FREDERICTON, MARCH 5, 1892

OPENING OF THE LEGISLATURE.

The session of the local legislature opened on Thursday with the usual formalities and with a speech from the throne in which legislation of considerable interest was foreshadowed. The speech of Mr. Burchill in moving the address was a very creditable effort; was the obligations of neutrality and dignity Mr. Burchill is one of the most highly respected members of the house and is allowed the impression to be created that wish he would speak more frequently as with practice he would make one of the the interim report upon which the govbest debaters in the house of the second ernor acted. It has transpired that he member for Kent, did not make any re-sent the governor, the publication of opened the session with the following marks, merely contenting himself with which the governor, the publication of speech: seconding the motion. The legislation case stood at that time it is clear Mercier foreshadowed this session, covers a good was unjustly dealt with, and the eviddeal of useful ground. Consequent upon ence upon which Angers acted was the report of the lumber commission no more conclusive than that which the country will be pleased to against Langevin which the house of less something done to facilitate the driv-his conviction of personal wrong doing. ing the streams and the opening up of One measure was meted out by the govsome virgin lumber territory. The con- ernment at Ottawa to Langevin, another clusion arrived at by the commission is not yet announced, but it is believed will be found to justify the action of the gov-developments have, it is true, robbed having the thorough knowledge and the province may decline, to adopt the practical experience of Messrs. Randolph, Todd and Ritchie, do not find in the fierce competition to which our woods are now subject in the European market, ample reason for approving the present rate of stumpage. It is not in the interest of the Province that manufacturers should be forced to pay an unnecessarily high impost justice and subserve the public interests. feeted, nor do I see any immediate pros- feeling. He made a very touching referwe believe would be the conditions under which operations would now have to be carried on at an increased rate of stumpage.

If the elections by acclamation on Tuesday in Quebec are to be taken as any indication of the result on the 8th, it will go hard with the Mercier party. The frauds uncovered by the last comm no room for reasonable doubt of Mr. Mercier's guilty knowledge of the misappropriation of provincial funds during his dministration; and were it not for the partizanship exhibited by governor Angers throughout the whole business, there would not be a ray of hope for the present opposition. It is regretted, in the interest of good government, that Angers

THE QUEBEC FIGHT.

should have acted so much in the interest of a political party and have strained Although the weather was very severe. the heaviest storm of the winter, yet long his powers so palpably in the expulsion of his ministry. As we have already rebefore the time for the opening of the house the galleries were thronged. Shortly marked, it is important that honest govbefore three o'clock, a guard of honor ernment should be secured, but it is equally important that reform should be from the Infantry school under command of Capt. county as well.

He said, referring to the speech that however the members might differ with respect to some of the paragraphs, he felt satisfied that all would agree with the sentiments expressed in the paragraph referring to the untimely death of the Duke of Clarence, heir presumptive to the throne with respect to some of the paragraphs, throne.

He eulogized the appointment of the umber commission and said he felt that the gentlemen composing it were able and competent. He had no doubt that their report would be adopted by the house and prove of benefit to the province. He believed that the people of the province engaged too largely in the lumber busi-

ness to the exclusion of other industries, and that when this was depressed there was nothing to take its place. and that when this was depressed there was nothing to take its place. With respect to the mining law he be-lieved that our mines, if properly devel-oped, would add materially to the welfare of the province. He felt deoply the fact that the approximation of the province. He felt deoply the fact that the approximation of the province of the transformation of the province of the transformation of tr was nothing to take its place.
