The Weekly Monitor.

WEDNESDAY, SEPTEMBER 9, 1885.

The Author of "Ocean to Ocean" on Reil.

Dr. Grant recently lectured in Halifax pon the rebel leader Reil, and advances the following as to the latter's position before the country, and what had best be done with him:—

To hang Reil would be criminal; it would be a blunder which a celebrated Frenchman had said was worse than a crime. The half-breeds would regard him as a martyr. Rather than hang him he would open his prison and let him go free. He would not be safe in the hands of the people who felt that he had fooled them. But hang him and they would cherish his memory and revere his name. It would envenom the half-breeds against us permanently. They would tell the story of their battles to their children and how they had been overpowered by numbers and their leader executed out of revenge by the English. It would raise bitter feelings in Quebec among the French, whom he eulogised. He would send Riel back to Montana with the distinct understanding that if ever he put his foot again upon Canadian soil, he would be immediately arrested and sent to the penitentiary for life.

Dr. Grant is undoubtedly a gentleman of wide attainments, but his judgment is certainly at fault, when he advances such opinions as the above. He puts himself in direct opposition to the tribunal before whom Riel was arraigned and after fair trial found guilty and convicted, and the sentiment of the majority of the English speaking inhabitants of the Dominion, which must certainly be in accord with the court's decision. Riel's first offence against the laws of his country, cannot of course be brought against him now; but it is certainly difficult to divest our minds of his past criminality when speaking of his present. He is a dangerous man, and a thoroughly unscrupulous one. The French Canadians, no doubt, are an influential portion of our population, but no such arguments as advanced by the learned Doctor should be considered for a moment in connection with such crimes as Riel's, as reasons for mitigation of the sentence. The blood of all the brave fellows who lost their lives through this late woeful rebellion mutely appeals that justice may be done, that an example may be shown, and that one who showed himself such a willing traitor to his country be removed beyond the chance of causing further bloodshed.

The Dr. has of course a right to his opinion in the Reil matter, but we think he could find subjects upon which he could employ his talents to better purpose to himself and the country.

—Lord Randolph Churchill in a speech that he recently made in Sheffield, Eng., says that the Liberals were too stern and uncompromising in their demands from Russia in the Afghan affair. This does not compare very well with the noble lord's denunciations of the Liberal ministry before the change of Government took place. It makes every difference being in or out of power.

—The small-pox epidemic that has visited Montreal is proving far more serious than was first anticipated. The average of deaths per day, are not decreasing. The press is vigorously urging the most rigid restrictive and protective measures. Small-pox is by no means a stranger to Montreal—the city having suffered more or less severely by it in former years. During these visitations the press forbore to ventilate the subject as it should have done, fearing that the trade of the city would be ruined thereby. The error of such a course has been seen, and the papers now contain columns of matter regarding the dread scourge, believing it to be better to suffer the risk of a demunition of trade for a short time, than to abstain from thoroughly awakening the people to the urgency of adopting every means to entirely free the city from the disease. Many valuable suggestions are advanced, not only editorially but by correspondents, the majority of which are medical men—the necessity and virtue of vaccination are being persistently urged upon the people, and as a matter of course must bear good fruit. An increasing prejudice has arisen in the minds of many persons against vaccination, and many of the newspaper articles deal exhaustively with this very point, showing how wrong it is. Isolation and thorough sanitation also receive due attention.

Commercially speaking the epidemic is already affecting Montreal's trade. In many instances merchants will not order goods, and those who ordered before the epidemic broke out are countermanding their orders; timid tourists give the city a wide berth, etc. If the disease is not soon stamped out, the city's wholesale trade will suffer a great shrinkage.

As a matter of fact the danger of contracting the disease, and the extent of the same in the city, are undoubtedly greatly magnified by the majority of people. In a large city like Montreal, there are many portions of it which will no doubt be as free from infection, as we trust Nova Scotia will be, still there are many who will not run any risks whatever.

We notice among the press suggestions, one for building a small pox hospital in some well isolated spot—an island in the river preferred—and removing every patient to it. This idea is a good one and should commend itself to the authorities. The expense to the city would no doubt be great; but the epidemic will inevitably cost a large sum of money, (Philadelphia spent $7,000,000 during one visitation) and it would be a wise plan to erect a hospital which would always prove a source of protection to the city.

—Mr. W. Topley, Recorder of the Geological Section of the British Association, one of the members who visited this Province last summer and who were hospitably entertained at Government House and shown about the Province by the Reception Committee, made the following remarks before the Royal Colonial Society, and shows the favorable impression our country makes upon strangers:—

"I would further remark that, without wishing in any way to depreciate the North-west, in the great future of which I firmly believe, I cannot but feel that the Eastern Provinces of Canada are now being undervalued, both by Englishmen and by the Canadians themselves. As regards Nova Scotia, I speak from personal knowledge. Well furnished farms on excellent land, can now be had at low rates. Many farmers have left the country, and have joined in the rush to the North-west, and there is a despondent feeling in the province, which is certainly not justified. Some of the land in the valleys of Nova Scotia is of the greatest richness and fertility, and over large areas is of high class. This was not my opinion only, but I may state that it was also the opinion of Professors Sheldon and Fream, in whose company I visited the district. There are also here good openings for agricultural and other labourers, with whom there are not the same difficulties as regards winter labour which occur in the North-West. As a geologist I cannot help referring to the splendid sections of the carboniferous rock at the Joggins, which are celebrated throughout the world."

—There is trouble between Germany and Spain, over the Caroline Islands. It is reported but not believed, that Spain has sent Germany an ultimatum, requesting her to evacuate the Islands, one of which she occupied on the 24th inst. In Madrid an enraged mob beseiged the residence of the German consul, and with cries of "Down with Germany," smashed in the windows and tore down the coat of arms. The coat of arms they dragged through the streets and finally made a bonfire of it. For this outrage many of the ringleaders were arrested, and apologies despatched to the German Government. It is hoped that the difficulty regarding the Islands will be finally settled by arbitration. We should think that Germany would think twice before engaging in war with Spain, even in her present plague stricken condition, as France, likely, would be only too glad to champion the latter's cause.

The Caroline Islands or New Philippines, are an archipelago of Oceanics, between the Phillippines and Mariannes, the Marshall Islands and New Guines, extending from 3 deg. 5 min. to 12 deg. N. The area of the group is 880 miles and the estimated population 28,800. They are divided into numerous groups many of them of coral formation, flat and affording no secure anchorage. The principal island of the Yap group, is however, elevated, and its mountains are said to contain the precious metals. Malan the easternmost of the group, is 14 miles in circumference, and has abundant supplies of water, fruit and fish. The climate of the island is mild and agreeable, and the inhabitants live almost on the produce of their fishing. They are of the Malay race, and are said to be excellent seamen. The islands belong nominally to Spain, and form part of the Government of the Philippians, but the Spaniards have no settlement on any of them.

Kingston Items.

Trade at this place is much better. The feeling among farmers is much improved. Hay was a good crop and well harvested. All crops are good excepting apples and plums, but what there are look well. There has been considerable lumber hauled to the station, part of which has been shipped. Threshing machines are actively engaged and the proprietors are doing well. Drill commences next Tuesday. No doubt there will be large numbers of visitors every day during the fortnight, as every one will be anxious to see the Cape Breton Exhibitions as it is said they present a remarkably fine appearance. Several companies having but few men less than 6ft. 1in. in height. The grounds will be excellent for picnics. Probably railway excursions to this part will be gotten up.

Local and Other Matter.

—The Annapolis Sunday School Convention will take place in Annapolis, on Friday of this week. The notice of the same will be found in another column.

ACCIDENT.—Last week a son of Mr. Hamilton Young, of Paradise, broke his collar bone by catching his chin in a swing while running.

—One of the most enjoyable events of the season, will take place on Monday the 14th inst.,—the Church Bazaar and Tea-meeting, in the rink, Bridgetown.

—Parties coming by railway to the Church Bazaar and Tea-Meeting at Bridgetown, on the 14th inst., can secure return tickets at one third fare on application to Rev. L. M. Wilkins.

—A literary society has been started in Clarence, each member paying admittance fee and dues to be devoted to books for drawing through the society. An entertainment was given in the school house on Saturday evening for the benefit of the society. None but the best books are to be selected.

RETURNED.—The Rev. J. Clark, of Nictaux, returned from his trip to Boston, per S. S. New Brunswick, last week, and resumed pulpit duties on Sabbath last. He speaks highly of the New Brunswick—its cleanliness, officers and management. Captain Potter, who is one of its pilots is an Annapolis County man—a careful sailor of much experience, and who has never met with a loss or accident at sea.

PICNIC.—The annual picnic of the Inglisville S. S. was held on the grounds of Mr. Asa Bent's, on Wed., Sept. 2nd. Nearly 200 scholars, parents and visitors were present and spent a very pleasant time. Swings, croquet and other amusements were provided for those who wished such pleasant exercises. At 4 o'clock, order was called, when the Superintendent, Albert Dunn, Esq., gave a short address, after which a bountiful repast, which the ladies had prepared was partaken of by all, at the close of which a vote of thanks was extended to the ladies for the good things provided. The school is in a very prosperous state, steadily increasing in numbers and interest. SILIX.

SHIPPING NOTES.—Brgt Birdie, old for Sydney this week.

Havana, Aug. 29.—Brig, C. S. Packard, from Annapolis N. S. (before reported aground at the entrance to Sagua, and got off,) after having been discharged under the vigilance of a Spanish gunboat, entered the port of Sagua Aug. 22nd, entirely dismasted. Her hull was apparently in good condition and made no water. The crew had returned to the brig.

The Allan line steamer Hanoverian ran on the rocks at Portugal Cove, Nfld., on the 2nd inst., while on the passage from Halifax, to Liverpool, and became a total wreck. The disaster was caused by a mistake,—the captain taking Cape Mutton for Cape Ballard. The error was seen before the vessel struck but too late to save her. The passengers and mails were landed safely.

Seamen's wages, which have varied very little for the past four months, took a sudden decline a few days ago. The drop by the run for U. K. or continent was $10; monthly, $2, and coast $2. Rates offered Monday are; U. K. or continent, run, $20; monthly, $16; coast, four-handed vessels, $14; five-handed vessels, $17. West Indies, $18. The West Indian rates are nominal, as there is no business doing in that trade. Sailors are reported far in excess of the demand.—*St. John Telegraph.*

The Fiji Marine board have rendered their decision in the case of the stranding and the total loss of the ship Howard D. Troop, on the 11th January inst. After hearing the evidence the board were of the opinion that no blame was to be attached to the master, Edwin S. Saunders, or the officers of the ship Howard D. Troop in connection with her stranding and subsequent total loss, and that the best steps were taken under the circumstances to save life and provision, etc. The wreck was sold to the manager of the Canton Island Guano Company for £36.

—Spain's plague spot is still widening its circle. In France the same may be said.

—We have been requested to state that there will be a meeting held at Port Lorne, in the school house, on the Monday evening next, at 8 o'clock, Hon. J. W. Longley, M. P. P., and other gentlemen will address the meeting.

—Harry Hatheway, engineer of the dredge Dominion, has been appointed to the position of chief engineer of the steamer Secret. Mr. Hatheway's position on the Dominion has been taken by Alex. McMurray, formerly of the dredge St. Lawrence.

EXHIBITIONS.—Provincial of Nova Scotia.—Kentville, King's County, September 25th to October 2nd. Yarmouth County.—Yarmouth, October 8th and 9th. Upper Stewiacke, (under Valley and Lorne), October 7th. Dominion Exhibition.—London, Ontario, September 7th to 12, Prince Edward Island.—Charlottetown, October 7th to 10th, Toronto.—September 7th to 19th. Boniface, Manitoba.—September 28th to October 3rd.

—Call at Runciman, Randolph & Co's. and examine a Large Lot of Fancy Dress Goods, marked down at very low figures, in lengths suitable for children's autumn and winter dresses. 3i.

—If our correspondent, Mr. Matthews, would read the MONITOR constantly, we think he would have no cause to complain that we do not praise up the Annapolis Valley sufficiently. The other portions of Nova Scotia we must leave to our contemporaries.

—By advertisement in another column it will be seen that Dr. Washington, the Specialist, will be in this town on the 12th inst. He has been practising in the Province for the last year or so, and has quite an extensive practice, we understand.

—We have to warn farmers against a new swindle. Two strangers meet at a farmer's house to stay all night and during the evening they get up a trade between themselves, which requires a witness, and the farmer is asked to sign the papers, simply to witness the trade. If he does so he soon finds that his name is signed to a note.—*Truro Guardian.*

—J. W. Beckwith is now paying the highest price in cash or goods for eggs. He will not name figures, as others will only follow in his wake, and endeavor to take the credit of the advance. Who caused the advance from 12 to 14 cents, and why are speculators so annoyed at him for raising the figures? He gives his customers the advantage of the special price which he receives for his eggs. 1i

—The *Western Chronicle* gives a just reminder to some Kentville pot hunters, who have been shooting woodcock on feeding grounds before sunrise and after sunset. The law forbids this, and no true sportsman would wish to transgress the provision. The penalty for doing so is not less than $5 nor more than $10, and an additional penalty of $1 for every bird so killed in addition to first bird.

—Emery Johnson & Son, Springfield, will start up their starch factory next Monday. The firm hope to make nearly double the amount of starch which they made last year, expecting to use about 40,000 bushels of potatoes.—*Maine Journal.*

What is there to prevent a starch factory being started in this valley? We have plenty of potatoes, or could grow them, and the demand for starch, it would appear by the above is in a healthy condition.

—Do not fail to inspect J. W. Beckwith's fine assortment of Redingote Sacque and Ulster Cloths. 1i

—The Wolfville *Acadian* says:—

BIG STEERS.—Mr. Jas. Kidson, of Cornwallis, has the largest pair of steers, for their age ever seen in this County. They are not sixteen months old yet and weigh 2160 lbs. Mr. Kidson has just commenced to feed them for Exhibition, and he intends fattening them for Easter beef, by which time they will be immense. Ordinary four year old oxen look small standing side by side with them now. If there are any cattle around that beats these we would like an invitation to see them.

—We omitted to make mention in our last weeks issue of a nicely executed crayon portrait of L. S. Morse, Esq., Inspector of schools, that was hung up in the Post Office of this town, the work of Mr. George Chesley, a son of Mr. Charles Chesley, formerly manager of the ladies' boarding school at Middleton. Mr. C., has a studio in Boston, and does portrait painting by photography. As far as we were able to judge the work is excellent. Those wishing to secure portraits of themselves or relatives should communicate with him, as his prices are very reasonable.

SAD FATALITY.—An occurrence of a very saddening nature, took place at Bloomington, in this county, on Friday last. Mr. Joseph Hoffman, was cutting grass in the morning after breakfast, when, on looking towards his house, he saw a smoke rising from the ground near his house. On going to the spot, he found his grandchild Willie, youngest child of Mr. William Armstrong, lying on the ground with his clothes on fire. He was at once taken into the house and cared for; but the fire had done its work. He remained speechless from the time he was found—about 8 o'clock in the morning—till the evening, when death terminated his sufferings. No one heard the least cry or sound, although the mother was in the house, and the grandfather working close by. It is supposed that the child had lighted a stick and gone out of doors with it, and the wind being rather strong, had blown the stick or its sparks on his clothes as he faced it. The burn was confined to the lower part of the body. The child was a bright little fellow, nearly three years old. Great sympathy is felt for the family. The father is in the States, but is now expected home.

—The work upon the beautiful little church belonging to the Episcopal congregation in this town is now drawing to an end. The congregation have had to make strenuous exertions to secure for themselves and those that come after them a suitable place for the worship of God. They have been successful in carrying their work forward so as to secure its completion, but not without entailing quite a large debt, and it is in order to raise funds towards the liquidation of this debt, that the tea-meeting advertised for the 14th inst., has been organized. Preparations for the event are being actively pushed forward, and a more than ordinarily good time may be expected. At the fancy sale which is also to be held in connection with the tea a number of beautiful articles will be offered for sale that have been received from Boston and other places. A cricket match will some off on the same day between the Digby and Bridgetown clubs. By arrangement with the W. & A. R. Co., parties attending can return for one third the usual fare on application to Rev. L. M. Wilkins.

PERSONALS.—Hon. W. J. Longley, M. P. P., was in town yesterday.

We had a call last week from H. Crosskill, Esq., Dpty. Provincial Secretary, and one yesterday from Mr. Pineo of the Kentville *Star.*

Mr. C. C. Crowell and Mr. H. Bath, of Messrs. Rand & Avery's printing establishment, Boston, are both here on a visit. Mr. C., has been with R. & A. for the past 13 or 14 years and now holds a responsible position in the counting room. Mr. B., is in the book-room. Both learned their trade as printers in this town.

Mr. John Marshall, a former well known resident, arrived yesterday from Boston.

—In addition to the notice of appointments made at the meeting of the Bridgetown Iron Foundry Co., (limited), on Tuesday of last week the secretary, J. G. H. Parker, Esq., has handed us the following financial statement of the affairs of the company.

Machinery and Tools.....	$2,693.04
Real Estate and Buildings.....	1,928.53
	$4,621.57

The company has done a prosperous and successful business during the period it has been in operation, and the financial success of the enterprise fully justifies the inducements held out to capitalists that investments in the stock of the company would yield a handsome dividend.

Up to the 1st July the company are able to show a net dividend of more than seven per cent profit on the subscribed capital.

A Forgotten Nova Scotian.

Walter Henry Bromley, a grandson of Walter Bromley, Esq., who founded the Acadian School, at Halifax, and son of the late Stephen Bromley, Barrister, of Annapolis, by his wife, the youngest daughter of the late Colonel James Delancy of the same place.

In 1854, young Bromley enlisted in the 23rd Regiment, Royal Welsh Fusileers, in which regiment his grandfather served as captain and paymaster, and who retired from the service in Halifax, about the year 1813. During the Crimean war, young Bromley enlisted as a private, attained the grade of the corporal previous to the fight at the Redan, in which he was twice wounded. At the close of the war the regiment was ordered to India to replace a regiment at Bombay, then under orders for the front, into which young Bromley by permission entered as a volunteer, and fell in one of the actions preceeding the Relief of Lucknow. The regiment in which he served last was the renowned 42nd Royal Highlanders. He had attained the rank of sergeant. While a Williams, a Parker, a Wallesford and Inglis have been honored by the pen of the historian, young Bromley has been entirely forgotten by his countrymen. We have been induced to pen the foregoing from the belief that too little has been said of the worthy rank and file who have bled and died for their country.

If young Bromley had been living in the present day his services would have been acknowledged; the deeds of the rank and file now attract more attention of the commands than in former years. The above facts were communicated to us by one who knew young Bromley well.—*Windsor Courier.*

The subject of the above sketch was for a number of years a resident of Bridgetown, and is well remembered by many of our middle-aged residents. He was a gentleman of high courage, fair education and promising literary attainments. In conversation with a friend, who was also once a friend of Mr. Bromley, he remarked. "Had Walter Bromley lived he would now, doubtless, be a prominent military officer, as the Colonel of the 23rd had been placed in possession of his history by the late Judge Haliburton, with whom his father studied, and promised to advance him. This influence combined with his gentlemanly deportment, indomitable pluck and fondness for his profession, could not have failed in placing him far above many of his compeers."—ED.]

Rare Bargain!

The subscriber offers for sale that DESIRABLY SITUATED PROPERTY, formerly owned by the late

DANIEL NICHOLS.

THE property contains 25 acres and is most beautifully situated in the fertile district of Central Clarence, facing the Leonard Road which leads to the village of Paradise. The house is in thorough repair, containing 8 rooms, and is fitted up with all modern conveniences, such as bath room, water closet, water pipes led into the house from a never-failing spring, etc. The cellar extends under the whole house, contains a milk pantry, is frost proof, has a concrete floor, and is capable of storing 100 bbls. of apples. The orchard on the place yields from 75 to 80 bbls. of apples per year of choice fruits, together with a quantity of plums, pears and cherries. A vegetable garden is also on the place, which is in a good state of cultivation, and has quite an assortment of small fruits such as currants, gooseberries, strawberries, etc.

A nice hawthorne hedge, well trimmed, separates the premises from the highway. The place cuts sufficient hay for a cow and horse, and has a good pasture with some woodland.

Adjoining the house is a store, which is thoroughly shelved, and well situated for a general trade. A good hall is over the store.

For terms apply on the premises to

MRS. D. NICHOLS.

SPECIALIST! SPECIALIST!

N. Washington, M. D., etc.

The eminent Throat and Lung Surgeon, of Toronto will be at

GRAND CENTRAL HOTEL,

BRIDGETOWN, SEPT. 12th,

on arrival of train from Halifax, until WEDNESDAY 15th, departure of train for Annapolis. Remember the dates. Come early.

The following Testimonials, which are as genuine as gold, speak in unmistakeable language of the most wonderful and miraculous cures in the world. See circular, for an extended list of the most astounding cures ever produced.

Consultation Free. Come Early.

Diseases Treated.

Catarrh of the Head & Throat; Cartarrhal Deafness, Chronic Bronchitis, Asthma and Consumption. Also Loss of Voice, Hay Fever, Throat, etc.

READ THE CIRCULARS, & HAND THEM TO YOUR NEIGHBOR.

LOSS OF VOICE AND CONSUMPTION CURED.

FREDERICTON, June 19th, 1884.

DR. WASHINGTON,—DEAR SIR,—I write you under deep feelings of gratitude for your Inhalation Treatment, which has restored me to my usual good health again. I was given up to die of Consumption, and, I am perfectly satisfied, only for your treatment such would have been the case. Consumption being in the family, and the disease acting in my case as it did in other members of the family who had died previously, alarmed me greatly, and it is only that others may be benefited that I allow my name to appear in public print. I can heartily recommend the treatment to all who may be thus afflicted. Accept my best wishes. MISS JEANETTE BEVERLY.

CONSUMPTION ARRESTED.

H. G. Wilson, 136 Granville Street, Halifax, N. S., June 24th, 1875.

To Dr. Washington, Throat and Lung Surgeon, Parlor 73, International Hotel.

Dear Sir,—Having been troubled with weak lungs and hemorrhage for some time, with every indication of speedy consumption, I concluded to try your "Inhalation Treatment," with the most flattering results. In fact, to-day, I am attending to my general business, without noticing any former weakness, or that my lungs were ever affected. Your treatment cannot be too highly recommended. H. G. WILSON.

CONSUMPTION CURED.

Gasperaux, P. O., N. S.

Dr. Washington,—Dear Sir,—I was given up by several leading physicians of Halifax and elsewhere. I was failing fast, could not walk up-stairs without getting out of breath, had cough, raising large quantities of matter, night sweats, etc., after taking your treatment for a month and a half I gained 21 lbs., and since then have gained 45 lbs.—increasing in general weight from 145 to 190 lbs. My recovery has been a very great surprise to physicians and friends, who seem unable to believe that such a wonderful cure has been effected. Accept my many thanks. LOWDEN BENJAMIN.

Reference—Mr. Davidson, merchant tailor, Hillis St., Halifax, N. S.

ASTHMA CURED.

Hammondvale, P. O., N. B., August 9th, '85.

Dr. Washington,—Dear Sir,—Having been afflicted with Asthma for a great number of years, most of the time unable to work, all remedies and medical men failed to cure me, or even give me temporary relief, your Spirimeter and medicines have entirely cured me. Please accept my many thanks, DANIEL BROWN.

ANOTHER REMARKABLE TESTIMONIAL CONSUMPTION CURED IN THE LAST STAGE.

Captain William Salter,
No. 27 Granville Street, Halifax, N. S.

N. Washington, M. D., Throat and Lung Specialist, Toronto:—

Dear Sir,—When you visited me in the latter part of January, I had been given up to die of consumption by a consultation of physicians, who considered my recovery impossible, I had no hope myself, nor had my family. When you expressed a hope of my recovery it was received with a good deal of doubt. Confined to my bed, very low, weak, wasted, night sweats very bad, troublesome cough, raising large quantities of matter—in fact every appearance of a speedy death. After using your Respirator and Spirometer and medicines, I began to recover very fast, so much so that during the three hard winter months, I have gained from 20 to 26 lbs. My strength is daily increasing, and I shall be able soon to be at work. To you I owe a deep sense of gratitude, and am anxious for others who are suffering as I was to consult you. You can make what use of this letter you see fit, and thanking you for what I consider a most wonderful treatment,

I am yours truly,
Capt. Wm. Salter.

Head Office for the Provinces: Halifax.

Annapolis Co. Union Sunday School Convention!

THE Twelfth Annual Session of Annapolis Co. Union Sunday School Convention will be held (D. V.) as follows:—In the Presbyterian Church in the morning. Baptist in the afternoon and Methodist in the evening, at Annapolis Royal, on FRIDAY, SEPT. 11th, commencing at 10 a. m. and continuing through the day. A number of papers will be read by the clergymen of the different denominations and other Sunday School laborers, on topics relating to Sunday School work. A large attendance of pastors of Churches, and of all interested in the cause is desired. Any schools not receiving blanks will please communicate with the Secretary at once.

GREAT BARGAINS!

NOTWITHSTANDING the exceptionally low prices at which the subscriber is at present selling all lines of goods, during the months of August and September he will sell all lines of

Dry Goods,
Boots & Shoes,
Glass, Earthen & Tinware;

of which owing to his purchase of the entire Stock from the store of J. E. Elliott he has a large variety—at 10 per cent. below his present prices,

FOR CASH,

as he is compelled to make room for

Fall & Winter Goods,

which are constantly coming in. Constantly on hand,

Flour, Meal & Groceries,

which we are selling as low as can be purchased in the country.

Goods shown at all times with pleasure.

C. S. PHINNEY.
