## **Palpitation** of the Heart.

One of the first danger signals that an nounce something wrong with the heart is the irregular beat or violent throb. Often there is only a fluttering sensation, or an "all gone" sinking feeling; or again, there may be a most violent beating, with flushings of the skin and visable pulsations of the arteries. The person may experience a smothering sensation, gasp for breath and feel as though about to die. In such cases the action of Milburn's Heart and Nerve Pills in quieting the heart, restoring its normal beat and imparting tone to the nerve centres, is, beyond all question, marvellous. They give such prompt relief

that no one need suffer. Mr. Sylvester Smith, Hampton, N.B., writes:-"I was troubled with palpitation of the heart and tried doctor's medicines, Janes' Building, Toronto, Ontario. 37tf. but they only gave me temporary relief. I heard of your Heart and Nerve Pill's and bought two boxes and before I had used them I was completely cured and would

recommend them to all similarly affected." Price, 50 cents per box, or 3 boxes for \$1.25 at all dealers or mailed direct on ers, Geo. Chandler, J. R. Brown, Norreceipt of price by The T. Milburn Co., Limited, Toronto, Ont

"I really don't see what they have to do with it."

This was the remark made last night by Henry O'Brien, K.C., solicitor for the Toronto Electric Light Company, regarding the decision of the board of control not to allow the company to extend its service into the newly-annexed districts of the city.

The city solicitor advised the board that the city was the council bed substituted.

In don't think the cases are at all parallel," said Mr. O'Brien who pointed out that in the case of the railway objection

could be taken that its lines might con-nect with radial lines, but that, no such objection could apply to the electric com-

pany.

The city solicitor reported that, as Sir Henry Pellatt had intimated that the company might sue the city for damages for illegal competition, the city would keep the damages down, if they were allowed, by limiting the company's expenditure on its plant.
