Gallagher here shouted from the dock, "You infamous liar." Lynch deposed to further statements Gallagher made as to what destruction was to be wrought, he said he inferred from the talk of his co-conspirators that O'Donovan Rossa was in the scheme. Rossa was referred to as "old man." Lynch further testified that he went to Birmingham to see Whitehead at Gallagher's request for "some material." Gallagher gave him money to buy the trunk in which to put the stuff he was to get from Whitehead. Whitehead put him in the way of getting the India rubber bags. Lynch confirmed all the evidence submitted at the hearing last Thursday as to Gallagher having called for him as "Fletcher." He said when Whitehead was loading the He said when Whitehead was loading the aitro-glycerine into the bags he told Lynch that fifty pounds were taken away that merning. THE PROS LIBERRY BY-LAW.

On the 14th inst. Christopher Robinson, Q. C., handed in to City Solicitor Mc-Williams his written opinion on the legality of the free library by-law. Yesterday evening the document was read by Ald. Clarke to the executive committee of the city quancil. It is as follows:

"I have considered the case submitted to

"I have considered the case submitted to me with regard to the validity of the by-law providing for the establishment of a ree library in the city of Toronto. "In my opinion the statute of Ontario

free library in the city of Toronto.

"In my opinion the statute of Ontaric, under which the by-law was passed, 46. Vic., cap. 22, is within the competence of the provincial legislature, and I do not think the by-law can now be successfully attacked.

"With respect to the various questions suggested, to which answers are requested:
"I. I think the vots upon the by-law was properly taken by ballot.

"2. The statute provides that the council may pass such by-law with the assent of the electors qualified to vote at municipal elections. The qualification of voters entitled to vote at ordinary municipal elections for members of the council is different from that requisite to give a vote on by-laws requiring the assent of the electors. The question is, which class of voters were entitled to vote upon this by-law? The term 'municipal elections,' as ordinarily used, means, I take it, the annual election for members of council, and this I think must be the sense given to it as used in this act. If it was intended to confine the right to those entitled to vote on by-laws, I should have expected to find it so expressed. Following the language used in section 302 of the municipal act, there may, however, be some room for doubt, for it is said by the late Chief Justice Harrison, in re Johnson and Lambton, 40 U. C. R., 304:

"The voting on a by-law is an election, as much swhere the question is which of two or more persons shall be chosen to fill a municipal election, by section 133 of the municipal act R.S.O., chapter 174, in cities the elector may vote in each ward in which he has been rated for the necessary property qualification, but in case of mayor he is limited to one vote.

The question is whether the right to vote in each ward applies in the case of this by-law, and this is a matter which seems to me by no means free from doubt. The form of oath and other clanses of the municipal act tend strongly to show that it must have been intended to give the right; but if so, it should, I think, be more clearly expressed. My

mportance. "4. It is said that voters voted in more than one ward, and it is suggested that in some cases they were refused the right to vote. I am not informed, however, that it can be shown that this was either permitted or refused to an extent which could possibly have effected the result, the bylaw having been carried; by a majority of 2543, and the time within which a scrutiny can be obtained under section 313 of the act has been allowed to pass. Under these circumstances I do not think the mistake, if any, could be taken advantage of as a ground for setting aside the by-law. Lastly, I do not see that it is possible for the council legally to submit the by-law to the people again before acting upon

the council legally to submit the by-law to the people again before acting upon it, or that any expression of opinion can now be obtained which would be of much use in the event of the ceuncil refusing to provide the funds required by the library board or that the city can in any way successfully resist the payment of any sum demanded by such board in accordance with the act.

Ald. Clarke said after he had finished reading that as far as he was concerned he would oppose in council to the last the issue of debentures for the library. However, when the matter came up for discussion he hoped as amicable settlement would be arrived at, and that the free library board would agree to accept a reasonable sum from the city.

It is expected that even in face of this opinion that there is yet much bitter opposition in store for the free library by-law.
