Appeal to Railway Board * ********************* In Order. Speedy Cruiser.

City Would Grant No Concessions.

VOL LI

Smallpox May Prevail All Summer.

Negotiations with the Street Railway Company were practically declared off by the city last night, and it looks as if an immediate appeal would be made to the Ontario Railway Board under the amended by-law in the hope that an or der will be secured for new cars and general improvement of the roadbed. It did not take the conference committee long to decide what to do. The proposition from the company to make fur-ther concessions in the way of the city taking over the repairs to the pavement and show cleaning was promptly re jected. The aldermen agreed that all they would undertake to do was to guarantee the bonds. The proposition making some slight reduction in the or making some signt reduction in the percentage was again hinted, but quick-by dropped. On motion of the Mayor, seconded by Ald. Farmer, the following resolution was passed: "That this com-mittee report to the Council that it has nartice report to the Council that it has had several conferences with the Street Railway Company. Several offers have been made and refused by the company, and we recommend that negotiations be declared off."

Chairman Sweeney, of the Board of Works, said this morning that the reso-lution meant just what it said, and that negotiations with the company were practically at an end, and that only one course remained, an appeal to the Board. The members of the sub-committee seemed rather disappointed that all their labor was in vain. Mayor Stewart, too, expressed disappointment to-day that a settlement had not been reached. "I think it would have been better for everyone concerned if something had everyone concerned if something had been done," he said, "but I am convinced that the company is not ready to do business. When you try to do business with someone who is not ready to do business it is uphill work," The Mayor says he is satisfied that Hamilton has reached the stage new when the comsays he is satisfied that Hamilton has reached the stage now when the com-pany should not be given any reduction in its percentage. The aldermen do not think that under an appeal to the Board these swill get the relief they expected. They doubt if any order could be secur-ed for extensions. The Mayor takes the stand that there is no urgent de-mand for extensions, and that the permand for extensions, and that the pe-ple are not complaining. What is most needed is new cars. Some parts of th roadbed, he says, on the main street in Toronto are much worse than Hamil

If the company sees fit before Monda sight to accept the city's offer to gua intee the bonds and build the extension antree the bonds and build the extensions and make improvements as requested, the Mayor says the adfermen will be still willing to deal with it. "There is no man," he declared, " who is more willing than 1 am to see a settlement." There is little prospect, however, of any-thing being accomplished, for the com-pany has taken the stand that unless it has other concessions in addition to the guarantee of bonds it will not make the extensions. Without these extensions, the aldermen say there can be no settle-ment.

The toast of "The Company" was proposed by Dr. Grasett, Medical Director, and was re-sponded to by Messrs. Gillespic, McMas-ter, Wood, acres and Young. "Our Guest" was proposed by the chairman, who paid a tribute' to the long and faithful service to the company of the guest of the evening, and who wish-ed him every success in the important office he is about to assume. He then presented him, on behalf of his friends at Head Office, with a gold watch suit-ably inscribed. Mr. Burns in replying expressed his sincere thanks at thus fur-ther evidence of the good will of his offi associates, and assured them that, though removed to another sphere, he remained, as he had been for twenty-cight years, a loyal Canadà Life man. The programme was interspresed with musicai selections, and a number of in-formal reminiscences of old davs in the selections, and a number of in ormal reminiscences of old days in the company's head office at Hamilton ounded out what was unanimously vot ed a happy and well spent evening.

FNGAND'S MOST BEAUTIFUL WOMAN.

Some time ago a Chicago newspaper instituted a canvass to determine the most beautiful woman in America, and by an overwhelming vote Miss Marguer-ite Frey, of San Francisco, was selected. Following this invitation the Daily Mirror, of London, started a similar contest, with the result that out of hun-dreds of photographs submitted, the judges (three notable artists) the above was selected as representative of the highest type of refined English beauty. The name of this charming winner is held secret, but thousands of her photo-graphs are being sold by the Daily Mirror.

Under the Act respecting the registra ion of manhood suffrage voters the registration courts must be opened not ater than 16 days before the date of the nominations. That means that May 15 is the latest date that the courts can open in Hamilton-two weeks from today. The chairmen of the registration are appointed by orders-in-Council. This has not been done yet. The ounty Judges, Police Magistrates, Local Masters and Clerks of County Courts are the registrars. As soon as the chairmen, in all probabality Judge Snider and Judge Monek, are notified, they will make arrangements for the holding of the courts.

The chief reason for Premier Whit-ney firing the opening gun of his cam-paign in rtamilton is said to be the un-casiness of some of the party boses as to Hon. J. S. Hendric's re-election. That Mr. Hendrie is not popular in his own riding, and that he has incurred the dis-favor of a section of the rank and file by the distribution of patronage is an open secret.
