UNION MINISTRY SEEMS IN SIGHT

Many reports as to the matters in dispute between the prime minister and the western Liberals were evidently the merest guesswork. There is reason to believe that there was little or no haggling about. political ratronage. The one point the westerners stond out for was a solemn public pledge by the prime minister that the parliament to be elected should be dissolved as soon as the var was over. They do not agree with the Borden government upon the fiscal question, and they are unvilling to have the country tied up another five years to what they consider an unreasonably high protective tariff. They also insist upon certain sweeping reforms being made

in certain matters of administration. As to the party issue at stake, one of the negotiators said last night that the western Liberals would gain nothing by staying out of a union government. It would be an easy matter, he said, for the government, however constituted, to carry the west under the Wartime Elections Act. Personally he regarded the disfranchising of the aliens as most unfortunate, becaus he said, it would undo the work that had been done in the way of Canadian-izing the newly arrived immigrants. But as to its political effect, he had no doubt whatever. He did believe, nowever, that the low tariff sentiment in the west should be reflected by appointing a certain number of Liberals to the senate and by having the union government select a certain number of parliamentary candidates from the He said the western were willing to postpone the tariff question until after the war, but should the war be over in three or four months they would be unwilling to have the tariff question sidetracked for another five years. The westerners therefore insist upon a fair share of conscription Liberals being returned to the next parliament and also

to bring on another election as soon as the war is over. The parties to the negotiations for government are now waiting to hear from Hon. George H. Murray, premier of Nova Scotia. If he is ready to join the government the reconstructed cabinet may be announced almost immediately. The negotiations will be resumed tomorrow, and it is rumored that the western Liberals would like have Mr. Rowell included in the cabinet.

One of them intimated his belief that the situation was more hopeful from a union government star.dpoint than it was 24 hof rs ago. It appears to be practically certain that Premier Sifton will become a member of the cabinet. Newton W. The impression appears to be growing that the Liberal, leader

She is capable of undertaking very vigorous local offensives. But her resources are diminishing at the very moment when the military situation demands that they should increase. "On the other hand British and French armies have reached their full strength in men and material, and are capable, with the help of America, of maintaining the enormous strength which they gained, to the end of the war.
