SATURDAY MORNING, MARCH 9, 1912

## NORTH TORONTO HELD UP.

When the private bills committee  
takes in hand to give it to the citi-  
zens in the neck it does so with all the  
thoroughness and finality the corporations  
and the interests could desire. In the  
action taken against the bill of the  
Town of North Toronto on Thursday  
a notable example was offered of the  
subservience of the legislators to those  
who find their advantage in "working"  
the people.

The Town of North Toronto is grilling  
between two fires. On the one hand  
the City of Toronto, under the dicta-  
tion of the property-holding minority,  
refuses to annex the town and give it  
the necessary services which such a  
community requires. On the other  
hand, the legislature, dominated by  
the electric traction interests mas-  
querading in cowskin coats, refuses  
to allow the town to do for itself what  
the city refuses to do for it.

One of the clauses in the town bill  
was to enable the citizens to organize  
a sufficient water supply. This was  
killed on a sentimental plea that the  
farmers might have their wells run  
dry if North Toronto were allowed to  
drink. As there is not the slightest  
danger of the wells running dry from  
such a cause, the farmers have been  
unnecessarily alarmed by those who,  
like Mr. Herbert Lennox, can use plau-  
sible arguments with the farmer when  
the farmer has to be lined up with his  
own natural enemies. There is a pho-  
tograph of Mr. Lennox going up to  
parliament with Farmer Robert J.  
Fleming, whose well was no doubt in  
some need of protection.

The request that the town be per-  
mitted to assess vacant lands at their  
market value was also turned down by  
the committee. It is to be hoped that  
under the general Assessment Act the  
house will provide a remedy for the  
situation existing in the northern mu-  
nicipality. The vote on this question  
showed party majorities on both sides  
against the people. The Liberals vot-  
ed three to two and the Conservatives  
nine to four.

Another important clause was that  
to protect Yonge-street from becoming  
a freight line for the electric roads.  
This question has already been muddled  
by the chairman of the Ontario  
Railway Board, and the legislature  
seems inclined to support his view, in  
the private bills committee is to be  
taken as a criterion. The farmers who  
are willing to exchange their highways  
for one free ride to the Queen's Park  
may live to regret the bargain.

It is regrettable that the city, whose  
interests are identical with those of  
North Toronto, did not co-operate with  
the town in an effort to secure a rem-  
edy for these grievances.  
It may readily be admitted that there  
are difficulties in the situation, but this  
is no excuse for the constant policy of  
putting things off. We believe it is im-  
possible to point to any good result  
having accrued to the city from taking  
this course. The evil points are on  
every hand.

It is not unreasonable under the cir-  
cumstances to impute incompetence to  
the city government in its relations  
with the suburbs. We have some hope  
that the city fathers and one or two  
of the city members may draft a bill  
for Toronto and get it carried, which  
will remove some of the more obvious  
disabilities under which the whole ur-  
ban and suburban district labors. There  
are various conflicting interests to be  
considered, and the benefit of the whole  
people is not to be cast aside because  
one or other of these interests is either  
benefited or embarrassed. If the  
city council had a leader with a will  
and a clear public policy, there need  
be no delay in effecting it.

## THE B. C. GRITS ARE WAKING UP.

In no province of the Dominion had  
the Liberal party gone down hill more  
rapidly than in British Columbia. In  
1904 it sent a solid Liberal delegation to  
the Dominion parliament and the Con-  
servatives at that time depended for  
their control of the provincial govern-  
ment upon the personal popularity of  
Mr. McBride. Until he became premier,  
there was no party government in British  
Columbia, and he was not called to  
power as a representative of either poli-  
tical party. In 1908, the Liberals lost  
five seats in the Dominion parliament,  
and in 1911, British Columbia sent a  
solid parliamentary delegation to sup-  
port the Borden Government. The Mc-  
Bride Government carried the province  
in 1907 and again in 1909, when only two  
opposition members were returned to  
the legislature. That Mr. McBride will  
carry the province again at the election  
to be held this month, is not seriously  
disputed.

But the Liberals of British Columbia

In this campaign, unlike their brethren  
in Ontario last December, propose to  
fight for some principle and to advo-  
cate some progressive measures that  
will appeal to the people and put new  
life into the party. The platform en-  
dorses the principle of government  
ownership and calls for its immediate  
application to the telephone business.  
It declares against the alienation of  
coal lands and for government opera-  
tion of coal mines to an extent suf-  
ficient to regulate prices. Female suf-  
frage is also advocated, and this plank  
may appeal to the large radical and  
socialist vote in the province. The  
protection of fisheries, the restoration  
of the fishing industry to white fisher-  
men and the total exclusion of Oriental  
immigration are made weights which no  
opposition platform of British Colum-  
bia could dispense with.

It is curious to observe a tendency in  
British Columbia towards decentraliza-  
tion. The platform endorses the prin-  
ciple of local option, and desires the  
creation of local license boards and lo-  
cal police boards to be elected by the  
people.

Finally, there is a demand that regis-  
tration shall precede every general elec-  
tion. There has been no general regis-  
tration in British Columbia for many  
years, and as registration is the ex-  
clusive basis for the franchise in that  
province, this demand seems reason-  
able.

The Liberals of British Columbia  
seem to be waking up.

## TAKING EXPERT ADVICE.

Toronto has spent several fortunes in  
getting expert advice and lost several  
scores of fortunes by not taking the ad-  
vice it got. In recommending the ap-  
pointment of Messrs. Dawson, Davis &  
Bacon of New York, the board of con-  
trol has made a good move and the city  
council will make no mistake in con-  
firming it.

The great difficulty about Toronto is  
to get anything done. Things are al-  
lowed just to muddle along, and what-  
ever happens the citizens are expected to  
put up with it, and pay. No expert or  
firm of experts could fail to give the  
city a plan by following which better  
results and more economical would be  
obtained than under the happy, go-  
lucky system.

We hope the city councillors will get  
their expert advice, and then have the  
sense not to believe themselves suffi-  
ciently super-expert to reject it.  
The experts can scarcely make any  
mistake if they keep in mind the fact  
that the present street railway fran-  
chise expires in 1921, and will then be  
taken over by the city. That is the  
central fact in the problem.

## TWENTY MILLS.

If it takes twenty mills to do the  
necessary business of Toronto then let  
us have twenty mills and have done  
with pretence. There is no real econ-  
omy in postponing from year to year  
the work that must eventually be done  
and at greater expense than it would  
have cost in the first place. A little  
inevitable taxation will perhaps wake  
up some of the Little Yorkies to the  
knowledge that there are better sys-  
tems of government than the one which  
does as little as it can and brags about  
the saving.

Jarvis Collegiate has done very well  
in athletics with three championships.  
A little more of the executive interest  
displayed at Harbord and the old  
school might have done even better.  
The boys deserve credit under the cir-  
cumstances.

Now that the poles have been dis-  
covered, somebody should fit out an  
expedition to discover the equator.  
Councillor Church would be the very  
man to detect the menagerie lion run-  
ning round the earth.

The District Trades Council declined  
to open its meetings with the Lord's  
Prayer, which contains the petition,  
"Forgive us our trespasses as we for-  
give them that trespass against us."  
A lot of people boggle at the principle.

## FINE YEAR FOR SUN LIFE.

The greatly increased volume of  
business, with corresponding increase  
in assets, income and profits, marks  
another year in the history of the Sun  
Life Assurance Co. Comparative figures  
show that the previous records are more  
than sustained in the report which has  
recently been presented to the share-  
holders and given to the public. Over  
in force during 1911, or over eleven per  
cent more than in previous year. The  
income from premiums and ordinary  
sources amounts to \$10,252,225, an in-  
crease of almost a million dollars  
(\$81,881). The total assets have re-  
ached the enormous figure of forty-three  
hundred and eighty-five millions (\$43,  
805,880), an increase of \$1,726,095, or  
the total surplus earned of \$1,243,264,  
\$479,126 was distributed to policy-  
holders, and the balance, \$764,138 was  
added to the reserve fund. The total  
assets of the company at the end of the  
year were \$34,072,073, an increase  
of \$2,022,797. The details of the report  
make very interesting reading, not only  
for the shareholders and policyholders,  
but for the public generally. It in-  
dicates the prosperous condition of the  
company, but, above all, it shows that  
the continuously aggressive methods of  
the company have been endorsed by  
the community, and shows the com-  
pany's position to be stronger to-day  
than ever before. The management  
give a large part of the credit of this  
successful year to the personal en-  
thusiasm shown by the representatives of  
the company throughout the world-  
wide area which it covers.

## Oh, What's the Use?

Oil Co. of New York today issued a  
refined petroleum in cases 20 points, to  
10.70 cents per gallon, and in barrels ten  
points to 22 cents.

## SPECIAL EXTRA MILD ALE

A paste diamond does not become a genuine diamond when it is  
placed in a velvet case. Cheap ale does not become O'Keefe's

The funeral of the late Mrs. Thomas  
Gibson took place this afternoon from  
St. John's church, and was attended

a resident of Scarborough and York Town-  
ship, where she and her husband were  
well known and highly respected. A  
large number of residents met the fun-

Lost Control  
of His Temper

Once there was a man whose liver was  
not working right. When dressing in  
the morning he had his coffee and  
then he lost the color button. Then  
he took something.  
By the time he got to breakfast he was  
so irritated that he had no appetite and  
could not take his coffee. He went to the  
office with a headache and when he had  
some important business to transact he  
lost his temper.  
When you find yourself easily irritated  
and lose control of yourself and your  
temper, the condition of your liver is  
not working right. Take one of Dr. Chase's  
Kidney-Liver Pills at bedtime.  
The dark-water taste will not bother  
you in the morning, the tongue will  
while the digestion will improve and you  
will not have the tired worn-out feel-  
ings which accompany a sluggish con-  
dition of the liver.
