

Renault Awarded Decision Over Godfrey -- Abe Goldstein Retains Crown

PHILADELPHIA FIGHT IS WON BY CANADIAN

Jack Renault Awarded Judges' Decision Over George Godfrey.

JOE LYNCH LOSES

Associated Press Despatch.

Philadelphia, Sept. 8.—Jack Renault of Canada tonight won the judges' decision over George Godfrey, Philadelphia, in a ten-round bout, marked by much clinching and a knockout in the eighth round.

Renault weighed 200 pounds and Godfrey 215. It was the Canadian's second victory over Godfrey. He stopped the negro in the seventh round about a year ago. Renault said he hoped his next fight would be with the winner of the Willis-Fire match at Jersey City Thursday night.

Tonight's decision appeared unpopular with many at the ringside, but the judges were unanimous in their verdict. In the early rounds Renault clinched repeatedly, and seemed to tire under the continuous body punches of the negro, who drove the Canadian to the ropes. Renault landed the blow to the stomach. From then until the seventh round there were but few effective blows landed by either man, and the crowd frequently called for more action.

Renault sent a hard right to Godfrey's stomach at close quarters at the opening of the seventh, and followed with rights and lefts to the body. Godfrey also landed a number of hard blows to the body, and rushed the Canadian to the ropes. Renault landed the blow to the stomach. From then until the seventh round there were but few effective blows landed by either man, and the crowd frequently called for more action.

In a preliminary, Joe Lynch, former bantamweight champion, lost the unanimous opinion of the judges to Pete Sarmento, a Philippine. Sarmento staggered Lynch with a blow to the jaw, and Godfrey forced the fighting all through.

In the semi-final, George Cheney of Baltimore knocked out Danny Kramer of Philadelphia in 22 seconds.

ITALY BULLS HOPE FOR WORLD PEACE

Attaches Strings To Her Acceptance of Obligatory Arbitration Plan.

Associated Press Despatch.

Geneva, Sept. 8.—Italy's declaration today before the disarmament commission of all questions of the dominant subject of disarmament in Geneva, which last week's memorable proceedings in the assembly had created.

Italy's position was presented by Signor Schanzer, former foreign minister, and many delegates thought were comparing it with Italy's attitude at the last assembly when she questioned the right of the council to pass upon the Corfu affair.

Signor Schanzer's whole argument was that disputes of a political nature should be left to the council and that only questions of jurisdiction should be submitted to the world court of justice, which in the past has been used by the Americans virtually decided which state was the aggressor.

Commission At Work. With businesslike directness, the disarmament commission of the league assembly began this afternoon its examination of all questions of the dominant subject of disarmament in Geneva, which last week's memorable proceedings in the assembly had created.

TOMMY HINDS IS KILLED ON TRACK

Harness Driver Dies Following Crash at New York State Fair.

Associated Press Despatch.

Syracuse, N.Y., Sept. 8.—Tommy Murphy, Syracuse, reinsman and leading horse winner for the season among the Grand Circuit drivers made his 1924 debut before his fellow townsmen today with a victory as driver of Hope Frisco, the favorite in the 2:10 trot, the opening event of the circuit program at the New York State Fair.

Hope Frisco won the first two heats in easy fashion and was second in the third, losing ground because of a "break" at the half-mile mark. Murphy was bruised and badly shaken up in an accident during the second heat of the first race, which proved fatal to Tommy Hinds. Despite his experience, Murphy returned to the track for the third heat, with the permission of the judges, and drove his Clyde the one and a half mile, although the great home crowd was in the stands.

Stirling, winner of the first two heats, was the closest rival of the Clyde, honors going to Hal N. C. A. driven by Martin.

President Coolidge To Receive Evidence In Firpo Case Today

Associated Press Despatch.

New York, Sept. 8.—President Coolidge will receive the evidence of Canon William S. Chase upon which he bases his demand for the deportation of Luis Angel Firpo, Argentine heavyweight, tomorrow. Three days hence Firpo was scheduled to meet Harry Wills, an announcement that Canon Chase had obtained an appointment at the White House was made by his attorney, Bernard H. Sandler.

All the allegations against Firpo are based upon his alleged relations with Miss Bianca Lourdes Picart, a passenger on the steamer which brought the Argentine to the U. S. early in the year.

The president can revoke bail," Mr. Sandler said, "and if bail is revoked Firpo can be confined on Ellis Island until the hearing. The commissioner of immigration must approve Mr. Curran's act in permitting bail of \$10,000. The U. S. is not mandatory, but discretionary, and the president may order it revoked through Secretary of Labor Davis."

I think the issue is big enough for the president, because the whole country and foreign nations are interested in our immigration policy.

GOLDSTEIN IS GIVEN DECISION OVER RYAN

World's Bantamweight Champion Successfully Defends Crown.

Associated Press Despatch.

Long Island City, Sept. 8.—Abe Goldstein, world's bantamweight champion, successfully defended his title in a furious fifteen-round match tonight against Tommy Ryan of McKeesport, Pa., at the Queensboro A. C. The challenger narrowly escaped a knockout in the thirteenth round.

Goldstein had a wide margin on his opponent after the seventh round. Previous to this the titleholder fought more of a defensive battle, working under wraps and concealing the attack that later carried him to a sweeping victory.

In the thirteenth round Goldstein, working from long range, swung his battery of rights and lefts into action and drove the redoubtable Ryan about the ring, punch drunk and on the verge of a knockout. Again in the fifteenth round it looked like the slenderer Goldstein he gamely mustered enough resistance to weather the storm and remain upright until the bell.
