

TO DOCTORS.

LIQUID PANCREOPEPSINE

(WM. R. WARNER & CO.)

(TO DOCTORS ONLY.)

A REMEDY FOR INDIGESTION.

Containing Pancreatine, Pepsin, Lactic and Muriatic Acids, etc. The combined principles of Indigestion. To aid in digesting animal and vegetable cooked food, fatty and amylaceous substances.

Dose.—A tablespoonful containing 5 grs. Pepsin, after each meal, with an Aperient Pill taken occasionally.

This preparation contains in an agreeable form the natural and assimilative principles of the digestive fluids of the stomach, comprising **Pancreatine, Pepsin, Lactic and Muriatic Acids**. The best means of re-establishing digestion in enfeebled stomachs, where the power to assimilate and digest food is impaired, is to administer principles capable of communicating the elements necessary to convert food into nutriment.

The value of **Liquor Pancreopepsine** in this connection has been fully established, and we can recommend it with confidence to the profession as superior to pepsin alone. It aids in digesting animal and vegetable cooked food, fatty and amylaceous substances, and may be employed in all cases where from prolonged sickness or other causes, the alimentary processes are not in their normal condition.

RHEUMATISM.

Elixir Salicylic Acid Comp.

(WM. R. WARNER & CO.)

(TO DOCTORS ONLY.)

This preparation combines in a pleasant and permanent form, in each fluid drachm. the following :

R. Acid. Salicylic, (Schering's),	grs. v.	Potass. Iodid.,	- grs. iss.
Cimicifuga,	grs. ij.	Tr. Gelseminum,	- gtt. i.

So prepared as to form a permanent, potent and reliable remedy in

RHEUMATISM, GOUT, LUMBAGO, ETC.

This preparation combines in a pleasant and agreeable form :—Salicylic Acid, Cimicifuga, Gelseminum, Sodii Bi-Carb. and Potass. Iodid. so combined as to be more prompt and effective in the treatment of this class of diseases than either of the ingredients when administered alone.

This remedy can be given without producing any of the 'unpleasant results which so often follow the giving of Salicylic Acid and Salicylate of Sodium, viz., gastric and intestinal irritation, nausea, delirium, deafness, nervous irritability, restlessness, and rapid respiration; on the contrary, it gives prompt relief from pain, and quiets the nerves without the aid of opiates.

Elixir Salicylic Acid Comp. has been extensively used in private practice for several years with almost unvarying success and better results than any other mode of treatment yet suggested.

It is a matter of great satisfaction to us to be able to place before the medical profession a remedy so effectual in the cure of one of the most stubborn classes of disease.

The dose is from a tea-spoonful to a dessert-spoonful, and increased as necessary to meet the requirements of the case. Each teaspoonful contains five grains of Salicylic Acid.

Elixir Salicylic Acid Comp. is put up in 12-oz square bottles, and may be obtained from Druggists everywhere.

SCROFULA.

SYR: PHYTOLACCA COMP.

(WM. R. WARNER & CO.)

(TO DOCTORS ONLY.)

ALTERATIVE, RESOLVENT, APERIENT, TONIC.

COMPOSITION :—Phytolacca Decandra, Stillingia, Salvia, Lappa Major, Corydalis Formosa, aa grs. vi. Xanthoxylum Fraxineum, Potassii Iodidum, Cascara Sagrada, aa grs. ij, in each dessert-spoonful.

Syr. Phytolacca Comp., the composition of which has been given to the profession, has been known and used by physician, myself and others of my acquaintance, and found superior to other alterative compounds now in use. It has been used with great success in the treatment of Lupus, Herpes, Psoriasis, Acne, Glandular Enlargements, Strumous Affections, Granular Conjunctivitis and Eczema. As a remedy for Syphilitic Diseases of the skin and mucous membranes, it has proved to be specially valuable in my hands in a large number of cases where all the usual remedies had failed to improve their condition, and when **Syr. Phytolacca Comp.** was administered the improvement was very prompt and satisfactory.

It will be seen that **Syr. Phytolacca Comp.** contains the best alterative remedies now in use, and that they are so combined as to make a permanent and agreeable preparation that can be administered to children or persons with the most delicate stomach.

I usually prescribe it in doses of a teaspoonful, which may be increased to a tablespoonful four times a day, the frequency of the dose to be diminished if bowels become too active.
