be good to help make the world as nice as "our boys" are?

6. I am temperance, but I do not belong to this or that society because I cannot see that they are doing anything."

That may be due to your defective operight. But every W. C. T. U. feels keenly how little they are doing compared with what there is to do. The outsider's best way is to increase the sum total done by the addition of all that one total done by the addition of all the one total done by the addition of all that one to a the a
