Strong Resolution Passed at a Anglican Parliament Conclude Deliberations-Could Make Use of Fireworks Funds.

MIDLAND, June 18.— (Special.)— A largely attended meeting of ratepayers of the Town of Midland was held in the term hail to protest against the action of certain individuals in protesting the election of the mayor and council.

On a mere technicality the town council elected last January was unseated and a new election was held, there being no opposition whatever to the old council, who were returned by acclamation. Now again on a technicality an effort is being made to unseat them.

"I wish they would give us the \$10,-000 they are going to waste on fireworks at Quebec," remarked S. H. Blake, who, according to Rev. T. W. Patterson of Deer Park, has made something over 150 speeches at the Anglican Synod, which concluded its work yesterday.

The synod was discussing a motion of Rev. Mr. Vipond in regard to approaching the government and city council in order to secure an improvement in the conditions at Toronto jall. A resolution was passed declaring

the council.

The following resolution was carried unanknously:

Delicious Soup This.

Anything which will simplify cooking operations at this time of the year is very welcome and the following recipe for a soup which is really nutritious and which will be appreciated by all may be useful. In two quarts of water put one tablespoonful of rice or barley, one small onion, one small turnip and carrot, each grated. Add pepper and salt to taste, then boil 30 minutes, after which add two trblespoonfuls of Bovril. Stir well and serve.

Adding the payable on July 2nd to shareholders only of record on June 16th to July 2nd, both days inclusive. Dividend cheques will be sent by Registered Mail, on July 2nd and shareholders are particularly requested to see that their proper addresses are on record in the company's books before that date.

TEMISKAMING MINING CO.

STEWART & LOCKWOOD BROKERS 18 Adelaide Street East. WERKLY LHTTER

To visit Cobalt is to become a Cobalt enthusiast. More capitalists are now visiting this camp than ever before. Stocks of the real mines are in good demand at firm prices, with a decided advance in "Temiskaming," "McKinley-Darragh" and "City of Cobalt"; this in anticipation of dividends. The decline in "Crown Reserve" and "Foster" is not unexpected and is really an atmosphere clearer.

"Crown Reserve" and "Foster" is not unterpreted and is really an atmosphere clearer.

The pessimist who watches the deepening of shafts with the fear that such richness cannot continue, becomes an optimist when strikes being made at great depth confirm the surface prospect. Every week's work makes doubly sure the assurance that Cobalt is a permanent mining field.

In the first five months of 1908, twenty-six Cobalt mines shipped 7516 tons of ore an increase of 3000 tons over shipments of the corresponding period of 1907.

Beneath Cobalt Lake lies the rich "Cobalt Lake Mine," and radiating from its shores and touching each other are fourteen steady shippers, eleven of which are already dividend payers; a three-mile area whose phenomenal richness is almost unparalleled and is approached only by other groups of busy mines in this Cobalt district.

Since our last market letter, "Temiskaming and Hudson Bay," "Buffalo," "McKinley-Darragh," "Kerr Lake," "Temiskaming" and "City of Cobalt" have declared dividends.

La Rose Consolidated continues to advance in price and contests with Nipissing for leadership among Cobalt stocks. It is rumored that the regular dividend to be declared next week by Nipissing will be accompanied by a bonus and to anticipation of this may be attributed its recent rising tendency.

A desirable offering of the immediate future will be Chambers-Ferland, a property combining great promise and superior location with good management.

We still say buy good Cobalt stocks.

Our services and our advice are at your disposal. Yours very truly, Stewart & Lockwood. Yours very truly, Stewart & Lockwood.
