> DOMESTIC SCIENCE PETITION. The following names were omitted from the list of those who signed the petition to the London school board in re the teaching of domestic science:

Thomas Coffey, J. Pocock, and J. W. Thompson. THE COLORED MINSTRELS.

Oliver Scott's colored minstrels appeared at the Grand Opera House Saturday afternoon and evening, and on both occasions the house was crowded. The company furnished capital entertainment for the large audiences. From start to finish the performances were artistic and catchy. The singing and dancing were clever, and the orchestra, under Prof. Hailstock, is one of the best on the road. There were several very good specialties, some of the more remarkable being the contortion feats of Marsh Craig and the wire manipulation of Allie Brown.

DUNDAS CENTER CHURCH.

Rev. Dr. Munhall addressed a gathering of nearly a thousand young people yesterday afternoon, His subject was "Remember now thy Creator in the days of thy youth." The address was full of interest and power, and at its close two hundred signified their purpose to lead a new life. The evening service was remarkable for the deep interest and large attendance. Again Dr. Munhall preached with overwhelming power. His theme was the old inquiry, "What Is Man?" Many at the close of the service manifested their desire for salvation. Tonight the doc-

## MAY TURN OUT TO BE MURDER!

Charles Clark, of Maitland Street, the Victim.

Found Lying Near the Parlor Stove Severely Injured

By Blows on the Head and Neck-Was Seaten and Robbed by Parties Unknown-He Is 80 Years Old.

What may possibly turn out to be a case of murder was reported to the police this morning, but as yet little

can be said about the matter. One thing is certain, and that is, that if the injured man in the case recovers from his wounds it will be a very great surprise.

The injured man in the case is Mr. Charles Clarke, who lives at the north-\$1,500 addition to his residence at the east corner of St. James and Maitland corner of Colborne street and Dufferin streets. He is about 80 years of age, avenue.

On Saturday, he was in the city, and went to his home at night, and when his sister retired she left him sitting by the coal stove. Yesterday morning when she arose, her aged brother was not in his bed, which had not been disturbed, nor was he sitting at the stove. She searched the house, and found blood-marks by the stove. She went to the parlor, and there found the old man lying across a chair in a semiconscious condition.

Dr. Graham was called, about six o'clock yesterday. He found that Mr. resident of South London, passed away blows on the left side of the neck and head. The flesh is black, badly swollen, left ear, an indication, the doctor thinks, that the bone of the skull is fractured.

Mr. Clark told the doctor that he had been hit by somebody, and that his money and watch had been taken. He says he had between \$35 and \$60 in \$5 bills, with him, when he went home. The doctor thinks that the old man

was struck by someone who knew he had the money. The sister is very deaf, and it would have been an easy matter to have effected an entrance and assaulted Mr. Clark without her hearing it.

Neither Mr. Clark nor the sister, with whom he lives, were ever married. Mr. Clark is said to be a man of some means, and last week he is reported to have given \$300 to his nephew, James Stewart, an employe at J. H. Chap-

man's. The police are investigating the affair. The opinion has been advanced that the old man fell on the stove, and then staggered to the parlor, and that he must have lost his watch and money before going home. This Dr. Gra-

ham thinks unlikely. No tracks were found near the place on Sunday morning morning, and if the man was assaulted and robbed it must have been between 9:30 and 10 o'clock on Saturday night, when the ground was soft, and about which time it rained and snowed, the latter melting as it struck the ground.

## **CLOSELY WATCHED**

Shaved Himself and Cut His Hair With a Ground Spoon Handle.

Marion Brown, the alleged murderer of P. C. Michael Toohey, has for some time past caused the jail officials considerable trouble, besides protesting against and refusing to eat prison fare. The prisoner has been keeping the left on Saturday for Montreal, where turnkeys guessing. On one occasion shaved his beard with a piece of glass, and cut off

a large tuft of hair over his forehead, which has materially altered his appearance. Brown refused to tell what he shaved and cut his hair with, and a strict watch was kept on him. His cell and clothes were always searched while he lies in the bath. But for some time nothing was found. Then a piece of glass about two inches square was found, with a very sharp edge, and a prison iron spoon, with the handle edge ground very fine.

A prisoner who was in the cell next to the one occupied by Brown, stated to a friend that he knew how Brown

managed affairs. On another occasion a letter was smuggled out of the jail, addressed to Brown's mother. It went astray, and having found its way to the dead letter office at Ottawa, was returned to the officials of the London postoffice. Brown has been crestfallen ever since he ascertained that his scheme didn't

#### LATE SPORTING

Jubilee and Collegiate Junior Hockey Teams Cross Sticks.

The Jubilee and Collegiate junior teams played a fast game of hockey at the Jubilee rink on Saturday night, the former winning by a score of 4 to 2. Mr. F. Beltz refereed. The attendance was small.

Brave Men Fall

Victims to stomach, liver and kidney troubles, as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, vousness, headache, and tired, listless, run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run-down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents, at W. T. Strong & Co's. Every bottle guaranteed.

THERE is not a more dangerous class of disorders than those which affect the breathing organs. Nullify this danger with Dr. Thomas' Eclectric Oil -a pulmonic, of acknowledged efficacy.
It cures soreness and lameness when applied externally, as well as swelled neck and crick in the back; and, as an inward specific, possesses most substantial results.

desire for salvation. Tonight the doctor will preach on "Hell," and tomortow night on "Heaven." Bible reading Church at 3 and 7:30 p.m. every day.

#### CITY MILLS **CLOSED DOWN**

The Swollen Thames Puts a Stop to Flour Making-Ice Jam at the Cove Causes Much Trouble.

Owing to the rise of the river, the mills of Messrs. Hunt Bros. and J. D. Saunby are idle, and have been for a week past. The ice-jam at the cove is the cause of the trouble.

Hunt' Bros.' mill closed down Feb. 27, and since then last Saturday was the only day that it could be operated. The ice-jam at the cove is the cause of the water rising, and no time should be lost in devising some means to remove the difficulty. The engineer's department found dy-

namite unpracticable, because of the fact that the ice is not solid, but in cakes two or three tiers deep. When a charge of dynamite was used the cakes charge of dynamite was used the cakes spread or were cracked, but the ice would not move in any quantity. we should have telegraph communi-The trouble originated in January,

when the ice on the river above the mills moved down the river, but the ice at the waterworks dam did not move until some weeks later. By that time the double quantity of ice from above had become grounded at the will keep up?" I answer emphatically

#### OPENING OF THE ART SCHOOL

Lendon's School of Art and Design Get ting Down to Work-The New Quarters.

The Western Ontario School of Art and Design will be opened tonight. Their pay streak is about two feet deep. The home of the school is the western This streak gives all the way from 25 and water oozes continually from the half of the upper floor of the public library building. A new partition has been put up, leaving a fair-sized room "rock," for up on the benches they in the center of the building, in which have to use the old-fashioned rockers. the nucleus of a museum, donated to the library board some time ago is on exhibition. This nucleus has not grown to an alarming extent, but now that it is in a position to attract more notice some additions may be expected. In the eastern portion of the building are the quarters of the Woman's Art Club, quite apart from the School of Art and Design. All the furniture and models have been removed from the old rooms on Dundas street. The new school is fitted with a sufficient number of incandescent lights, to turn night into day—for all practical pur-poses. Mr. E. Rose, the new principal, has had a wide experience as a teacher, and is particularly well qualified to give instruction in the branches of study more especially adapted for the benefit of mechanics

#### **FILIPINOS FAILED**

In Their Attempts to Capture the Manila Waterworks-Driven Back With Heavy Loss.

New York, March 6.—A dispatch from partaken of too much "nose-paint."

Manila, dated at 10 a.m. today, and The latter, I am pleased to say, is a New York, March 6 .- A dispatch from printed in the Journal, reports that the rare occurrence here. Filipinos made an attempt today to capture the waterworks, six miles

There is another way in which this country has been grossly maligned. That is in regard to the length of the from Manila. The attack was repulsed daylight in winter. We were told, and with a loss to the rebels of seventeen I believe the prevailing opinion outside is that for two or three months killed and many wounded. The Second Oregon and the First Nebraska At this date we do not have to use regiments were engaged. Two Amer-artificial light during the working teans were wounded. The Amer-hours. #### REV. DR. KING DEAD

The Principal of Manitoba College at Winnipeg Passes Away.

Winnipeg, Man., March 6.-Rev. Dr. King, principal of the Manitoba Presbyterian College, died yesterday after-

Rev. Dr. King's death was a surprise to many, as he was thought to be recovering from the severe attack of pneumonia contracted early in the and the Bartlett Bros. are confident year. His intimate friends, however, that they will come out in the spring had feared the worst, and his system was so thoroughly weakened that vi- Ontario.

tality could not be restored.

Deceased was the leader of the Presbyterian Church and college work in the west, and his death will be generally mourned. Coming here from Toronto in the early eighties, he at once began the work of building up Manitoba College, and succeeded in making it one of the leading Presbyterian institutions of Canada.
Touching references to the de-

ceased were made in many of the city pulpits this evening. The Manitoba College board, at a meeting held last week, recognized that Rev. Dr. King would be unfit for college work for some months at least. and Rev. Dr. Bryce was appointed acting principal, with Rev. Dr. Baird as acting treasurer. A GREAT LOSS TO THE CHURCH.

Rev. Dr. Warden, general agent of the Presbyterian Church in Canada, said of Dr. King: "He was one of the foremost men in the church, and in Manitoba there was no man whose opinion was more valued not only in church affairs, but in the affairs of the province generally. His loss will be very greatly felt in connection with the college in Winnipeg as well as in connection with the whole work of the church in the Northwest. He had in a very special manner the faculty of attracting men to himself, and no man was perhaps so loved throughout the whole church than he was. During his residence in Toronto he was greatly loved; in fact, he was generally esteemed by everybody who came in contact with him."

#### Christian Science.

CHRISTIAN SCIENCE! What it is. What it is not. Hear Carol Norton, C. S. B., Auditorium, Friday evening, March 10. Free. No collection.

A DINNER PILL. - Many persons suffer excruciating agony after partaking of a hearty dinner. The food partaken of is like a ball of lead upon the stomach, and instead of being a healthy nutriment, it becomes a poison to the system. Dr. Parmlee's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the secretions and convey the food partaken of into healthy nutriment. They are just the medicine to take if troubled with indigestion.

## **GREAT COUNTRY GOOD CLIMATE**

Dawson City Weather Superior to Ontario's

In Many Respects - Neither Winds Nor Storms-A Great Future for the Country.

A special correspondent in Dawson City, writing to the Toronto Globe, under date of Jan 27, gives this glowing account of the Klondike:

The greatest drawback to this country is its isolation. It is a tremendous task bringing in a load of mail over the 600 miles of ice between here and Skagway. The police have done nobly so far, but they have not got a sufficient quantity of dogs. Once they get a proper dog train service established cation. The service, I believe, would pay. Anyone here would pay cable rates. It would not be a difficult mat-

ter to establish a telegraph system. You may ask, "Is there is any prospect that the business of the Klondike yes. This is A GLORIOUS COUNTRY.

After the mines that are now being worked are worked out under the pres ent methods the real mining of the country will then begin. At present it requires 25-cent dirt to pay; after the introduction of improved methods and machinery two-cent dirt will yield fortunes. I will give you a sample— a fair sample: On the fifth tier from Skookum and sixth tier from Bonanza Creeks, 500 feet up on Gold Hill, the miners are working in from 10 to 16 feet deep of gravel carrying gold; that is, there is that depth of pay gravel. cents to \$25 to a pan. It will easily average 50 cents. Now this two feet is about all the miners can afford to "rock," for up on the benches they This leaves from 8 to 14 feet of gravel that averages about 10 cents to a pan (two shovelsful). Some day all this vast body of gravel will be worked by hydraulics. Then you will hear of such an output of gold as will

STARTLE THE WORLD. The benches and hills will far exceed the creeks in the output of gold. There is scarcely a hill adjacent to a gold-bearing creek that will not pay to work by hydraulics. Besides this, all the creeks will be worked over again as soon as the present owners work them out under the present system, and I shall be very much surprised if more gold is not taken out the second time than the first. Yes, I will repeat, I believe in the permanency of this country. All this country wants is a chance. It has not had fair play. It has been majigned as no there country. has been maligned as no other country on God's earth. The severity of the climate has been grossly exaggerated. I can candidly say that the weather in Dawson during the winter is many respects far superior to what you have in Toronto. We have

NEITHER WIND NOR STORMS here. If a man is frozen it often cccurs that he is too heavily clad at the time, or it might happen that he had

GOOD DAYLIGHT between the hours of 8 a.m. and 5 p.m.

On the shortest day we have five and a half hours of good daylight. We do not mind the winter at all, except to

In closing I will relate a fact which came to my knowledge. You will scarcely credit it, but nevertheless it is true: The Bartlett Bros., the biggest firm of forwarders in this country, have no less than 25 horses turned out to grass this winter. These horses are wintering up the Klondike River, noon, after an illness of several weeks. about 25 miles from Dawson. have had nothing to eat all winter except what they could find, yet they have done well and look well. far every horse turned out is alive. all right. You cannot beat that in

#### **CORDELIA VIAU AND PARSLOW**

Must Pay the Penalty of Their Awful Crime-Clemency Denied.

[C. P. R. Special to The Advertiser.] signed an order in council allowing the ducted the services. law to take its course in the case of Cordelia Viau and Sam Parslow, now in St. Scholastique jail, Quebec, for the murder of Isadore Poirier, husband of Cordelia Viau.

Mrs. Poirier, whose maiden name was Viau, and Parslow will be hanged on

Friday next, March 10. The murder of Poirier was, for atrocity, one of the worst crimes ever committed in this country, and the woman was the principal actor in the awful deed. According to the evidence, Parslow failed on more than one occasion to murder Poirier at the demand of Mrs. Poirier, and when the woman was afraid that Poirier would return to life after several fatal cuts from the

body badly bruised. It is also feared he has been hurt inwardly. He is an old man. The loss is estimated at \$10,-

### HER BRACELET DID IT

Remarkable Fatal Accident to the Countess of Sefton.

London, March 6.—The Countess of Sefton was recently overjoyed at the recovery of her eldest son from what was feared to be permanent mental illness arising from a blow of a cricket ball, has met with a tragic death. On Thursday her foot caught in her dress, throwing her to the ground with such force that a bracelet was crushed into her wrist. So deeply did it penerate that the effort to extract it caused blood-poisoning, and she died from swelling in the throat, after tracheotomy was fruitlessly performed.

LATE DR. McDONALD'S FUNERAL. Tilsonburg, March 6.—The funeral of the late Dr. McDonald, on Friday, was probably the largest in the history of the town. He was a member of many fraternal societies, and the members were present in large numbers. The pallbearers were: Messrs. W. A. Dowler, M. D. Crooker and J. Aspinall, of the local lodge, and Messrs. R. J. Walker, Toronto, W. A. Ferguson, Delhi, and George Luscombe, Simcoe. Among the official Masons present were R. W., W. F. Miles, Burford; R. W. T. Atkinson, Simcoe, and S. S. Clutton, past grand superintendent London district, R. A. M. Rev. Messrs. M. Mc-Ottawa, Ont., March 6.-Lord Minto Gregor and Dr. G. G. McRobbie con-

Pillows Made of Pine Needles

Are becoming popular, owing to theh medicinal effect upon catarrhal mal-adies. Catarrhozone is like a breath from the pine woods, and yet is a powerful microbe destroyer and germ killer. It is a certain cure for catarrh, though until recently catarrh was considered incurable. It penetrates wherever air can go, and cleanses as by You simply breathe it in-it does the rest. Send immediately for a free sample to N. C. Polson, & Co., Kingston, Ont.

Why do Hunt Bros. bring down so much Manitoba wheat, and pay 15c per bushel more for it than our good Ontario wheat? Because it makes the best flour in the world. Hunt's "Diamond" Flour is made from half Manitoba One Hard Wheat. Ask your grocer for it, and take no other cheap

The Plunket Greene concert tomorrow evening promises to be attended by one of the most fashionable audiences of the season.

flour.

LIFE SAVED-Mr. James Bryson my bed with inflammation of the wood. A very high wall left standing lungs and was given up by physicians. A neighbor advised me to try Dr. Thomas' Eclectric Oil, stating that his wife had used it for a throat trouble with the best results. Acting on this advice I procured the medicine, and less than half a bottle cured me; I certainly believe it saved my life. was with reluctance that I consented to a trial, as I was reduced to such a state that I doubted the power of
