Ladies' Coatings, We have a nice line of Ladies' winter coatings at reasonable prices

Edwin L. Fisher, 3 day service on mail orders. We pay return postage. Send sufficient money to pay charges, what is over will be returned.

LOOK!

If you were told of a new discovery for the treatment of coughs, colds and bronchitis, as certain in its action on all chest troubles as anti-toxin is on diphtheria, or vaccination on small-pox, wouldn't you feel like giving it a trial?

Peps is the discovery! Peps are little tablets, containing certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are at once breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs.

FREE TRIAL, Cut out this article, write across it the name and date of this paper, and mail it (with 1c stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you.

Peps

Telfer's Biscuits, One of the finest lines of fancy Biscuit on the market

NEWSPRINT MAY TOUCH \$200 A TON

Another Increase in Price is Likely To be Made by Mills Around January 1st.

From newspaper circles come reports which are strongly affirmative of predictions heard in pulp and paper circles of further advances in the price of newsprint.

It is stated that another increase in price is expected to be made by the mills around the first of January. The understanding is that the present price will range from \$130 to \$140 per ton for rolled news, and \$20 in advance of these prices per ton for sheets in two tons lots and at the mill. By January, 1921, the prospects are that many newspaper publishers will be paying as high as \$200 per ton, and it is even possible that this figure will have to be raised later on.

At \$200 per ton, the increase to sheet news users is about 400 p. c. In four years. In 1917 the price was \$55 a ton. This rose to \$72 in the first half of 1918, and to \$81 in the second half. During 1919 the price was \$84 for sheet news.

It is understood that few complaints have been heard recently among the publishers, regarding the possibility of obtaining supplies, manufacturers being able to meet requirements.

The above consideration of the price of news is taken from the Saturday issue of the "Financial Times." Just how far the small newspapers can stand the strain without going out of business remains to be seen. One thing is sure that no matter how high the price, it will not be a sufficient inducement for publishers to stop advertising.

The usual order of things was reversed on Saturday evening when an automobile with a blaze underneath spun through Charlotte street to a fire station. The fire was extinguished, however, before the services of the firemen were required and no damage was done.

TOOK FIRE TO FIRE STATION

Usual Order Reversed When Blaze Occurred in Charlotte Street Garage (St. John's Telegraph)

The usual order of things was reversed on Saturday evening when an automobile with a blaze underneath spun through Charlotte street to a fire station. The fire was extinguished, however, before the services of the firemen were required and no damage was done.

USE "DIAMOND DYES"

Dye right! Don't risk your material. Each package of "Diamond Dyes" contains directions so simple that any woman can dye color into old garments, draperies, coverings, everything, whether wool, silk, linen, cotton or mixed goods. Buy "Diamond Dyes"—no other kind—then perfect results are guaranteed even if you have never dyed before. Druggist has "Diamond Dyes Color Card"—16 rich colors.

THE METRE SERVICE

"That young man stayed very late again, Edith."

"Yes, papa; I was showing him my picture post cards."

"Well, the next time he wants to stay late, you show him some of my electric light bills."

The Coming Man

Your boy needs an abundance of nourishing food to build up the body and sustain it in fullest vigor.

SCOTT'S EMULSION

should be given to your boy every day during the trying school-term. Your boy will thank you for Scott's Emulsion when he becomes a man.

Traffic is pretty brisk on the D. A. R. A great many apples are being shipped west.

WASTED WORDS

Judge—"The police say that you and your wife had some words."

Prisoner—"I had some, but I didn't get a chance to use them."

NEIGHBORS SEE THE BIG CHANGE

Moncton Woman Receives Many Compliments On Wonderful Improvement Since Taking Tanlac

"I am a regular walking advertisement for Tanlac, for my neighbors are constantly noting how much better I look and are asking what I have been taking," said Mrs. Frank Gallant, of 227 Dominion street, Moncton, N. B.

"For three years I had an awful time with indigestion. I had hardly any appetite and after every meal gas formed on my stomach and made me miserable. I had sharp pains and a feeling like lead in the pit of my stomach. I had an unhealthy color and was losing weight and growing weaker constantly. I lost interest in everything, was in very low spirits and my life was a burden to me.

"A number of my friends advised me to try Tanlac and it has put me in shape to where I have a splendid appetite and can eat anything I want and am never troubled in particular. I have gained back the weight I lost and am feeling so much stronger and better that life is a pleasure to me. My friends who used to sympathize with me are now complimenting me on my wonderful improvement. I am still taking Tanlac and am glad to have a bottle on hand for I know it will be of use to me in any emergency."

TOOK FIRE TO FIRE STATION

Usual Order Reversed When Blaze Occurred in Charlotte Street Garage (St. John's Telegraph)

The usual order of things was reversed on Saturday evening when an automobile with a blaze underneath spun through Charlotte street to a fire station. The fire was extinguished, however, before the services of the firemen were required and no damage was done.

MOTOR ACCIDENTS NEAR AYLESFORD

Two serious automobile accidents occurred within a few feet of each other at Aylesford, Kings county (N. S.) on Sunday. One car crashed into a telephone pole when turning out to avoid a train and Mrs. Lambert Parker's left knee was fractured and four other persons were slightly hurt. Later at the same place the car of Vaughan Young, a conductor, was run into by a large touring car. Young's car was hurled into a field, striking an apple tree. One of Conductor Young's legs was broken and Miss Gwendolyn Wakefield was seriously hurt. The touring car escaped before its identity could be ascertained.

PAPER MERGER

TORONTO, Oct. 26.—The Presbyterian Witness of Halifax, and the Presbyterian and Westminster of Toronto, are to be amalgamated and to form one church weekly under the title of the Presbyterian Witness, to be published by the Presbyterian Publications, Toronto, according to a decision arrived at here at an executive meeting of the General Board of the Presbyterian Church of Canada. It is expected that the merger will take place in the immediate future.

The Riders of the Plains

(1) A Royal Canadian Mounted Policeman rides well. (2) A fully equipped Mounted Policeman. (3) A Mounted Policeman in winter uniform.

The noble traditions and fascinating uniform of the Royal North-West Mounted Police are exclusively our own in Canada and it is fitting, in its re-organization, that it should be named the "Royal Canadian Mounted Police." The existence of tribes of wild Indians, the quarrels of the interior and the vast body of settlers coming in, led the late Sir John A. Macdonald to the proposition of the great land by sending the police in 1873. The first force consisted of 12 officers, 231 men and 244 horses. The force was sent by way of Chicago to Fargo and marched across the plains. In 1874, three hundred police set out from Fort Garry for the junction of the Bow and Belly rivers and a position was detached to Edmonton. An old trader, centre Fort Whosop, near the present city of Calgary, Colonel Jarvis with 40 men, had charge of Fort Edmonton, where a Hudson Bay fort had been established since 1756. In 1876, Fort Saskatchewan was built, twenty-six miles from Edmonton. There were 13 forts established by 1881. In 1882, a fort was built at "Pile of Bones."

From 1874 until 1875, there was not a man molesting or killed until Constable Greybourne was murdered by one of the Blood Indians. With the disappearance of the buffalo, there was almost famine among the Indians and the police had a great work in feeding many thousands. The Indians killed the settlers' cattle and on great old the wolf because that many of the settlers moved across the boundary.

Early last year, the police force here taken to about 700 men as the result of grants for the various branches of war. Enlistments since have amounted to 100 and included in Dominion Police Force. Operations were extended to include British Columbia and various Eastern Provinces. The latest post to be established is Eschscholtz Harbor on Coronation Gulf. This copper mine district is important because of large developments. Hornsby Island, guarding the Arctic coast, is the most northerly patrol.

The air ship and airplane may be used in the long patrol of Canada's Northern Hinterland. The furthest patrol could be covered in 15 hours and it took the Klondike gold seekers eighteen months. His Royal Highness, the Prince of Wales is now honorary commandant of the force which will be brought up to a strength of 3,500 men. The men of the force are usually men of superior education. They have always been of great physique. British riders, unequalled scouts, accustomed to hardships and rough fare and schooled in all the arts of discipline. It has been truly said that "there is one thing on this planet longer than the equator and that is the arm of British justice, and the mounted police are the men who enforce it."
