## Churn Churn Churn

Does your butter work to a "paste" before the salt you use dissolves?

Poor salt spoils what might be good butter. A sharp-grained salt is practically insoluble.

Windsor Salt dissolves easily—it is "taken up" in the butter with very little working. Progressive grocers sell

## Why? Because

in these hard times is there such a great demand for this All Steel Flexible Harrow

The flexibility of the Harrow enables it to adapt itself readily to rough and uneven ground as to smooth, and the oscillating motion produced by its flexibility pulverizes the ground, and leaves it in a loose and more porous condition than any other Harrow, and it is made of the very best material money can buy for the purpose. The bars are made of

### HARD SPRING STEEL

very stiff and strong, the hinges and teeth being of solid steel, all of which are of a better grade than is possible to use in any other make of Harrow. We can guarantee more than double the strength and wear in this Harrow than there is in any other make.

Parties wishing a first-class Harrow will do well to write us direct, or apply to the local agent.

Our Motto, "Not how Cheap, but how Good."

**TOLTON BROS., GUELPH, ONT.**
