"GOOD CLOTHES."
We all like to wear what we call "Good Clothes." Now good clothes are costly—not dear—but they become dear if they have to be discarded practically unworn. The French Dry Cleaning Process meets the difficulty. We can afford to buy the best and most beautiful fabrics without being extravagant, because of their quality we can rely on being able to have them restored by this process to their original beauty quite often enough to enable them to be eventually discarded without a lament.

A New Novel by a New Writer.
The Honey Pot by Countess Barcynska. It is a story of the stage, and never perhaps have the expectations and disappointments of the aspirant for a successful stage career been more naturally described. Two girls, Maggie and Lexie, hold the interest throughout. They are excellently contrasted. Maggie, the daughter of an actress, having been associated with the stage from her earliest childhood and influenced by its freedom, while Lexie has been brought up in refinement and wants a career for the use of her talent. It is not too much to say that Maggie, the lovable and loving girl who, with all her worldly wisdom, falls a prey to the man who captures her fancy, is a triumph of characterization. Natural and human she is the heart of the book; but hardly less interesting is Lexie's stubborn fight with its happy ending and the many intimate pictures of the life of the chorus girl. The whole story rings true. Paper, 65c.; Cloth, 90c.

Farmers, Attention.
Nitrate of Soda the Great Fertilizer!

We have a small quantity unsold and will not be importing any more this season owing to present excessively high freight rates.
We would advise our customers to secure their requirements WITHOUT DELAY, even though the price be high, as we figure it will be found more economical to pay a LITTLE EXTRA for NITRATE OF SODA now and secure good crops than to pay a LOT EXTRA for your hay next winter.
