afternoon half a dozen bills saw the light for the first time. Four of them are Government measures. The Postmaster-General sent up a nill to amend the Civil Service Act. It has for its object provisions that the salary of the clerk of the board of civil service examiners shall not exceed \$700 per aunum and that seach examiner shall not be paid more than 200. This is a considerable reduction in the attipends of these gentlemen. The bill also provides that postoffice inspectors may be exempt from the provisions of the Civil Service and answers in the possession of the Government in reference to the questions sent to the officers and answers in the possession of the Government in reference to the questions sent to the officers and asserted that he expected to derive he possession of the Covernment in reference to the questions sent to the officers and asserted that he expected to derive he possession of the Covernment in reference to the questions sent to the officers and asserted that he expected to derive he possession of the Covernment in reference to the questions sent to the officers and asserted that he expected to derive he possession of the Government in reference to the questions sent to the officers and asserted that he debate upon the position is provided that the fine the part of the part of the position in the provided that the position is provided that the fine the part of t aximpt from the provisions of the Civil Service Act, also in the postal service that the annual salaries of hullway mail clerks shall be the same for hight as for day work, and that each railway clerk may be paid a mileage rate of 2 cent for day and 1 cent for night work. The Doctor proposes to amend that section thus:

No prosecution shall be maintainable against any person for conspiracy in refusing to work with or for any employer or workman, or for doing any act or causing any act to be done for the purpose of a trade combination, unless such act is an offence punishable by statute.

Dr. Wilson's bill is an outgrowth of the late trouble in Bricklayers' Union No. 1, three of wisses members were convected of conspiracy in the Country of Sessions at Hamilton and their liberality in permitting the south and their liberality in permitting the strong that the prosperity and efficiency of our public decreased the internal consumption had vastly indecreased. The osgoode Hall by Ohief Justice Armour. The act of conspiracy consisted in the union passing a resolution that none of its members should work with a "scab" named Buscombe, who was superintending certain corporation work for Contractor Piggot under the City Engineer. Buscombe was deprived of his means of livelihood by the action of the union and three of the members of No. 1 were convicted of conspiracy and heavily fined, the Chief Justice of the Queen's Bench subsequently holding the conviction to be good. The Doctor proposes to do away with the consistency clause under similar circumstances. His namendment proposes that if a trades union passes a resolution refusing to work with objectionable men or employers, and if the members act on such resolution, they may not be prosecuted for conspiracy.

The Contractor has His Say.

Contractor Macdonald was asked to st his view of the matter in dispute. He re terated his charge against the department and offered to give up the contract if the cit and offered to give up the contract it the city would settle with him there and then. As inatters were both he and the city were losing their reputations. As for the earth excavation he was willing to do the work at the contract price, 18c. per yard in the summer, but if the Board wanted it done right away he must have 40c. on account of the earth being frozen. Even then he was losing 20 cents a yard, as it was impossible to do the work with a profit at less than 60 cents. He made the reduction in order to save law proceedings, but he would not go below 40 cents for anyone. He blamed Assistant City Engineer Cunningham for the present trouble, and again offered to withdraw from the work if the city would pay him for the work already done under contract. He knew that the excavation was necessary, but it could have been done long ago in favorable weather, if the department had not hindered it by its delay. His last proposition, which he claimed was provided for in the terms of the contract, was to let the work be done by day labor, and allow him 15 per cent. on the total cost for plant and superintendence. would settle with him there and then. As

The Reard Was Non-Committal The board refused to commit itself to an hing, leaving the matter in the hands of the City Engineer and City Solicitor to decide.

The was very evident that a spirit hostile to Mr. Sproatt pervaded the meeting. It would not say yea or nay to the meeting. It would not say yea or nay to his recommendation, intimating in unequivocal terms that he would be held strictly responsible his case of any more mistakes. His assistant, Mr. Cunningham, made a vain attempt to bin the Board down to some admission that would lift the responsibility off his and his superior's shoulders, but led by the chairman the members were obdurate and left the difficult problem in the hands of Mr. Sproast and Mr. Biggar.

Jesuits in Canada," He maintained that the teachings of the Jesuits are of the most diateachings of the Jesuits are of the most diabolical, idolatrous and immoral tendencies. They teach that to kill a Protestant is not a fin but an act of sanctification. Henry III., Henry IV. and William the Silent fell by Jesuit hands. The late war between France and Germany was brought about through the cuining of members of the Society of Jesus. With reference to the \$400,000 grant the speaker urged the public not to rely upon their Parliamentary representatives, as many of them betray the public trust and are swayed by priest and bishop. The only way to defeat the Jesuits is to petition the Queen.

The Toronto Branch of the Alliance Re-organized—Officers Elected—Objects De-fined—Spirited Speeches on Behalf of Protestantism.

The annual meeting of the Evangelical Alliance was held last night in the Metropol-Alliance was held last night in the Metropolitan Church. There were on the platform Dr. Potts (chairman), Dr. Reid, Rev. Principal Caven, Rev. John Burton, Rev. E. A. Stafford, Rev. Leroy Hooker, Rev. John A. Williams, J. J. Maclaren, Q.C., W. H. How-

Rev. John Burton then seculities resolution:

Resolved, that this the Toronto branch of the Evangelical Alliance does now resolve itself and by this resolution is declared resolved into the Toronto branch of the Evangelical Alliance for the Dominion of Canada, whose constitution, the necessary changes being made, we do hereby adopt. Its objects, first, to manifest and strengthen Christian unity; second, to vindicate religious liberty; third, to promote co-operation in Christian wark without interference with the internal affairs of the different denominations.

co-operation in Christian work without interference with the internal affairs of the different denominations.

Mr. W. H. Howland seconded the resolution and urged the importance of civil and religious liberty, to which our Roman Catholic breathern have as much right as we. "What we complain of," said he, "is the gradual merging of Roman Catholicism into Jesuitiam." Why is it, he continued, that while incorporated bodies are subject to examination at all times, this body is not? He spoke strongly against the acceptance by the Protestants of the \$60,000 and while he did not believe that the bill would be disallowed, he considered that the mere disallowance of the Jesuit bill is not going to save us from what has been done.

The resolution was unanimously carried. Rev. Principal Caven moved the resolution passed at the Ministerial Association on Saturday last, in conjunction with the Toronto branch of the Evangelical Alliance. He sketched briefly the suppression of the Order by, the several acts which have banished them from various countries, until finally in 1773 the Pope suppressed, abolished and abrogated the society for ever, but it was not suppressed for ever, for in 1814 it was again re-constructed.

Rev. E. A. Stafford seconded the motion

Woodstock Jottings.
Woodstock, March 11.—The community here is thoroughly aroused on the Jesuis

question. On two Sabbath evenings, Rev. W. A. McKay, has addressed irunense and enthusiastic congregations in his church on the subject. Last night he traced the history and principles of the or-der, describing their history as a chequered scene of learning-cunning, duplicity and crime. He express-

tion of three of the Chinamen charged with ruining young girls was not concluded today. The testimony against them however is very strong. After smashing doors and windows of several Chinese laundries this afternoon the crowd dispersed. The feeling against the Chinese is growing in bitterness as the enormity of their crimes is being revealed by the testimony in court.

The Young Women Have a Good Time. A very successful social was hald in con-ection with the Y.W.C. Guild last night. Tea was served from 6 to 8, to which a large Tea was served from 6 to 8, to which a large company sat down. A very excellent program was afterward provided, Mr. William Gooderham occupying the chair. Messrs, Barber and Parks rendered several duets upon the guitar; a vocal duet was given by Miss Toye and Miss Kelly; addresses were given by Rev. Mr. Patterson, Cooke's Church, and Rev. Mr. Neill, Charles-street Presbyterias Church. Mr. Gooderham's little singers delighted the andience with their sweet singing, and he andience with their sweet singing, and he himself gave an address to the young women. Mr. Wolfe, the evangelist, and Mr. Bithorn were present during the early part of the evening and sang some of their hymns.
