East of Woodbine — St. James'
Cemetery Up To-Day.

The Board of Control must have gone home last evening feeling baffled, non-plussed and discouraged. They went home to make order out of chaos. Chaos describes the impression in their minds about the position of new City Hall finances.

This entanglement of course further embittered the recollection of Ald. Lamb's charges of irregularities. They found vent to their feelings yesterday when, upon opening three tenders for fittings for nine departments, they found the lowest, that of R. Dinnis & Son, to be \$20,335. of R. Dinnis & Son, to be \$20,335.

And yet this did not include the Assessment Commissioner's requirements, which the architect estimates will cost \$3000 more. Mr. Fleming hasn't yet had the figure. On the other hand the architect claims that his \$15,000 estimate did not take into consideration the Park, City and Street Commissioner's office fittings, costing, according to the lowest tender, about \$2200. It did not include switch boxes, \$400; telephone boxes, \$900, and ordite work a report from Chief Grasett.

ing, according to the lowest tender, about \$2200. It did not include switch boxes, \$400; telephone boxes, \$900, and grille work, \$1300. Total not estimated \$4800. Assuming Mr. Lennox's premises to be correct, the lowest tender is still \$3200 over his estimate.

The architect blamed this excessive cost apon the chiefs of departments, who had ordered the fittings they thought they required. There was City Treasurer Condy, for instance, who had required the fittings of his suite of rooms to be of oak, to better harmonize with the dignity of his department. He had also demanded plate glass "in order to be able to keep his eye The board will see how the one already purchased works and will get a report from Chief Grasett.

Burns After Lennox Now. Burns After Lennox Now.

But Ald, Burns was not satisfied to lay the blame on the chiefs. He rallied Mr. Lennox for going into reckiess extravagances. He showed from the City Treasurer's report of Oct. 24 last, that there was already a deficiency of \$11,405.94 in City Hall accounts, even taking into account the unauthorized appropriation of \$85,000, illegal because it had neither Government nor popular sanction. This fittings' contract would add to the deficiency by \$5000, making \$19,000, which would by \$8000, making \$19,000, which would have to be provided even should the \$88,-000 be taken as authorized. So it appeared that even the \$88,000 was not going to findsh the building. We appear to be just nibbling at it, he said.

On the other hand Controller Leslie con-

Work on the Commander.

The shaft on the Commander, says The Rossland Miner, is down just 300 feet. It has been sunk 120 feet since operations were resumed under the management of W. J. Harris some time ago, and the showing now is the best that has been met since work was revied. Bunches of ore are met all over the bottom of the shaft; and much of it returns shipping values. The whole of the shaft is m mineral. For the most part the better grade of mineral shows a marked increase in the proportions of copper that were met above the 200-foot level. peaceful as a child. Mrs. E. Coburn, of Blenheim, Ont., suffered severely for many years, but Milburn's Heart and Nerve Pills have cured her. Here is her statement: 'When I commenced taking Milburn's Heart and Nerve Pills my heart troubles

were very bad.
"I could get but little sleep because of the terrible smothering sensation, and was also weak and run down. I have taken three boxes of these wonderful pills. They relieved my heart trouble, enabled me to get restful sleep, removed the smothering sensation, and made, me feel better than I have for years. I have been treated by a number of well-known and skillful physicians, both in Michigan and Canada, but Milburn's Heart and Nerve Pills are the only medicine which has acted well in my case, and I heartily commend their use to any person suffering as I did."

-Argument Gocs on To-Day.

In the Farmers' Loan appeal yesterday, S. H. Blake, Q.C., argued on the directors' liability question. He held that the appellant, Mrs. Toogood had not persisted in her claim for investigation, but had waited until a settlement was made and then brought forward her objection. The door of information had been opened to Mrs. Toogood as well as to everybody else, but she had not availed herself of the opportunity.
