

The eye on the cover graphic is based on an ancient Egyptian hieroglyphic. In the arms control process of today, it symbolizes space-based remote sensing satellite systems which, due to their unintrusive characteristics, constitute a central element in verification.

"The graphic on the cover page represents the ongoing dialogue on arms control and disarmament issues in Canada and between Canadians and the world community."

**Arms Control
Verification Studies**

Arms Control Verification Studies are issued periodically by the Arms Control and Disarmament Division of the Department of External Affairs. Their purpose is to disseminate the results of independent research undertaken for the Department of External Affairs as part of ongoing work by the Department in this area.

The views expressed in these reports are those of the authors and do not necessarily represent those of the Department of External Affairs or of the Government of Canada.
