

Adjournment Debate

Mr. Deputy Speaker: Order, please. I understand that a point of order cannot be raised during the adjournment motion, but I would like the hon. member to note that on page 105 of the fifth edition of Beauchesne, the word he used earlier is said to be unparliamentary, and I hope he will at least try to retract what he said even though the word has already been

used. In any case, I can remind him that he has violated the Standing Orders of this House.

The motion to adjourn the House is now deemed to have been adopted. Accordingly, this House stands adjourned until 11 a.m. tomorrow.

Motion agreed to and the House adjourned at 10.32.
