FLIGHT TOLD OF IN BULLETINS TO TIMES-STAR

Waterside, Pictou County.—The three American world fliers passed over here twelve miles from Pictou at 10.50. They were flying low, hugging the coast line.

River John, N. S.—The planes passed over here, 20 miles from their way, at 10.54.

Tatamagouche, N. S., Sept. 5.—Planes passed here, 12 miles on their way, at 11.02. They were several miles out to sea.

Pictou, N. S., Sept. 5.—(United Press)—Weather was favorable for resumption of the American round-the-world fliers today and it was hoped the three aviators would be able to take off for Boston this morning.

At 7 a.m. the sun was shining brightly and there was little wind. The aviators were up at six a.m. The mechanics went immediately to the waterfront to position for the take-off, expected about 10 o'clock.

Lieut. Lowell Smith, commander, was in good spirits and said he expected the start would be made before noon unless there was an unexpected change in the weather.

At 10.20 a.m. Lieut. Nelson was in his seat with Lieut. Harding standing on the pontoon ready for the start. Harding shouted, "all well" and the three planes got ready to take off.

Lieut. Smith was stowing his personal baggage in the fuselage of his machine. Escort to Boston.

Boston, Sept. 5.—When the army fliers who are circling the world, fly down the New England coast, they will be under escort of a score of planes.

Walter air service officials awaited word of the probable time of arrival they arranged, under the direction of Major General Mason M. Patrick, chief of the air forces, to send the escorting planes down the coast as far as Old Orchard, Maine.

Lt. Lowell Smith and his fellow fliers will bring their planes down in the main ship channel off the airport, taxi them to buoys already established in the stream and then be received by boat by the reception barges to shore. They will sign the visitors' book of the airport.

A PARK AT RILEY'S OL' SWIMMIN' HOLE Will Commemorate the Pool Where Hooper Post Went As a Boy. Greenfield, Ind., Sept. 5.—(United Press)—The "Ol' Swimmin' Hole," made famous by James Whitcomb Riley, has been located at last.

Appropriation of \$10,000 by the city council to buy the land along Brandywine creek, where Riley went swimming as a boy, started a controversy that lasted for weeks.

Old settlers disagreed among themselves as to the location of the pool. Others declared emphatically that a change in the creek bed had turned the old hole into a sandbar.

Finally, after repeated consultations, it was agreed that the swimming pool was a few hundred yards north of the National road, and preparations are being made for opening the park.

NEW BOOST FOR ST. JOHN IS HERE

Supreme Sales System Makes Important Addition to Activities.

The merchants of St. John and community at large have a great deal to be thankful for in the location here of the Supreme Sales System, with Samuel J. Ross as president and I. J. Goldberg, secretary-treasurer. This company has been conducting many of the large merchandising sales that have taken place here in the past few weeks.

It is Mr. Ross' intention not only to give the public well displayed bargains but also to assist the merchants in any business problems of a selling nature.

Mr. Ross would also like it understood that should any of the merchants at any time feel that they would like to have their clerks instructed in the art of selling and properly meeting their customers the Supreme Sales System will be only too pleased to instruct them along these lines, free of charge.

This company is occupying the entire third floor of the Dominion Bank building on Prince William street, and has gone to no end of expense in furnishing their entire suite in a very up-to-date manner.

Mr. Ross is a very strong enthusiast along the lines of "Buy at Home," as he says everything pertaining to their suite of offices was made and purchased here in the city and he trusts that he may see the day when there will be very few out-of-town purchases coming through the mails.

ARBITRATION SECURITY AND DISARMAMENT

(Continued from page 1) bodies concerned as to the lines along which such a condition shall be handled.

"The conference desires, therefore, to recommend that where, after full and careful investigation, emergency relief is found to be necessary, that such relief should be extended, the expense to be borne by the Federal, Provincial and Municipal authorities, on the basis of 50 per cent. by the municipality, the balance of 50 per cent. to be taken care of equally by the Federal and Provincial governments concerned. The responsibility of the Municipality in this emergency relief to be confined to its bona fide relief.

Advisory Councils. "After hearing representation respecting the work carried on by the committee appointed under the co-operation of the Federal Government that these advisory councils be properly constituted and their activities be placed on a working basis and be continued during the coming winter."

An amendment introduced by John W. Bruce of Toronto, one of the Labor delegation, calling for regulation of immigration to correspond with available employment, was not approved without considerable discussion. Finally it got to no end of expense in furnishing their entire suite in a very up-to-date manner.
