

GRAND SUCCESS

Wonderful Growth in Sales During 1908.

The year just passed will long be remembered for the financial and commercial depression. Business houses all over Canada were affected. Most of them show a loss over 1907. Some did about as much business last year as the preceding one. A few—a very few—show substantial gains. In spite of "hard times" and "financial depression" the sale of "Fruit-a-tives" doubled in 1908 over 1907.

BEAUTY IS SKIN-DEEP

This is just as true of a Piano as a person. A handsome woman does not necessarily possess a beautiful voice, but when she does, she is doubly attractive. The beauty of the

GERHARD HEINTZMAN PIANO

only begins with the external handsomeness of the case. The beautiful and prolonged vibration of its voice—like tones, its complete response to every varying mood of the performer as as delightful to an artist's heart as the beautiful voice of a beautiful woman.

Come in and try this splendid and most durable instrument. Should you desire to purchase, we can quote easy terms of payment if you desire, or allow you a liberal price on your present piano.

FLETCHER BROS.

Sole Agents for the Gerhard Heintzman Pianos. 1231 Government Street, Vancouver and Nanaimo.

LOST LIFE WHILE SAVING SHIP'S PAPERS

How Purser Fred. J. Stephen Gave Up His Life in Doing His Duty When the Steamship Ohio Was Lost

FIVE WERE LEFT WHEN BOATS WENT

Further advices received from survivors of the lost steamer Ohio which foundered at Carter Bay tell of the death of Purser Fred J. Stephen, a former Victoria, who saved his papers after doing all that was possible to save the passengers after the last boat had left the steamer. There were five of them standing aft on the wrecked steamer after the boats had left the vessel's side, Stephen, Operator Eccles, Freight Clerk Ruch and two others. The last boat had left the steamer's side, and after helping the passengers to safety, the five were left on the wrecked steamer. Stephen turned to the others and said:

"I guess I've time to go down and get my papers." With that he went down to his office below decks, and meanwhile the other four were filling aft, and foundered quickly. Stephen was caught below deck, and he was killed. Stephen was about 20 minutes in the water before being rescued. He most succumbed.

Providence assisted the shipwrecked people in minor ways after the disaster. While they were huddled on the beach in the rain awaiting the coming of the fishing steamer Kingfisher a case of oilskins floated ashore from the wreck, supplying a large number of them with oilskins.

ROSEBERY IS AGAINST BUDGET

London, Aug. 30.—The greatest satisfaction of the present budget campaign was furnished today when Lord Rosebery accepted an invitation from the Liberal Unionists to speak at an anti-budget meeting to be held in Glasgow September 1. Lord Rosebery, who has been invited to do so, is expected to be present at the present time, been opposed. Lord Rosebery has a large following of independent voters and his acceptance of the invitation will be a hard blow to the budget, which recently seemed to be gaining in popularity with the masses.

BOARD REPORTS FT. WILLIAM STRIKE

Thinks Strike Would Not Have Occurred Had Men Understood the Lemieux Act.

Ottawa, Aug. 30.—In his report to the minister of labor the board of conciliation and investigation which enquired into the difficulties at Fort Williams, Ontario, during the strike there, announced two weeks ago said it would appear that the strike would not have occurred had the employees understood the provisions of the Lemieux Act. As soon as its provisions were made known the workmen immediately availed themselves of the services of the board.

DROWNED IN TITINAT LAKE

En Route to Visit Relatives, Young Victoria Shipwrecked, and Loses His Life.

Another drowning accident on the near west coast was reported by the Dominion Government telegraph yesterday, the victim being one Rogers, a former time past resident in this city, and who left here as a passenger on the Victoria on Tuesday on a visit to a sister, Mrs. Gibson, the wife of the resident missionary at Osoyoos.

DISCOVERED NEW SPECIES OF SHELLS

(Continued from Page One)

Prof. Macoun found the rock from Alberni to Nanaimo to be in excellent condition, and although it was steep and difficult in places there was not a dangerous spot on it. The new branch of the E. & N. railroad has been graded to a point eight or ten miles west of English river. The settlers on Barclay Sound are pleased with the prospect of a fine orchard and a garden containing some wonderfully fine roses, heaths, and rhododendrons.

IMPERIAL DEFENCE PROBLEM DISCUSSED

London, Aug. 30.—Discussing the results of the Imperial defence conference, the London Globe thinks that in war time the same difficulty would assail the commander of a British fleet as faced Washington in the formation of his fleet, and that the same difficulty would assail the commander of a British fleet as faced Washington in the formation of his fleet, and that the same difficulty would assail the commander of a British fleet as faced Washington in the formation of his fleet.

RETURN FROM CONSERVATION MEET

Local Forestry Commissioners Back From Big Congress in Seattle With Vivid Impressions.

Hon. F. J. Fulton, Mr. A. C. Flummett, and Mr. H. G. Moore returned yesterday from attending the Conservation Congress at Seattle. They

went there from their sittings as Forestry Commissioners in Vancouver, on the invitation of the committee on Canadian representatives.

The sessions were held in the auditorium and were largely attended, both by the American delegates and the general public.

The range of subjects was a wide one and was by no means confined to the conservation of natural resources as is generally supposed, but covers everything under the sun which could be embraced under the heading of conservation.

Mr. Fulton, interviewed by the Post, said that the Canadian representatives were very much interested in the papers, but were surprised that they did not lead to much discussion. He thought that in the matter of forest preservation the United States had nothing to learn from the States, as our fire regulations were ahead of theirs.

The water question is becoming acute across the line, and extensive irrigation works are in progress and in contemplation.

Asked as to whether the question of the development of water powers and irrigation schemes by the Government had been under consideration, Mr. Fulton said that the subject had been discussed but there were serious difficulties, especially in respect of the enormous outlay that would be necessary and the certainty that if the state undertook one branch of development it would be obliged to take up others. It would be almost necessary, for instance, to assist in land clearing, the initial operation in settlement. The same reasons applied in Canada, and no Government could afford to face the tremendous expenditure involved.

Mr. Fulton said the Forestry Commission would resume its sittings at New Westminster on September 27th and 28th, and would continue in other parts of the Province until they finished their work.

Asked as to the probable date of their report, Mr. Fulton said it was impossible to tell. The Australian Commission took a year and a half, but it was likely that he and his colleagues would make an interim report which the Government might act on.

"You must bear in mind," said Mr. Fulton, "that the Government policy is to have a ready-made plan, and the Premier, and our report will naturally be along the same lines."

The contradictory of the practical promise of Premier McBride to give permanent tenure to leaseholders, or at any rate to extend the time until the timber is all cut off.

THEY HAD RIGHT SIDE OF THE CASE

B. H. Anderson, Just Back From Honolulu, Sympathizes With the Oriental Plantation Workers' Demand

The strike among the Japanese and others employed on the plantations of the Hawaiian Islands was justified, in the opinion of B. H. Anderson, of Victoria, who has just returned from a months' residence there. On the subject, Mr. Anderson says:

The trouble among the workmen, which led to the dramatic stabbing of Etohera, seemed to be a case of "planted dog," by his own countrymen, is practically justified. The Japanese demanded some changes, chiefly an advance in pay from 80 cents to \$1 a day. This was a very small thing, but remember the hardships and the unhealthy work of the plantation, with its long hours in the hot sun. They were not asked for anything, and they presented their humble petitions to the sugar barons, but like the barons of old who beheld the mounted castles laughed at their King, so these modern barons, secure behind their fenced millions, laughed to scorn the requests of the poor wretched Orientals. So they struck. Their leaders were arrested on a trumped-up charge of conspiracy, thrown into jail, and no time was accorded justice by those in authority. But I am glad to say that the leading party of Honolulu are one and all strongly protesting against these methods.

"I want to say that the people of Honolulu are not a people of the free handed people in all the world. At least I have to humbly submit that I shall have to travel farther to change that opinion."

"Upon arriving there you are greeted with strains of welcoming music from the very excellent Hawaiian band and given a most cordial reception. The vessel slowly swings to her berth at the wharf, you behold a sea of faces of old who behold a great Aloha (meaning welcome), and as you get nearer to the dock one is particularly struck with the cosmopolitan makeup of the crowd, for it seems to embody within itself every type and characteristic peculiar to the nations of this world. You quickly realize that this is typical of Honolulu, for a more heterogeneous, dissimilar or diverse population could hardly be imagined.

As you walk the wharf, you are greeted with strains of welcoming music from the very excellent Hawaiian band and given a most cordial reception. The vessel slowly swings to her berth at the wharf, you behold a sea of faces of old who behold a great Aloha (meaning welcome), and as you get nearer to the dock one is particularly struck with the cosmopolitan makeup of the crowd, for it seems to embody within itself every type and characteristic peculiar to the nations of this world.

MOOSE FOR NEW ZEALAND

Unique Collection of Antlered Monarchs of the North and the New Dominion.

In about another month there will arrive in Vancouver several moose, which will be shipped to New Zealand. Last year Premier Sir Joseph Ward, of New Zealand, wrote to Hon. A. Forster, lieutenant-governor of Saskatchewan, stating that the government of the new Dominion was anxious to experiment with some of the big game of the Canadian Northwest.

"OH, LUCKY JIM"

Pertinent Example of the Revival of Mining in the Kootenay District.

In the present revival in mining there is probably no property swifter than the Lucky Jim mine, near Kaslo, which is being operated by the Lucky Jim Mines, Limited, an American concern, of which G. Weaver Loper, an experienced mining man, is the vice-president and manager. Proof of this is afforded by the return reported a few days ago by Mr. Loper on thirty carloads of ore shipped to the Empire Zinc Company of Denver, Col. These give a net return of \$75 per car, or \$35.50 per ton, after paying all freight and other charges.

IS THIS THE MAIN LEAD.

Large Quartz Vein Discovered Which May Be Source of Seymour.

Has the main lead from which gold has come to the mouth of Seymour creek been at last discovered? Three men claim that it has. They are Messrs. M. Dowdy, J. B. Anderson and J. Ross Taylor, of 181 West Broadway, who have just returned from their discovery of a large quartz vein in the lower side of the canyon of Seymour creek, near the mouth of the creek. The vein has always been known, but in the past, from Grouse Mountain. Scrapings taken off the face of the cliff ten feet up by J. O'Sullivan and the result is \$3.40 gold to the ton. Mr. O'Sullivan attempted to find any trace of nickel or cobalt. He is now assaying some large samples of the ore, and the result will shortly be known. The samples will be sent to the assay office at Vancouver. The vein is about ten feet up the face of the cliff, and is plainly visible. The vein is about ten feet up the face of the cliff, and is plainly visible. The vein is about ten feet up the face of the cliff, and is plainly visible.

Advertisement for Campbell's New Petticoats. Features: 'THE FASHION CENTRE' 1010 GOVERNMENT STREET.
