Offers Restricted.

Banks were inclined to restrict their offerings of money, probably, it was believed, because of tomorrow's market reopening. The cash loss of local banks to the sub-treasury was reported to be about \$17,000,000, but rates for call and time loans were maintained.

In the industrial field another advance in copper metal, based on the better demand, constituted the chief feature. General trade advices pointed to gradual betterment at leading centres of business.

BRAZILIAN ADVANCES

Forty Shares Sold—New Trading Commences -Market Firm.

There was nothing of special occurrence to mark the opening of the wider market on the Standard Stock Exchange yesterday morning. Sales in Brazilian took place at 61. This is an advance over the previous close of nearly 1 3-4 points. There were no other sales above minimum prices.

Quotations were given on C.P.R., Twin City, Mackay, common and preferred, and Toronto Railway. It will no doubt take a little time for the general public to become accustomed to the fact that the wider market exists

INFLUENCES WORK TO BULLS' BENEFIT

Effect of Cold Weather and Smallness of Receipts Responsible.

Canadian Press Despatch.

CHICAGO, Dec. 11. — Misgivings about the effect of cold weather on unprotected fields in the winter crop belt tended to make the price of wheat today rule higher. There was a good deal of selling on the bulge, however, and the market closed easy at a shade to 1-4c above last night. Corn finished unchanged to 1-16c up, oats unchanged to 3-8c auvance, and provisions dearer by a shade to 5c.

Extreme low temperature in the west and southwest, specially Kansas, led to active buying of wheat at the outset. Lack of snow covering was conceded to be unfavorable, and there were numerous complaints regarding the outlook both for lately seeded grain and that which had already attained a fair growth. Smallness of receipts northwest appeared also to give

grain and that which had already attained a fair growth. Smallness of receipts northwest appeared also to give an advantage to the bulls and so too did reports of unusual demand for wheat in Greece, Italy and Sweden.

Trying to Realize.

Support dwindled to a noticeable extent in the wheat market during the last half of the day. Early buyers were trying to realize, and there was a new awakening of short sellers who found some excuse in the railway embargo that has temporarily stopped exports from attempting to find an outlet by way of Galveston. Besides shipments to Europe for the week from the country as a whole were considered very moderate, when judged with the simultaneous big arrivals at the chief primary points.

Corn averaged a little higher owing to prospect of sharper feeding demand on account of winter weather. Country offerings were next to nothing. On the other hand exporters took 100,000 bushels, and Canada was said to be buying in the northwest.

Oats herdened with other grain. The chief call was from shorts and for the seaboard.

Larger arrivals of hogs than expect-

for the scaboard.

Larger arrivals of hogs than expected had only a brief influence on provisions. Offerings proved scarce and a rally seen followed.

WIND-UP ORDER MADE.

VANCOUVER, Dec. 11. - An order for the winding up of the National Mercantile Company, which recently was debarred the use of the Canadian mails on the ground that it was con-ducting a business in the nature of a Hunter yesterday morning.

The company was incorporated in August, 1911, with a cepital of \$10,000, and has done a huge business in home August, 1911, with a copital of \$10,000, and has done a huge business in home loan contracts.

The company yesterday sought a winding up because its solicitors had advised that its contract came within the lottery section of the crimina code.
