244 Princess St., Winnipeg

A press dispatch from New York states that the hearing of a young woman, totally deaf from childhood, was restored by means of a new electrical invention. The inventor also proved the practicability of teaching deaf and dumb persons in a few minutes not only to hear but to repeat words.  
Dawson City is now supplied with good facilities for fighting fires. The water is pumped into heating tanks and then is kept constantly running through the mains at high pressure, and though the thermometer once went down to 75 degrees below zero the mains did not freeze.
