THE FORBIDDEN CITY," 6 Reels.

By George Scarborough, featuring Norma Talmadge.

An altogether delightful six-reel picture of love in the mystic Orient. Have you ever seen your own Norma Talmadge as a sweet coquettish maid of the East? The many theatre-goers who have seen and admired the splendid performances of the "Mikado" and 'Geisha" will certainly enjoy this picture, which abounds in Oriental splendor, and shows on the screen as the opera does through song the atmosphere of the Orient.
