RECOGNITION.

The care of the teeth is now recog-
nized as a necessity. In fact the large
hospitals, all over the world examine
the patients' teeth and where it is
possible put them in good condition
before attempting a surgical oper-
ation. Experience has shown that the
patient has a better chance for re-
covery with a clean healthy mouth than
without it. This ought to convince
the most skeptical that care of the
teeth is requisite to health.
