The plebiscite of Sydney, N. S., resulted in an overwhelming majority in favor of the bonus of \$50,000 to the National Rolling Mills.

"HAVE CHRISTIANS ACCEPTED CHRIST?"

At St. Matthew's Presbyterian church, St. John, on Sunday, the pastor Rev. J. J. McCaskill stated that neither the social nor political systems of modern times were based on the principles of love and charity taught by Christ.

His sermon was, in part, as follows: "The ancient prophets were not soothsayers predicting events, but religious leaders pointing out the true national ideals. Their religion might be described as an ethical patriotism. It was deficient on the side of beauty and on the side of truth. To ascend into the hill of Jehovah ethical righteousness was essential. Conduct for them was the whole of life. Today we believe that God is large enough to include beauty and truth as well as conduct. Science and art are more than mere handmaids to morality. The men who toil and plan to beautify our cities, and are building with God, if they are building honestly, not oppressing the workman in his wage or turning aside the poor from his right. The scientists who sift out truth from error are doing as much as the moralist to lead us to the hill of God. Ignorance of truth, disregard of beauty, as well as moral turpitudes, will suffer God's displeasure.

"But a religion which is an ethical patriotism merely is far in advance of ours today, which may be described as material patriotism. We are dazzled by the hope of the material greatness of our country in days to come. It has vast resources of wealth which time will develop beyond all computation. But the only safe foundation upon which to build society and the state is that of social righteousness. Jesus enlarged the early conception of God by insisting that God was not Jewish, but a universal Father, and that men should live as brothers. The reconciliation between Judaism and Christianity would come quickly if once the teachings of Jesus became the axioms of Christian conduct. Today neither our social nor political systems rest upon the principles of love and charity which He taught. It is commonly said that the Jews rejected Jesus. They did so, in a sense in which they rejected the teachings of their earliest prophets; but the question may well be asked, "Have Christians accepted Him?" Our national ideals must be these which seek for relief from all oppression, and for righteousness and justice in all social relations."

Estimating the population of Canada at 7,000,000, the average deposits per capita are thus almost \$121.

Deducting from the total above, the deposits on demand, which perhaps do not represent to any large extent individual savings, the deposits even then are about \$83 per capita.

The amounts placed with loan, mortgage savings and such companies will increase the average.

Mr. H. Heyman, 132 Colborne Street, Kingston, Ont., says: "Mi-o-na is worth its weight in gold as a remedy to quickly cure long-standing cases of dyspepsia. For years I had suffered with my stomach and could find no cure not even relief. I could not eat anything, as it would sour and form gas on my stomach that had a pressure on the heart. Heavy pains would come around my sides and pit of my stomach. I was unable to sleep for this and there was nothing to relieve my miserable condition. I was weak and languid and would feel as tired in the morning as on going to bed and perspiration would break out all over my body. I would be so weak from vomiting that I would fall to my knees. My head would ache and spells of dizziness would leave me unable to see. Doctors had termed the trouble gastritis, but failed to benefit me. I tried Mi-o-na, which I procured at T. J. Durick on advice of a friend, which has cured me when all else failed. I am sound and well and feel grateful to Mi-o-na for my present health. It's the known results obtained by Mi-o-na that places it far and away above all other remedies and confirms T. J. Durick in offering to refund the money if Mi-o-na fails to cure stomach trouble. 50 cents a box. Relief in twenty-four hours."

STARTLING STATEMENT

It's Statements Like That of H. Heyman, Kingston, Ont., That is Making Mi-o-na World Famous For Obsolete Stomach Complaints,

In New York the rats have become so numerous that the city officials say they must either exterminate the rats or vacate the public buildings. In Europe the hoards of rats have become so disastrous that there are learned societies of all sorts with no other purpose than to combat the pest.

The Calgary Alberton says: "Think of it. While we are looking round for the shade, the people down in Pittsburg are perishing with the cold."

A New York baby was born while the house in which his mother resided burned down. He will probably be a scorchier when he grows up.

FOUR LITTLE ONES LOSE LIVES IN FIRE

Norfolk, Va., Jan. 12—Two children lost their lives and several others were seriously burned in a fire which early to-day destroyed several of the small buildings on the Jamestown Exposition grounds. The children who perished were Neva and Walter Halstead.

Philadelphia, Jan. 12—Two negro children, Alice and George Dickson, were burned to death and a third was so badly injured that it probably will die, in a fire today that damaged their home in the southern section of this city. The grandmother was also burned, and is in a serious condition. The fire was caused by the explosion of a lamp.

It is rumored that the water wagon lost several passengers during the past twenty-four hours.

Think of the irony of fate. A New York parson consigns Dr. Cook to the hot place because he claimed to have discovered the cold place.

Prince Miguel of Braganza, who recently married a wealthy American girl has been sued for a million dollars. There's a honeymoon. Think of the bride saying: "O Miggy how could you?"
