Eggs, fresh, per doz. tet has been generally steady since our last, with business checked chiefly by small offerings, and difference of views between buyers and sellers. There was a fairly good business done in the latter part of last week, but since then the movement has decreased. Prices have been well maintained on grain. Stocks have been rather on the decrease and stood Hay, per ton. cn Monday as- follows :- Flour, 8,351 bbls.; fall wheat, 108,059 bush .; spring wheat, 74,586 bush.; oats, nil; barley, 400,563; peas, 74,874, and rye, 12,723 bush.; against on the same date last year-Flour, 15,599 bbls.; fall wheat, 153,939 bush.; spring wheat, 164,616; oats, 19,258; barley, 154,366; spring wheat, 164,616; outs,19,253; barley, 154,366; peas,64,929; and rye,2,750bushels, Outsideadvices show English quotations down 6d. On flour; Id on all sorts of wheat, and a balfpenny on corn. To-day, however, markets seem to have been on the recovery with cargoes quoted at an advance, and only 15 to 20 of wheat, and 5 of corn on sale off the coast. Supplies during last week were on the decrease, and fell con-siderably below the average consumption. Im-ports amounted to 200,000 to 205,000 qrs. of wheat, and 125,000 to 120,000 bis. of flour, and home de-liverise to 105,935 qrs., making a total supply equal to 376,248 to 384,061 qrs. of wheat, against 2,652,000 qrs. on the '3rd inst. and 1,950,000 on the corresponding date last year. Further cable advices state that markets were very dull last week with home-grown wheat so bad in quality as to cause them to be neglected by buyers; the spot trade purely consumptive; the continental demand slackening, and flour in freer supply but slow of sale. Continental ad vices report French markets to have been very quiet; home receipts increasing and prices of cargoes drooping closing at 458. 04 prices of cargoes drooping closing at 458. 04 prices of the similar condition with arrivals at Antwerp small. German markets showed no change in "term" prices though closing rather weak. Matters were quiet in Hungary also, and Russian advices showed no improvement at Odessa. Advices from Adelaide state that the crop in South Australia was turning out better than had been expected. On this continent prices have varied but little. At New York the export demand has been moderate, in part for the Continent. The inquiry for France, being quite unlooked for, has largely contributed to sustain values, and with limited arrivals and a her reduction in the stock in store and in the visible supply, prices have been very well sustained, especially the leading grades of ter growths. The movement at the west for the seaboard has been very light, owing to the great snow blockade there, but ere the close of the month they promise to be much larger. The visible supply of grain, comprising the stocks in granary at the principal points of accumulation at lake and seaboard ports, and on rail from Western lake and river ports, and frozen in on

NOW OFFER FOR SALE OVER 1,350,000 ACRES. Of the Choicest FARMING and TIMBERED LANDS in the Northern Peninsula of Michigan, Destined to be the best wheat-producing region in the world. These lands are situated in the counties of Chippewa, Mackinac, Schoolcraft, and Marquette, and embrace many thousands of acres of the best agricultural lands in the State of Michigan. Among those in the counties of Chippewa and Mackinac are tracts of what are known as the "burnt or cleared lands." These lands offer many advantages over the prairie lands of the West, as the timber lands adjoining insure a supply of fuel at little cost. The soil being a rich clay loam of great depth. The timber remaining upon the land being generally sufficient for the settlers' use in building and fencing. These partially cleared lands are now offered at the low price of from \$1 to \$4.50 per acre, one-fourth cash, and the remainder at purchaser's option, at any time within nine years, with interest payable annually at seven per cent. Roads are being opened through these lands, and no better opportunity has ever been offered to men of small means to secure a good farm, and intending purchasers will be wise by availing them-selves of this chance before prices advance, as the lands are being rapidly taken and settled upon. The lands more immediately on the line of the Detroit, Mackinac, and Marquette Ralinead, from the Straits of Mackinac to Marquette, are more heavily timbered, and are almost universally good agricultural lands, leaving splendid farms when the timber is removed. of Michigan,

The iron and lumber interests of the upper peninsula are of such magnitude as to call for all the harcoal and lumber that the timber and wood upon the lands will produce—this will enable the

FLOUR-Has remained very quiet, with prices howing little change, but that little is in a ownward direction. Superior extra sold on hursday at \$4.75, but was atterwards offered at his price and not taken, and sold on Tuesday, uaranteed Montreal inspection, atfequal to 170; but on the same day choice extra, on the pet, brought \$4.75 Lo.b, cars. TRADE -Seems to have been fairly well maintained. HIDDS-Prices of green remain unahanged; cured (the preceding word is not *could*, as it was printed last week, but cured) have been rather unsctiled, with sales of cars in the latter part of last week at 9]c., but since then at 9]c. CALFSKINS - Inactive and nominally un-changed. GRAND TRUNK RATES .- Rates on flour from

Last work at 3pc, out since then at 19c. CALTSKINS — Inactive and nominally un-changed. SHEEPSKINS—Still slow of sale and weak in price; the best green have ranged from \$1.55 to \$1.65; and country lots weak at \$1.20 to \$1.50. Wool.—Seems to have shown some little im-provement, or at least to have sold rather better since our last, but remains weak in price. One lot of 6,000 lbs. of fleece changed flands at 29c., and some small lots also were moved at the same figure. Super has sold at 29c., and extra-super at 35c. for round lots. Combing, however, has shown no improvement, but continues weak and not wanted, and although buyers are not inclined to pay over the above prices for other sorts, very few holders are inclined to accept them. TALLOW—Steady and in good demand, with all offering taken at 6 to 6 ic. for rendered, and 3ic. for rough.

offering taken at 6 to 6 ic. for rendered, and 3 ic. for rough.
