PAYING FOR CIVILIZATION. Next to iron probably nothing else has become so indispensable to modern civilization as rubber.) Even coal can be done without now that waterpower is being turned into transmissible energy. The developments of

machinery and especially the devices in the production of "As You Like It" by which electric power is possible, this week, the press agent announces depend almost entirely on the extra- that the acting version being used is ordinary properties, now so familiar not from Lamb's "Tales of Shakspere." as to be forgotten, which are found in rubber, and in no other commodity so conveniently and so easily acces-Christians were to be a peculiar peosible.

There are horrors connected with the rubber trade, as there are horrors Not a few. Christians have an apparent connected with almost every trade in ambition to distinguish themselves in which men engage, but the particular both qualities, to judge by recent horrors of the rubber industry are church debates.

so far away out of sight, they are so little evident to those who might remedy them, that the indignation of civilization so far has spent itself in protests and resolutions*

The time has arrived, however, when we must all pay for the careless and cruel way in which the rubber business has been conducted, and until the new era of plantation and culture of the tree spreads across the globe in-every clime capable of producing it, the present scarcity and high prices are to be looked for. An increase of 25 per cent. over present prices is expected.

All who use rubber directly in tires, in shoes, in pencil tips, in electric insulation, or in any other of the have a lapted it, should not forget the again to-day.

uniformed and drilled as a practical means toward efficiency; manly bearing and self-controlage initial ores TRIBUTE TO DR. PEARSON Canon Williams Preaches Memorial

Service at Holy Trinity. Broadminded, open-hearted, loyal, re ligious and God-fearing was the tribute paid by Canon Williams of St. John's Church to the late Rev. Dr. John Pearson last evening in the Holy Trinity Church, the former charge of the de-ceased. The text taken by Canon Wil-

"In the early days of this parish an effort was made to introduce a more ornate and more musical service," said Canon Williams. "At the time there was no church in the city where a service was regularly rendered. This

church was the leader in this forwar and upward movement. In 1875, it became necessary to get additional clerical help and the sub-dean of the cathedral at Fredericton, Rev. John Pearson, one of the brightest men of sreenish tinge and turning to a light his time, was chosen for the position. yellow color. In a week or so these in this, his own parish, but as the gen-eral offices held by him showed, he was a great favorite in the church in hould be ready for the market children restored to them and the generally. any size.

"He was not a narrow-minded man, neither was he cold-hearted. He always showed consideration for those opinions were different from his own He would never identify himself with

any party in the church, and had little use for the terms high and low when Perhaps the cruellest feature of our referring to churchmen. He would civilization is this decree which tears never attend a caucus in the synod, nor the sick child from its father and vote on a ticket." Canon Williams referred to the great Barriefield camp of volunteers. mother. Science has yet something changes in the parish since Dr. Pearson, first came to it, and remarked that it to learn and to do before we can rewould likely be necessary to adopt a different method of operations in the concile ourselves to such a situation. As it is society requires great sacricarrying on of the future work. Yesterday morning Bishop Reeve also successful. From here the tro
