

- increased use of renewables
  - methane recovery
  - alternative chemicals
  - automotive/rail/air technologies
- 6) Impacts of climate change and mitigation actions
- linkage with subsidiary body consideration of IPCC Second Assessment Report
  - other national and international assessments (e.g., U.S. Country Studies Program)

The analysis/assessment should develop output to inform all aspects of the fulfillment of the Berlin Mandate, and should include if possible:

- GDP/welfare consequences (global and national, including for Annex I and Non-Annex I Parties)
- consequences of actions on greenhouse gas emissions
- shifts (e.g. of industries) between countries
- effects on employment
- effects on investment cycle
- trade implications

#### STEPS IN THE PROCESS

If the target date for conclusion of the initial analysis/assessment effort is mid-1996, the AG/BM could undertake the following tasks at each of its meetings:

#### August 1995

- Meet for first time
- Deal with organizational issues (e.g., Bureau)
- Consider and adopt workplan, including provisional dates for future meetings and provisional agenda for each meeting
