FREDERICK J. DARCH DIES SUDDENLY

Prominent Seedsman and Supreme Secretary, I.O.O.F., Has Heart Failure.

One of Canada's most prominent seedsman, Frederick J. Darch, supreme secretary of the Independent Order of Foresters since 1908, died suddenly from heart failure yesterday at his apartment, 379 Sunnyside avenue.

The late Mr. Darch was born in London fifty years ago. He was educated for a business career and became a member of the firm of Darch and Hunter, seed merchants, and continued in this business until 1912, when he withdrew his interests to become supreme secretary of the order. During his residence in London, he was for some years secretary of the Conservative Club, chairman of the water commission for three years and a candidate for the mayoralty on the Labor ticket on three different occasions. He was a great advocate of public ownership in the days when public ownership had few friends.

He leaves a widow and one daughter, Kathleen, who is at present in New York, studying music, and a son, Cuthbert, in the actuarial department of the society.

A memorial service will be held in Bonar Church, corner of College and Lansdowne, at 8:30 p.m. Sunday night, conducted by the Rev. Dr. MacGillivray, supreme orator of the society. The funeral car will leave Sunnyside station at 8:07 a.m. on Monday for London, where the interment will take place in the family plot.

NURSES' DIRECTORY.

Among the new Ontario companies announced is the Toronto Directory for Nurses, constituting Chester J. Decker, superintendent, Toronto General Hospital, and the superintendents or secretaries of other city hospitals, a corporation to conduct a registry for graduate nurses and nurses' aids.

\$4,000,000 DRIVE OPENS ON MONDAY

Methodist Conference to Raise \$1,100,000 Locally for Forward Movement.

In connection with the Methodist Church Forward Movement and financial campaign for \$4,000,000, a mammoth luncheon was held last evening in Simpson's luncheon rooms, at which nearly twelve hundred Methodists from all parts of the city were present.

The proposed campaign will open on Monday, Feb. 9, in all parts of the Dominion and Newfoundland, and will continue throughout the week. Of the total objective, Toronto conference proposes to raise \$1,100,000, while the mark of Toronto proper is set at \$550,000.

F. H. Deacon, chairman of the Toronto conference special subscription committee, made the gratifying announcement that \$435,000 has already been subscribed by eleven financial men in Toronto, and expressed the belief that, as far as this city is concerned, the campaign will "go over the top" thru special subscriptions before the date set for its opening.

"Everyone called on by my committee," said Col. Deacon, "has received the proposition kindly. Nothing appears to subscribers more than the superannuation and endowment fund, for they realize what the country owes to these men, who have given their lives serving the church."

Messages from all parts of Canada, reporting the progress of the campaign, which were thrown on a screen, were of a very optimistic nature.

"The financial drive is but an incident in the Forward Movement campaign," declared Rev. J. H. Arnp, "It is essential, but the real motive for the campaign should not be lost sight of."

The Church's Needs.

Speaking on the world-wide condition of unrest, and on the position of the church, Mr. Arnp continued: "What the world demands of the church may be summed up as follows: A new, definite consciousness of God in the world; that the church believe that Christ is a revelation of God; progressiveness in ideas as well as efficiency in action, and that the Gospel be made world-wide."

"We demand a forward movement, and dare not end with a financial campaign. My only regret is that the campaign is not wider and more thorough in its scope, but we must not let our action end on Feb. 14."

Rev. Peter Bryce discussed the plan of organization for the campaign, urging that the proper leaders be chosen, whether they be in the church or out. "Choose first that man who has talent and business ability, rather than a church official who is incompetent to be a leader," said Mr. Bryce.

He would name a watchword for the campaign in Toronto, and that word is "thorough," declared J. H. Gundy, vice-chairman of the Dominion financial council. "We believe in ideals. Sometimes they are not reached, and we are satisfied with something less. Our four million objective is not an ideal, it is a minimum, and we should reach it in the early subscriptions."

"The campaign should not end on Feb. 14, but should go right on under the watchword 'thorough.' I do not refer in this respect to the financial campaign, but to the Forward Movement."

Y.M.C.A. COUNCIL LOOKS TO FUTURE

Number of Officers Increased to Seventy-Two—Convention Work Reviewed.

Altho the third annual convention of the Y.M.C.A. came to a conclusion Thursday, the national council met yesterday to discuss plans for the next two years and to review the matters brought up during the convention. The recommendations contained in the report of the commission of five and adopted by the convention were received by the national council and plans made for their execution.

The national council also passed cordial votes of appreciation for the services of Mr. G. H. Wood, the retiring chairman, and Col. F. H. Deacon, the retiring secretary, who have served in these offices since the council was first organized in 1912.

Action was taken to make the national council an integral part of the religious education council.

The nominating committee was appointed at the morning session to elect officers and members of next national council. As was decided at the convention the number of members in the council was increased from thirty-six to seventy-two. The following officers were elected: Chairman, John W. Ross, Montreal; vice-chairman, J. H. Gundy, Montreal; secretary, J. H. Gundy, Montreal; treasurer, John Watt, Toronto; chairman of territorial committees, Maritima, C. J. Burdwell, Halifax; Ontario and Quebec, J. J. Gartsch, Toronto; central west, F. M. Black, Winnipeg; west, to be appointed.

ARMENIAN WOES

Richard Hill of Brooklyn Bible School Gives Illuminating Account of Turkish Atrocities.

In the interests of the people of Armenia, Richard Hill of the Bible School, Brooklyn, N.Y., gave an address last night at the Knox Church, dealing with the situation as it exists between the Turks and Armenians. Conditions, said the speaker, were hard to account for, but the reasons were probably largely racial, commercial and religious. The Armenian is a Mongolian, while the Turk is a Mongolian, while the Armenian is a Christian, while the Turk is a Mahomedan.

The speaker told of former attempts to aid the Armenian after a massacre, and of the off-times helplessness of the situation. An instance that came under his own observation was that of finding twenty refugees, men, women and children, huddled together on the cold, clay floor of a stable. One of the women, who had been in a party of some thirty, was found dead, and was waiting upon by servants. She had seen her husband and three sons placed in a row and shot, and her daughters ill-treated and killed, and she, herself, deprived of clothes, wandered in the mountains until she found herself one of the refugees of the stable.

On another occasion, 3000 were gathered together at Trebizond, placed on board barges, which were sent out to sea, and not one was ever seen again, the supposition being that they were fired upon from the forts. In a letter recently received, it was stated that there were 100,000 orphans in the world, and that unless something was done they must die before the spring.

The story of the atrocities was illustrated by pictures, which were thrown on the screen by L. W. Pierce. A collection was taken up in aid of the suffering people.

LICENSE POLICY IS PREDECESSOR'S

Issue to Hudson Bay Company Follows Precedent—Is Temporary.

The issue of an export liquor warehouse certificate to the Hudson Bay Co. at Kenora, announced in The World some days ago, has drawn a statement from the government to the effect that the certificate is good only till March 31, and that the "policy" may then be reconsidered.

The statement is made that the Ontario government is only following the lead of its predecessor in this regard. The "policy" is not intended to facilitate import of liquor from Europe at all. Provision was carefully framed into the O. T. A. in 1916 as if the lawyers who drafted the act had prophetic vision of future close relations between the brewers and distillers of Ontario and the liquor interests.

Sec. 45 says: "Nothing herein contained shall prevent any brewer, distiller or other person duly licensed by the government of Canada for the manufacture of spirits, fermented or other liquors from keeping or having liquor manufactured by him in any building wherein such manufacture is carried on, or from selling liquor therefrom to a person in another province or in a foreign country or to a licensee under this act."

FRACTURED HER THIGH
