

OF SPECIAL INTEREST TO FARMERS AND SPORTSMEN

WITH THE FARMERS

FARMERS' MARKETS.
Prices have remained practically unchanged during the past week. No wheat is offering on the market.

Grain.
Oats to millers, 24c; feed oats, 28c to 40 cents.

Dairy Products.
Dairy butter, 20 to 25 cents per lb.; eggs, 25c per dozen.

Vegetables.
New potatoes, 60c to 75c.

Feed.
Timothy hay, \$13 to \$20 per ton; upland hay, \$11 to \$16 per ton; rough hay, \$10 to \$12 per ton.

Live Stock.
The J. Y. Griffin Co.'s circular quotes the following prices, weighed off cars at Edmonton:

Hogs.
Choice quality hogs, 150 to 200 lbs., 7 1/2c; roughs and heavies, 6 to 7c.

Cattle.
Good fat steers, 1,200 and up, 3 1/2c; good fat steers, 1,000 to 1,200 lbs., 3 to 3 1/2c; extra fat heifers, 1,050 lb. and up, 3 to 3 1/2c; medium quality fat heifers, 1,050 to 900 lbs., 2 1/2 to 3c; extra good fat cows, 1,100 and up, 2 1/2 to 3c; medium quality fat cows, 900 lbs. and up, 2 to 2 1/2c; bulls and stags, 2 to 2 1/2c.

Calves.
Good calves, 125 to 200 lbs., 4 to 4 1/2c; good calves, 200 to 300 lbs., 3 to 3 1/2c.

Sheep.
Choice killing sheep, 5 to 5 1/2c.

ENGLISH INVESTORS BUY WESTERN LANDS

Editor of Canadian Gazette of London Outlines the plans of prominent Britishers Which Are Now Making Canada Their Objective Point.

Winnipeg, Sept. 5.—The English investors who have come to Canada this year and invested so heavily in Western Canada lands are no longer seeking for speculation, but for investment. They are not buying for the purpose of holding for speculative increases in value, but with a definite plan for colonizing the lands acquired. This is the new note in Canadian land investments by British capitalists.

The above opinion, voiced at the Royal Alexandra hotel yesterday by C. Keith Morris, investment editor of the Canadian Gazette of London carries added weight from the fact that Mr. Morris, during a sojourn of over two months in Western Canada and British Columbia, has been in close touch with a number of prominent Englishmen who have invested heavily in lands within the past few weeks.

Only Forerunners.
"Those who have come to Canada this year are but the forerunners of a certainly increasing number who will come later on," continued Mr. Morris. "Canada offers a field for investment that no other country in the world offers at the present time and the movement is hardly yet under way. The British investor is at last beginning to realize the opportunities that Canada has for the man who investigates for himself and who plans wisely. The better class of English farmers will be aided and looked after in moving to the new land, in some cases 'ready made' farms will be provided for them, and in other cases the plan is to put them on the land on half crop payments or some similar arrangement. There will be little more of the pitchforking of men into Canada and leaving them to sink or swim, looking only to them for yearly payments on land which they take up. In future they will be looked after, assisted until they learn the ways of the new life, and given every chance and aid to make a success."

Not a Craze.
Mr. Morris while believing that Canadian lands will be one of the chief features of British investments in the world in the next few years, believes that there will be anything in the nature of a craze such as the rubber excitement of the past year or the land speculation that has been going on in that direction will be promptly squelched if it appears, but he hardly looks for anything of the kind as regards the new movement. He thinks that investing so heavily are conservative men of money looking for more or less permanent investment and not for either quick or large profits.

WINNIPEG GRAIN MARKETS.

Winnipeg, Man., Sept. 6.—Wheat values opened strong today but the bears got the better of the argument and prices closed considerably below the opening. Oats values also suffered a decline, but flax gained 1/2c. There were 102 cars of new wheat on hand for auction. Receipts of wheat came 75. The American market Fort William and Port Arthur 1,342,614.50 against 259,488.30 for last year. The total decrease for the past week was 185,485.40. The American market opened fairly strong but a bearish session prevailed and values dropped below the previous prices.

CHICAGO GRAIN MARKETS.

Chicago, Sept. 6.—After a short firmness at the start, the wheat market varied considerably. The report from the Pacific coast saying that five hundred thousand bushels of wheat had been sold there to England and France stimulated the buying by local professionals. A later report stated the amount was only 200,000 bushels, and the buyers were less enthusiastic. Stronger markets were reported owing to bad weather was a factor that prompted early buying. The selling was principally by private warehouses led by Finley, Barrell and Burtlett Fraser.

Foreign markets were badly mixed. Paris was 2 1/2c lower owing to the heavy offering of wheat to that market from England. The heavy world shipments, which were over 13,000,000 bushels in that market.

Liverpool closed 1/4d lower on the nearby deliveries and 1/4d lower on the March. Antwerp was 1/2c higher and Budapest 3/4c higher, while Berlin was unchanged. The weather was favorable. The movement in the Northwest was retarded somewhat by the rains, but the wet weather made conditions ideal in the Southwest, where the ground is being prepared for the new winter crop. Experts now review the crop situation as follows: Current weather conditions are favorable for land preparation and seeding of winter wheat. Every indication is for the largely increased acreage. The cash demand was exceedingly slow according to local receivers. Receipts continue ample. Prime government wheat 2,414,000 bushels for three days, compared with 1,880,000 bushels last year. The visible supply increased 1,155,000 bushels last week and the total is now 25,452,500 bushels, compared with 9,156,000 bushels last year. Local stocks increased 57,000 bushels.

DOUBLE DROWING AT KENORA.

Percy McGregor, Y.M.C.A. Camp Superintendent, and Miss Valentine, Winnipeg, Sept. 5.—Word was received here today from Kenora, Ont., that Percy McGregor, superintendent of the Winnipeg Y.M.C.A. camp at Kenora, and Miss Valentine, 334 Victoria street, Winnipeg, clerk for the T. Eaton Co., were drowned. The two victims were out in a canoe evening on the Lake. The heavy rain was in the Y.M.C.A. camp this morning and the cause of the accident is unknown. The bodies have not yet been recovered. Mr. McGregor was in the employ of the Y.M.C.A. here and had charge of the camp in the summer. The girl was engaged to a man at Saskatoon.

WAS THE YOUTH MURDERED?

Mysterious Tragedy at Plum Coulee—Wound Not Self-Inflicted.

Plum Coulee, Man., Sept. 5.—Isaac Herbert was found dead last evening with a bullet hole in his left temple in an out-house of John Weller, his brother-in-law, in the Mennonite village of Schoenweiser, thirteen miles south of here. The family were all away at the time and a physician who saw the body claims the wound could not have been self-inflicted, although a .22-calibre rifle was found near the body. A lad living near by says he saw a young fellow come out of the Weller's yard and ride hurriedly away on a bicycle. The victim was aged eighteen.

EFFECTUALLY SCARCE BURGLAR.

Buffalo Lady and Daughter Make a Capture.

Buffalo, Sept. 6.—Hearing that Musciman Oscar Haffa, of the Sixty-fifth regiment band, was in Toronto with the regiment, Geo. H. Robertson, of North Tonawanda, evidently thought it was a fine opportunity to burglarize the Haffa residence. He thinks differently now. Hearing a burglar get in early this morning, Mrs. Nellie Haffa jumped out of bed and in a jiffy had her arms pinned to his side. Then she called her seventeen-year-old daughter and together they got him down after a struggle and on him. He is now in the police station.

Has Been Tried Before.

London, Sept. 6.—Nothing is known at Grimby of the proposal to export half a great trade between Grimby and St. John's which Premier Morris forecasted on Tuesday. Little hope is held there of the success of such a venture. Several similar experiments having failed.

THE BRITISH NAVY COMPARED WITH U.S.

Ships of Mother Land in Their Effective Fighting Force are More Than Double in Their Capacity Those of the Other Two Nations.

London, Sept. 5.—The first lord of the admiralty, Reginald McKenna, gave the House of Commons some interesting figures about the navy. He gave the following figures showing the tonnage of the effective fighting ships of the navies of Great Britain, Germany and the United States at different periods:

	United States	Germany	Great Britain
1880	664,888	145,500	1,390,000
1890	1,119,992	168,004	2,200,000
1900	1,889,614	293,461	2,998,800
1906	1,891,807	441,656	4,762,276
1907	1,886,966	447,820	5,472,222
1908	1,934,244	539,714	6,297,747
1909	1,946,128	643,972	7,062,407

From 1906 onward, second and third class battleships, coast defence ships and torpedo gunboats and subsidiary vessels have been omitted as not being effective fighting ships in the British fleet.

Mr. Clough, M.P., asked Mr. McKenna to state the number of miles of construction and armament equipment of the Indomitable, Invincible, Inflexible, St. Vincent, Collingwood, Vanguard, Indefatigable, Neptune, Colossus, Hercules, Orion, Lion, Princess Royal, Conqueror, Monarch and Thunderer; what is the annual cost of maintenance and ammunition of each of these battleships and what is the annual cost of maintenance and pay of officers and men, £70,700.

Mr. McKenna said that of the ships named the first six have been completed and the following figures give the information required in regard to them.

Indomitable—Total cost of construction, £1,623,940; total cost of armament, £90,000; annual cost of maintenance and ammunition, £58,200; officers and men, £70,200.

Invincible—Construction, £1,476,250; armament, £90,000; maintenance, £58,200; officers and men, £70,950.

Inflexible—Construction, £1,430,740; armament, £90,000; maintenance, £58,200; officers and men, £70,950.

St. Vincent—Construction, £1,581,782; armament, £142,400; maintenance, £58,100; officers and men, £68,450.

Collingwood—Construction, £1,539,255; armament, £143,000; maintenance, £58,100; officers and men, £68,450.

Vanguard—Construction, £1,462,270; armament, £142,400; maintenance, £58,100; officers and men, £67,950.

The cost of construction in the case of the St. Vincent and the Collingwood is liable to revision. As regards the remaining ships only estimated figures could be given and it was not considered desirable in the public interest to give such an estimate at present.

THE FORTIFICATION OF PANAMA CANAL.

The Times Says There is no Reason Why Great Britain and the United States Should Not See Eye to Eye in This.

London, Sept. 6.—The proposal to fortify the Panama Canal, which is the subject of discussion in the newspapers here, has raised a question that Great Britain will wish to see eye to eye with the United States. The other powers, however, might not be so anxious to see eye to eye with the United States in the care of a single power.

In the event of a disagreement, the Times says that it is not to be doubted that America would welcome the submission of the question to an international court.

PRaise for Toronto Professor

Professor Coleman's Address Before British Association.

Sheffield, Sept. 6.—At the British Association meeting Professor Coleman of Toronto in his presidential address to the geological section, dealt with the history of the Canadian field to bring together, as he said, our knowledge of the most ancient chapters of history in North America as disclosed by recent field work.

Professor Bonney, proposing a vote of thanks, said it was a great advantage to workers in the narrow field to get so admirably expressed the views of one who had the privilege of examining a great continent. Hardly ever had there been a more luminous and pleasant address. He hoped this was not to be Professor Coleman's last visit.

To his British conferees in the report by Dr. Maxon on new exposures discovered in ancient rocks in York-shire, Dr. Spencer of Toronto spoke of a similar series of fossils he had investigated in Canada.

Paris, Sept. 5.—At a meeting between

the Duke of Abruzzi and Senator S. P. Elkins, of West Virginia, to be held here today, plans for the official announcement of the duke's engagement to the senator's daughter, Katharine, will be discussed. After the conference according to the report, the Elkins family will go to Raconigi Castle, where they will be present to the duke's family. Afterward Miss Elkins will visit the valley of Aosta, made famous by Abruzzi's writings.

ATTEMPT TO SMUGGLE PEARLS WORTH \$6,000

Wife of Wealthy American Attempts to Smuggle Pearls into New York—Has Gems Sewn in Her Hat.

New York, Sept. 5.—Tucked away like peas in a pod within a hollow wire of the bandeau of her picture hat she wore, pearls valued at \$6,000 were seized by customs officials from Mrs. L. Reynolds Adriance, of Poughkeepsie, N.Y., after a search and cross-examination lasting three hours.

Mrs. Adriance arrived on board the Baltic, of the White Star Line, from Liverpool. The vessel tied up at pier 59, North river. The woman was not arrested, because of the promise of her husband that if she were not taken into custody both would appear at the customs house today.

Information obtained by C. C. Wall, a special treasury agent, was that Mrs. Adriance had purchased a necklace of pearls in Florence. There was no attempt to interfere with Mrs. Adriance until after ten trunks and bags had been inspected, and Mrs. Adriance had paid \$180 duty on dress goods. Customs officials noticed that Mr. Adriance had set down each item, and was provided with the accompanying receipts to show sums paid for goods purchased abroad. John Raczewicz, a deputy surveyor, asked her whether she had purchased any jewelry. Mrs. Adriance said she had purchased her clothing on board the steamship.

"This is a piece of impertinence," said Mr. Adriance. "I question your authority to search Mrs. Adriance." Raczewicz then directed that Mrs. Clark and Mrs. Darragh, inspectors, go with Mrs. Adriance and her daughters to a stateroom on board the Baltic and make a careful search.

Gold mesh bag and some lace were found, but the inspectors found no necklaces. When the mesh bag was found, Mrs. Adriance took from it a folded slip of paper, saying it was a private note. After she had torn up the paper, the scraps were recovered and pasted together. The officials detected a delightful expedition and also concluded a bill had been destroyed. Then Mr. and Mrs. Adriance were told that they would not be allowed to go until the pearls were produced. Mrs. Adriance said she had a briefcase, and then Mrs. Adriance came to Raczewicz and said that his wife had admitted that she had purchased necklaces.

Mrs. Adriance again went on board the steamship with the woman inspectors, who believed that they had made a mistake. The woman inspectors heard sounds of cloth being ripped. They were admitted to the stateroom and saw Mrs. Adriance ripping the mesh bag. She was said to be one. The gems fell on the floor, and soon all the women were on hands and knees until the jewels were picked up.

The hat was made to wear with the tailor-made gown in which the woman was dressed. She asked that the hat be returned to her. She was said to be one. The gems fell on the floor, and soon all the women were on hands and knees until the jewels were picked up.

Indications of Minerals.

Extensive schemes that may be a great bearing and that are certainly worth prospecting occur on the Upper Etchiminian, Oxford Lake and Kneze Lake, appearing to extend to the westward of the lake.

The Governor General was met by the government steamer Earl Grey at Nelson harbor. The run to Churchill was most enjoyable, and he described summer sailing on the Mediterranean as Canada as quite as pleasant as the Mediterranean of the old world.

Next Stop Newfoundland.

Ottawa, Sept. 5.—A telegram to the Deputy Minister of Marine and Fisheries, from the government steamer Earl Grey, with the Governor General on board, says the vessel reached St. Anthony, Labrador, Saturday at daylight, and the next stop will be Bay Islands, on the western coast of Newfoundland, on Monday.

Is It a Blend or Not?

Washington, D.C., Sept. 3.—Solicitor George P. McCabe, of the Department of Agriculture, has filed a brief with the Attorney-General in the matter of labeling "Canadian Club" whiskey under the Pure Food Laws, help, and the suffering of the miser.

The department claims that the product is required to be labelled a "Holiday" of the firm of H.H. Holiday and Brothers, steamboat owners, write on a fishing trip in that region, brought relief to the sick men.

Perugia Seminary Closed.

Perugia, Italy, Sept. 5.—The historic seminary has been closed by order of Pope Pius X. It had been described as the last refuge of liberal Catholics in Italy. It is understood that the direct cause of the closing of the institution was a reception given by students to King Emmanuel on the royal visit to Perugia.

Portugal Received No Answer.

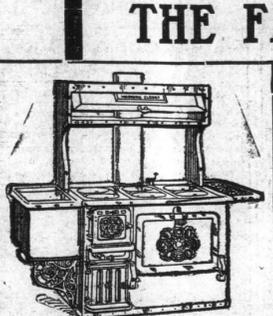

Lisbon, Sept. 3.—The court has not yet received a reply from the Vatican to its protest against the ordinance of certain members of the government by Monsthor Dr. J. Tonti, the Papal Nuncio.

The latter stated that the officials were following in the footsteps of Premier Canalejas, of Spain, and the government considered the expression as constituting an improper interference in the politics of the country.

London, Sept. 5.—Seismic disturbance

lasting more than an hour was recorded in the vicinity of Madrid this morning. The first shock was a violent one, and was followed by gradually lessening ones until nearly 2 o'clock. The earthquake, as calculated, were 5,000 miles distant.

THE FARMER'S STORE

In order to successfully attend to your requirements we have installed a special mail order department, who will be engaged exclusively upon the demands of our out-of-town customers. Our stock is complete with every article necessary for the home or farm use. We will be delighted to attend to any requests sent in by mail. Read the following list when convenient.

- Arcadian & Niagara Steel Ranges; Heating Stoves for wood or coal; Laundry Stoves; Oil Heaters.
- Woodenware Enamelware Tinware Nickel plated Tea, Coffee and Water Kettles
- Chopping Axes and Lumbering Tools, Leather and Rubber Belting, Mill and Mining Supplies.
- Paints, Oils, Varnish and Stains for House, Barn, Carriage, Wagon
- Washing Machines, Wringers, Churns

The Sommerville Hardware Co. LIMITED

FIRST STREET EDMONTON JUST NORTH OF JASPER

GOVERNOR-GENERAL IS DELIGHTED WITH TRIP

Wireless Message to Secretary of State He Tells of Expedition Through Hudson Bay and Strait—Says Summer Sailing on Canada's Mediterranean is Delightful.

Ottawa, Sept. 3.—Earl Grey has telegraphed to the Secretary of State his story of his trip through Hudson Bay and Strait. The telegram came by wireless from some point in Labrador. The Governor-General tells of a delightful expedition and also of the good land and areas which should be worth prospecting for minerals. For some distance on his way overland from Lake Winnipeg the country was rocky, though a large area of good land lies to the north and becomes plentiful as Oxford Lake is approached. Along Kneze Lake and from there to the bay the soil is deep, consisting of clay and clay loam.

ATTELL-LAUDER COM' SP.

Flight Will Be Feature in Calgary Labor Day Celebrations.

Calgary, Alta., Sept. 4.—The labor men have arranged for a big celebration tomorrow.

There will be a big parade in the morning in which all the unions will take part, as well as the municipal officials and political representatives. In the afternoon the unionists and the Alberta Athletic Association will hold a joint meeting at Victoria Park.

On Monday morning, Abe Attell and Billy Lauder meet in a fifteen round contest in an arena erected in the suburbs of the city. Attell is giving the little Scotchman considerable weight and a good contest is looked for.

WEREN'T INVITED; ARE ANGRY.

Jack Barrymore, Well-Known Actor, Didn't Have Guests at Wedding.

New York, Sept. 6.—There was indignation and surprise in theatrical circles today, when it was learned that Jack Barrymore, the actor, and Miss Katherine C. Harris, the 18-year-old daughter of Sidney Harris, of this city, had quietly slipped off and married.

Most of the white light district had hoped, when the marriage license was issued two weeks ago, to be guests, but only closest friends of the couple were present at the ceremony, which was performed at St. Francis Xavier Church yesterday.

The wedding followed the romantic engagement of the couple, which was announced by Miss Harris' father because of her youth.

CAPT MIKKELSON IN NORTHLAND

Alabama Survivors Declare He Cannot Reach Cape York This Year.

Copenhagen, Sept. 3.—Five members of the wrecked Alabama expedition to Greenland returned to this city last night. First Officer Laubson, whose regular position is that of a captain of the Scandinavian American line, says he is sure that Capt. Elmer Mikkelson and his companion will be able to carry out their venturesome sledge journey and return from north Greenland.

Capt. Mikkelson had with him provisions for 100 days, but he cannot reach Cape York before next summer, and must depend upon the hunting along the Peary channel. The explorer is prepared to live in Eskimo style in snow huts, just as he did on his Alaskan expedition three years ago.

13 Indians Dead From Measles.

Quebec, Sept. 6.—An epidemic of measles is reported in various fishing settlements on the north shore, between Natushgan and Harrington Harbor. So far thirteen Indians have succumbed, and the disease has spread to a camp where white men are established. That section of the coast is entirely deprived of all medical help, and the suffering of the miser-able men was intense. Mr. Phillip Holaday, of the firm of Holaday and Brothers, steamboat owners, write on a fishing trip in that region, brought relief to the sick men.

OLD GUARD CLAIMS THAT HE ISN'T EVEN A REPUBLICAN.

New York, Sept. 6.—The Republicanism of Col. Theodore Roosevelt will be questioned at the New York State Republican convention should his followers insist on forcing an issue over the temporary chairmanship. This was indicated today by leaders of the "Old Guard" who said it was "entirely possible that the state convention would be asked to pass upon what constituted a Republican so far as a delegate was concerned."

"That the 'Old Guard' plans a 'back fire' on the Roosevelt force came to light today. They will make their supreme effort in New York county, where they will attempt to get the delegates to the State convention from several districts supposed to be absolutely loyal to County Chairman Grieston."

End of Coal Strike in Sight.

Chicago, Sept. 6.—Following a conference between committees of the Illinois Coal Operators' Association, and the Illinois body of the United Mine Workers of America, yesterday it was announced that the end of the strike of forty thousand coal miners is in sight, and that today will probably see the end of the dispute which began April 1. Miners and operators have practically come to an agreement and all that remains for the two committees is the arrangement of details in connection with the settlement.

Below will be found some few particulars of our leading lines suitable for constructional work, outdoor implements that can be relied upon to give satisfaction. Our hardware store is open at all hours during the day to assist and suggest to customers and we will be delighted to see you when convenient. If unable to call drop us a postal and we will attend to your orders.

Our domestic stock cannot be excelled for quality and low prices. We make a specialty of Table Cutlery. Our selection of Rifles, Revolvers, Guns and Ammunition is second to none in the city. Further particulars will be forwarded on request to any address in the province.

Of Interest to You!

Special representatives for RIVAL HOMESTEAD AND WASCANA RANGES, ALBERTA and GOOD CHEER HEATERS, besides several other high-class and ornamental Heaters and Cookers. . . . We have a splendid stock of carpenters' Tools and Farmers' Implements of the finest standard.
