The Time to Buy!

The best time to buy Clothing, Hats and Furnishings is when you can get the goods you want at one-half what you expect to pay. That's generally the case now. Things that belong to summer are on the home-stretch, and the quickes kind of a clearance sale is in order. That accounts for su premely good values in :

-Men's Suits -Straw Hats -Boys' Suits -Sweaters -Light Pants -Thin Coats -Furnishings _Underwear

Important changes are pending in the Clothing section-more room in sight, more light and better facilities. Hence a disposition to sell now regardless of profit and a willingness to ply the necessary capital. Gold min- men who drank whisky without any lose money in order to sell quick. If that means anything it speculative character. He who goes for the law "for the sake of their means that this is your best time to buy Clothing.
