**D. MORRICE, SONS & CO.,**  
AGENTS  
MONTREAL & TORONTO**If it were  
possible**to produce anything in the  
line of Cocoas and Choco-  
lates that would be superior  
in all respects to Cowan's,  
depend upon it, it would  
be done.Where the finest raw ma-  
terials are to be obtained is  
one of the things we know  
about the business. How  
to manufacture them is  
another, and how to place  
the finished article on the  
market so that the dealer and  
consumer will both be satis-  
fied, belongs to our system.**The Cowan Company, Limited,**  
468 King Street West, Toronto.**Mercantile Summary.**WE hear that Joseph Bourque, general  
dealer, Ste. Gertrude, Que., is trying to  
settle liabilities of \$3,000 by a 35 per cent.  
compromise.THE Dominion Government will build  
a special hall at the Osaka (Japan) ex-  
hibition for the exhibition of Canadian  
wares. A site has already been leased.THE Government Assay office in Van-  
couver is reported to be well patron-  
ized by miners and companies who  
formerly shipped their gold to New  
York. Its size has already been mater-  
ially increased, but the manager believes  
even now it will be inadequate to handle  
all the metal offering this season.THE bonds for \$850,000 of the Van-  
couver Power Company have been satis-  
factorily placed, and the work which this  
company, in conjunction with the Brit-  
ish Columbia Electric Railway Company,  
contemplates, will soon begin. One  
feature of the power scheme will be a  
two-mile rock tunnel to connect the two  
lakes involved.WE hear from Winnipeg of the forma-  
tion of a partnership between Mr. Jas.  
Burridge of that city, and Mr. E. S.  
Cooper, formerly connected with the  
Goldie & McCulloch Co., Galt. The new  
firm will carry a large stock of engines,  
boilers, woodworking machinery, etc.,  
and will not only cover Manitoba in their  
operations, but British Columbia and the  
Northwest Territories as well.GREAT activity is reported to reign on  
the Comstock group of mines at  
Quatsino Sound, which have become  
great shipping properties. A wharf has  
been constructed, besides several bunk  
houses and other necessary buildings,  
and a road has been laid from the beach  
to the mine. At the Yreka mines, near  
the Comstock, a modern air compressor  
is being installed, and as soon as other  
necessary machinery is put in a smelter  
will be erected, to obviate the expense  
of shipping ore to Tacoma. Another  
property being exploited is the Blue  
Grouse, at which the ore is said to give  
very good results, and which will be  
developed as rapidly as possible.FOR some weeks, a group of Windsor  
men have busied themselves forming a  
mortgage loan company, with head office  
in that place, Messrs. R. F. Sutherland,  
K.C., John Curry and F. H. Macpherson  
had succeeded a week ago in getting  
some thirty persons to subscribe \$130,-  
000, and we hear later that \$200,000 has  
been raised, and that \$100,000 is to be  
offered to the public at a premium of  
two per cent. The subscribers have held  
a meeting, when it was decided to make  
application for a charter. The gentle-  
men whose names follow were elected  
provisional directors: Judge M. A. Mc-  
Hugh, George Bartlett, John Davis, W.  
J. McKee, S. A. King, and John Curry.  
Afterwards they chose from among  
themselves Mr. Curry for president, Mr.  
M. A. McHugh for vice-president, Mr.  
McPherson to be manager and Mr.  
Sutherland, solicitor.**BARGAINS IN SECOND-HAND BOILERS.**The following is a partial list of boilers I have in stock for  
immediate delivery:—
