

queen and all is over. I shall clip all queens as soon as mated.

We are glad to learn of your success and hope it will continue. The present prospects are for a larger crop of linden than ever before. We are glad to have your experience with regard to clipping queens' wings.

#### DIVIDING.

I want to divide some of my bees in the fall. Which part would you advise to remain on the old stand, a new queen is to be given to one part. ?

Bois D'arc, Mo., June 24th, 1887.

We would not advise the dividing of these late in the fall, at least not here. Tinkering with bees late in the season in Canada simply means spring dwindling. Any division that you make it should be done not later than the end of August or the 1st of September. If you place the new colonies on the old stands removing the old ones some distance away you will catch all the old bees. The new colony would contain the old and some of the younger bees that had not marked the location which you had given them first. As the young queen is liable to lay earlier and more vigorously than the old one in the fall you had better perhaps put the young queen on the old stand, leaving the old queen with the majority of young bees.

## THE CANADIAN BEE JOURNAL.

THE D. A. JONES Co., Ltd.,

PUBLISHERS.

WEEKLY, \$1.00 per Year, Postpaid.

BEETON, ONTARIO, JULY 13, 1887.

## BUSINESS DEPARTMENT.

There has been placed in our hands for disposal a No. 6 Victory oil stove which has been used for but two months. It is as good as new and has all the furniture complete. It will be sold very cheap at a bargain.

We have just received from the manufacturers a large lot of cartons for holding the 4½x4½ section, something similar to the engraving. Our catalogue price at the present time is \$14 per thousand, but we have purchased these at a figure that

will enable us to make them \$9 per thousand, \$1 per hundred and 13 cents per ten. When the comb honey labels A. and B. are used on them they make a handsome package for comb honey. The illustration shows you label A. None of them have tape handles, and we make the price \$1 per thousand less than if they had. A 3 cent stamp will secure you a sample by return mail.

#### ONE POUND GLASS JARS, SCREW TOP.

We are just advised that these have been shipped from the glass works, and we expect them in a few days. To save breaking bulk as much as we can, we append below a table of the quantities in which the shipment is put up, with prices per barrel. In estimating the price we have calculated the same as for full gross lots, an allowance of 15c. being made per barrel.

NO. OF BARRELS	NO OF DOZEN	PRICE
1	9	\$6.35
7	9½	6.55
Bal. of Shipment	9½	6.75

## PRICES CURRENT
