**H. R. IVES & CO.**  
—MANUFACTURERS OF THE—  
"Buffalo" series of Stoves and Ranges  
With Baxter's Patent Oven Balance Doors  
These doors are made in two horizontal sections, the upper one hinged at the top, the lower at bottom. By a slight lift on the handle, the two doors being exactly balanced, swing open, the lower one stopping when precisely level with the bottom of the oven, forming a solid, wide and substantial shelf. The operating device is very simple, and is all out-side, where it may be easily taken apart and in no way interfere with the oven. The enterprising dealer will at once see the grand "scaling feature" of this invention.  
We manufacture a complete line of Oval Pot Ranges, Coal and Wood Cooks. Send for Catalogue and Price List.
