The Trades and Labor Congress, Quebec, Sept. 5. Considerable interest has manifested here in the proceedings of the Dominion Trades and Labor Congress...

Sophie Guenberg, the famous nihilist, who was sentenced in November last to imprisonment for life at Schusselburg, an island of the Neva, 21 miles from St. Petersburg, has committed suicide...

Belleville, Ont., Sept. 5. - Owing to the unauthorized use by a brakeman of the signal projecting the diamond crossing at Jockeyville Junction a passenger train was backed into a freight, which had just started to cross. The station buildings prevented the trainmen from seeing each other in time, Conductor Stewart was killed and one lady slightly injured about the face.

St. Paul, Minn., September 6. - As threatening progresses throughout the North-west, reports of large yields of wheat increase in number. The most conservative estimates place the wheat yield of Minnesota and Dakota at 125,000,000, as against 90,000,000 last year. The Great Northern people claim that the wheat crop of the three states would fill a train 250 miles long.

Durban, Oct., Sept. 6. - A very sad accident occurred yesterday afternoon at Latona, in Glenly township, by which Jas. Young lost his life. Mr. Young had driven a neighbor's distance of a mile and a-half, on a road cart, and when ready to return drove over a little knoll on one wheel of the cart, upsetting him and landing him on his head. The shock produced concussion of the spine, which caused his death in two minutes. The deceased was about 67 years of age, and leaves a wife and large family, all of whom are grown up.

LATEST NEWS BY CABLE.

The Porte Refuses to Allow Jews to Land in Palestine.

Alleged Plot Against the Sultan.

Relief Measures for Destitute Russian Peasants - Improvement in the Indian Crop Prospects - Gladstone Objects to the Formation of a Labor Party - Crisis in North Wales Injured by a Gale - Suicide of a Famous Female Nihilist.

London, Sept. 6, midnight.

A Simla despatch says - The agricultural prospects generally have taken a turn for the better, and the affected districts of Madras and Hyderabad are also improving.

GREAT DAMAGE TO CROPS. A terrific gale in North Wales has caused further great damage to crops. Prayers were said in the churches to-day for fine weather.

A POINTER FOR DEVED. Russian newspapers rejoice at the fall of Kiamli Pacha, and hint that if Djedev Pasha desires the good will of Russia he should promptly and forcibly terminate the Bulgarian quarrel.

FROM CHILL. A despatch received at the Chilian Legation, Paris, from Santiago de Chile, says: The Provisional Government of Chile has been forming a party, in his own words, to the powers and to all countries appearing disposed to recognize the present administration of Chile.

THE POWERS FORGING CHINA. A despatch to the Times from Singapore says - Shanghai telegrams state that the powers are forging a party, in his own words, to the powers and to all countries appearing disposed to recognize the present administration of Chile.

GLADSTONE OBJECTS. In a communication just made public, Mr. Gladstone writes in favor of increased representation of labor in Parliament, but deprecates the formation of a labor party. His objection to such a party, in his own words, is on the ground that "if every class of the community exercised the right to form a party we should have a queer Parliament."

MRS. SPURGEON RETURNS THANKS. The wife of Rev. Charles H. Spurgeon has issued a card of thanks for the public and private sympathy expressed for her sick husband. Mrs. Spurgeon adds that she is sorry to say that her husband is making little if any progress towards recovery, and that his friends must wait the Lord's time for an answer to the petitions which are constantly ascending.

NO PLACE FOR THE JEWS. A letter is published here from the minister in charge of Christ Church, Jerusalem, saying that on petition of native traders the Sultan has stopped the influx of Russian Jews, and that he will not permit them to land in Palestine without a special order. Fifty families who recently arrived by steamer were sent back. The letter adds that Baron Hirsch ought to arrange with the Porte terms of settlement, which would permit of Jews locating in Palestine.

PLOT AGAINST THE SULTAN. A Constantinian despatch says - Ahmed Eyub has been arrested. Grand Vizier, succeeded Djedev Pacha, who had just been promoted from the governorship of the Neva, 21 miles from St. Petersburg, has committed suicide. His dismissal is now understood to be for complicity in a plot for the deposition of the Sultan.

RELIEF MEASURES. The orthodox clergy of Russia will organize collections throughout the country for the relief of the distress prevailing among the poorer classes in many parts of Russia. The Holy Synod will institute offertories in the churches and has ordered that the funds of the wealthier churches and monasteries be drawn upon to assist the destitute. Relief committees are being formed in the principal towns throughout Russia for the reception and distribution of donations for the suffering classes.

A Nihilist's Suicide. Sophie Guenberg, the famous nihilist, who was sentenced in November last to imprisonment for life at Schusselburg, an island of the Neva, 21 miles from St. Petersburg, has committed suicide. She had been dependent for many months, but recently she seemed to be regaining her usual spirits. Finally she secured by some means a pair of scissors, and with them hacked her throat in so determined a manner that she died in spite of the efforts made to save her life. Sophie was tried at St. Petersburg, was acquitted, and subsequently on the charge of having been implicated in a plot to kill the Czar. All three prisoners were condemned to be hanged. The court, however, recommended that the Czar remit the sentence of death against Stoenanofsky and Friedel, and they were banished to Siberia. For a long time Sophie's life had hung in the balance, but the sentence was finally commuted to life imprisonment. Sophie and other nihilists had previously been tried in Paris for having explosive bombs in their possession. She was much admired by nihilists throughout Europe. After the murder of General Selverskoff in Paris in November, 1890, the Eclair, a newspaper of Paris, stated that a nihilist committee had decided that if Sophie Guenberg had decided to die, Selverskoff, said to be the director of the Russian police in France, would be speedily killed. Sophie was sentenced to be hanged on a Monday, and the shooting of Selverskoff by Padlewski, it was supposed, took place on the following Tuesday.

Jules Etie-Launay, the French painter, is dead at Paris. He was born in 1828.

ATTACKED BY A MADMAN.

Thrilling Scene on a Small Boat of the Kentish Coast.

London, September 5. - A startling story telegraphed from Deal, Kent, a seaside town near Dover. Loud cries for help, mingled with oaths and curses, were heard early this morning some distance seaward, and almost directly off the town of Deal. Two boatmen immediately entered a boat and put to sea to enquire into the mysterious cries. The policeman, however, had been preceded and distanced by two Deal boatmen, who also went to the scene. The boatmen found a boat of the ship G. L. Wafers and witnessed a horrible sight, which was going on in the small craft. Crouching in the stern of the boat was her captain, brooding away in a little boy in his left arm and a young sailor, both desperately defending themselves against the attack of another man. The latter, according to the boatman, was an athletic seaman, mad or drunk, who was attacking the captain and the young sailor with his sheath knife. Upon the approach of the boatman the drunken seaman threw the oars overboard, and, clutching the young sailor, refused to allow them to rescue the occupants of the small boats. The mad seaman beat off the boat, and later on also beat off the police, who came upon the scene. The result was that the ship's boat was allowed to drift away in the mist and eventually disappeared. Later in the day, search for the drifting boat and its occupants was renewed, but up to 3 p. m. nothing has been received from Deal on the subject.

TWO BURNING QUESTIONS.

The Dardanelles Affair and the Evacuation of Egypt.

Russia Reported Massing Troops at Warsaw - The German and Austrian Premiers Recommend a Waiting Attitude on Part of England - The British Mediterranean Fleet to be Increased.

London, September 5. - There is no doubt that the attention of Europe is at the present moment again painfully concentrated upon Turkey. That luckless country is at present a prominent factor in two important questions, both of which are enough to furnish the spark which may light the torch of war in Europe - the Dardanelles incident and the question of the evacuation of Egypt. The latter having more direct and absorbing interest to France is the most commented upon in Paris. The newspapers of that city are at length to the report circulating in official circles, the substance of which is that the first act of the new Turkish cabinet will be to bring forward the question of the evacuation of Egypt by the troops of Great Britain. It is also rumored in the same circles that the Porte will, practically speaking, at the same time address a circular to the powers announcing that it does not intend to modify the treaties affecting the passage by foreign warships of the Straits of the Dardanelles. Russia's demands in connection with the detention of the volunteer force of the Moscow, Zeitung, of Vienna, characterized Russia's action in the matter as a direct provocation to England and the other friendly powers. The main Dardanelles question does not center so much upon the Moscovite detestation going and coming from Vladivostok as upon the similar delaying of the Kostroma, another vessel of the volunteer force, and a transport carrying from Kamschatka with troops on board. This stoppage took place while the Russian ambassador, M. de Nelidoff, was still insisting upon an apology and indemnity for the detention of the vessel, which the commander-in-chief of the French army, in case of war, the final battle will take place on Wednesday next, around Vendevue. The military operations to-day consisted mainly of cavalry scouting to protect the advance of the armies, and the movements were executed with surprising speed. A battalion of infantry under Gen. Davout covered a distance of nearly six miles in 50 minutes, their object being to secure a strong position. An exciting cavalry encounter concluded the day's evolutions. After the exercises Gen. Saussier addressed the staff, commending the work done, but pointing out a few minor defects. In consequence of the excessive heat which prevailed yesterday and to-day five cases of heat apoplexy have occurred, while in Turkey there were fifty serious cases of sunstroke.

Vienna, Sept. 5. - The Austrian army manoeuvres about Schwartzau were continued to-day. The Austrian and German emperors and the King of Saxony, with their suites, were in the field by eight o'clock this morning. They took up their position at Balzerose, on the highest ground in the district commanding a view of the opposing forces, the center of the conflict, which commenced at 9 a. m., being in their immediate vicinity. All the forces were engaged, and the effect resembled that of a severe battle. The cavalry forces were much hampered owing to the wooded nature of the country. The two Emperors watched the evolutions for an hour, exchanging comments in a most cordial manner. They then joined the southern force, Chancellor Von Caprivi and Count Kalnok were also witnesses of the evolutions, and all were struck with the order of the marching and the endurance of the men. Operations were suspended at noon and the two Emperors returned to Schwartzau.

SHIPPING.

Dates, Steamships, Reported at, From.

Sept. 5 - Date, London - New York - P. & O. - 11 - Hamburg - Kaizer Wil - 12 - Bremen - Canadian - Philadelphia - Glasgow - Nova Scotia - Baltimore - Liverpool - 13 - Liverpool - Montreal - Mongolian - 14 - Liverpool - 15 - Liverpool - Father Point - Liverpool - London Hill - New York - La Toussaine - New York - Havre - Queenstown - New York.

Sunk in a Collision. Boston, Sept. 6. - The steamer Indian, from Philadelphia, which arrived to-day, brought news that his wife and two children and the crew of the schooner Andrew J. York, of Portland, Capt. Nickerson reports that the Indian sank in the York shortly after midnight last night, during a dense fog, half way between Cross Rip and Handkerchief Lightship, cutting her hand way through. The crew of the York immediately lowered their boats and all hands boarded the steamer, saving nothing but what they stood in. The schooner filled and sank in two minutes. The steamer is not damaged.

Arrested for Murder. Guelph, Ont., September 5. - Habits Saad, an Arab, about 23 years of age, was arrested by Deputy-Sheriff Kenny, of Lockport, and Chief of Police Handif, near Acton, to act on the charge of murdering his cousin, a young woman about 20, near Lockport, N.Y., on the 27th of August last. His brother Anthony was also arrested as an accomplice. The three were last seen together in a bush near Lockport. The body of the woman was afterwards discovered with two bullet holes in her back and her skull crushed. Deputy-Sheriff Kenny left with the prisoners on the evening train.

Big Shipments of Wheat. Chicago, Ill., Sept. 5. - Vessels were chartered here yesterday to carry 1,750,000 bushels of grain to Buffalo. Not only were all the boats now in port taken to the grain shippers, but nearly all the fleet to arrive here next week were also chartered. Every vessel in the great lake not tied down by contracts for next week was called for, and still the shippers wanted more. Rates were advanced to the basis of 3 cents on corn and 31 cents on wheat, the rush was understood to be owing to the fact that the corn clique, which had largely sold their holdings for October shipments from New York, declared it was now time to get it started on Chicago.

Thrown From a Cart and Killed. Durham, Oct., Sept. 6. - A very sad accident occurred yesterday afternoon at Latona, in Glenly township, by which Jas. Young lost his life. Mr. Young had driven a neighbor's distance of a mile and a-half, on a road cart, and when ready to return drove over a little knoll on one wheel of the cart, upsetting him and landing him on his head. The shock produced concussion of the spine, which caused his death in two minutes. The deceased was about 67 years of age, and leaves a wife and large family, all of whom are grown up.

Fatal Railway Accident. Belleville, Ont., Sept. 5. - Owing to the unauthorized use by a brakeman of the signal projecting the diamond crossing at Jockeyville Junction a passenger train was backed into a freight, which had just started to cross. The station buildings prevented the trainmen from seeing each other in time, Conductor Stewart was killed and one lady slightly injured about the face.

A Great Wheat Crop. St. Paul, Minn., September 6. - As threatening progresses throughout the North-west, reports of large yields of wheat increase in number. The most conservative estimates place the wheat yield of Minnesota and Dakota at 125,000,000, as against 90,000,000 last year. The Great Northern people claim that the wheat crop of the three states would fill a train 250 miles long.

An American, giving the name of Carleton Graves, was arrested yesterday at Mayence, charged with being a spy.

The North German Gazette says that at the request of the Italian Government Germany has undertaken to protect Italian residents in Chile.
