

—A novel summer resort enterprise has been started by a Bennington (Vt.) man. He has secured a large tract of land in a woodland valley above the historic town, where he has erected a hotel and several cottages, and stocked all the streams with trout. Anglers are required to pay so much a pound for their catches. There is a mountain lake a mile above the place, where a hatchery has been established, and year by year the streams will be supplied with "leaping trout."

ASHES.—Receipts have been a little larger lately, and July is the only month of this year that shows at all equal to corresponding month of last year. Demand has also been a little better, but were it not for orders from France, business would be slim; business with England is small. We quote first quality pots, \$4.10; seconds, \$3.65; no sales to speak of in pearls, last transaction at \$5.15.

CEMENTS, &c.—The situation in cements is in much better shape, owing to reduced supplies, the stock at the moment being less than 5,000 bbls. Sales of "White's" have been made in lots at \$2.70 to 2.75, and of Belgian at \$2.45 to 2.50. Firebricks are unchanged at \$2.45 to 2.50.
