

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, APRIL 8, 1922

BOY SCOUTS
WOLF CUBS
ROVER SCOUTS
SEA SCOUTS
LITTLE FRIEND OF ALL THE WORLD

Last Session of the Leaders' Training Course.

On Wednesday evening the last session of the Scout Leaders' Training Course will be held in Trinity church schoolroom at 7.30 o'clock. The speaker of the evening will be Wm. McIntosh, provincial entomologist, curator of the New Brunswick Natural History Society and chairman of our camp committee. His subject will be "Campcraft: Selection of Sites, Essentials of Camping, Etc." We do not know of anyone who knows as much about camping, entomology and natural history as Mr. McIntosh in the province.

The remainder of the evening will be taken up with interesting and instructive subjects, and the ladies will provide refreshments at the close of the session. The leadership training committee have spared no effort to make Wednesday evening, April 12, an evening to be looked forward to, and therefore it is hoped that every scoutmaster, cubmaster, assistant scoutmaster and assistant cubmaster will make a point of being present and close the course with a bang.

Reliable Radio Information.

The government printing office at Washington has on sale three publications which give much useful information regarding electricity and radio communication. They can be purchased at the prices stated from the Superintendent of Documents, Government Printing Office, Washington, D. C. These prices include postage in the United States, Canada, and Cuba. Remittances should be made by money order. Stamps are not accepted. Cash sent at risk of sender.

1. "The Principles Underlying Radio Communication," Second Edition, 1922 (Signal Corps Radio Communication Pamphlet No. 40). A book of 610 pages with over 800 illustrations prepared by the Bureau of Standards. A book of principles, it tells the why of radio. Two chapters on elementary electricity and dynamics. Four chapters on radio principles and practice, antenna construction, transmitting and receiving apparatus, coil antennas and direction finders, transformers, crystal detectors, electron tube sets, radio telephone sets, useful reference tables, many circuit diagrams. \$1.

2. "Elementary Principles of Radio Telegraphy and Telephony" (Signal Corps Radio Communication Pamphlet No. 1), 1921. An illustrated pamphlet of about seventy-five pages, giving the fundamental principles of radio. Ten cents.

3. "Elementary Electricity 2" (Signal Corps Training Pamphlet No. 1), 1921. Illustrated, fifty-five pages, giving the fundamental principles of electricity. Fifteen cents. "Scouting."

Form W. 44, "Experimental" application for license to install and operate a radiotelegraph station in Canada; Extracts from the Radiotelegraph Act; Form W. 44a, Application for permission to attend Canadian examination for amateur experimental "certificate of proficiency in radiotelegraphy," can be secured from District headquarters, The Boy Scouts' Association, Bank of Montreal Building, King street.

Requirements for the New Wireless Badge.

To qualify for the wireless badge a Scout must:

1. Be able to send and receive at the rate of ten words (fifty letters) a minute, within ninety-five per cent. accuracy.
2. Know the government regulations respecting amateur wireless stations and operators.
3. Know the traffic and caution signals.
4. Know the correct procedure for sending a message.
5. Draw a diagram and explain the

VOGUE INCREASING FOR LONGER SKIRT

Atlantic City, April 8.—Skirts are going down and necks up, brilliant colors are the thing for the ball, and sombre black for the boudoir, and low heels are correct for evening costumes, according to the new styles shown at the Atlantic City spring fashion show, which opened at the Hotel Ambassador.

Evening dresses, especially, showed the tendency towards longer skirts. For sports wear, the shorter skirts are still in vogue. The evening gowns are to have high necks and higher backs, but no sleeves.

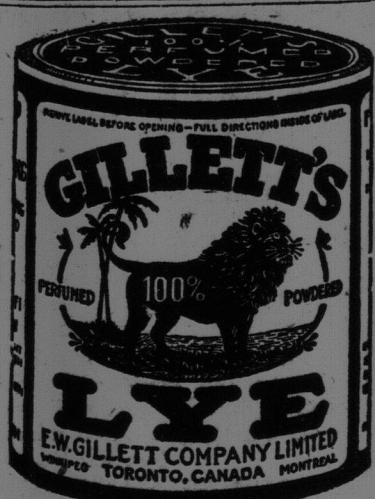

Three-piece costumes were most in evidence for sport wear. Some were of velvet with caracul collars, and georgette waists; others of tweed and still others of crepe de chine. No knickers made their appearance at the opening show. Silk sweaters with peniques, silk skirts and sport shoes of white with black patent leather, or white with green leather trimmings, were also much in evidence.

Red heels on afternoon slippers are to be worn widely judging by the numbers which appeared at the exposition, hems are uneven, if the dresses are not cut to make this prominent, pencil slippers are let in at the sides.

Brocade slippers for children and

WOMEN! DYE THINGS NEW IN "DIAMOND DYES"

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her worn, shabby dresses, skirts, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything even she has never dyed before. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is sure because Diamond Dyes are guaranteed not to spot, fade, streak, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.

ladies were a popular showing. Most were silver or gold, but many were a combination of silver and old rose or silver and green. Scalloped gowns for evening wear proved a popular style. Glass beads were prominent trimming for formal gowns.

The bathing suits are to be more daring in color and more close fitting, according to the styles exhibited. The "two-in-one" was the popular showing.

LOAN TO REBUILD FRENCH CHURCHES FULLY SUBSCRIBED

More Than 3,000 Edifices of Worship Destroyed in the War—Interest and Sinking Fund Guaranteed by Government.

London, March 28.—(By Mail)—One of the most interesting features of the work of restoring the devastated regions of France is that part of it which concerns the re-building of the large number of churches that were destroyed. In all just over 3,000 churches, mostly in the villages, were either totally destroyed or seriously damaged during the war.

In France the churches are now the property of the state, which makes itself responsible for their maintenance, so that gifts to the church in France are really gifts to the state. In spite of this situation, which was set up by the Separation Law, the reverence of the average Frenchman for his village church, says the Paris correspondent of the Morning Post, has proved stronger than political prejudice, and a way has been found by means of which it has been possible to raise a huge loan for the rebuilding or repair of the ruined edifices. This loan was fully subscribed within a week of the opening of the lists.

Through the medium of what is known as the Groupement des Societes Co-operatives Approuvees de Reconstruction (Approved Co-operative Societies of Reconstruction), a loan of 200,000,000 francs has been issued to the public in the form of 800 franc bonds yielding interest at the rate of six per cent. Seeing that the issue price is 475 francs, that an exceptional dividend of 20 francs (instead of 15 francs) is payable at the end of the first six months, and that the subscriber will have the benefit of a bonus at redemption, the average yield works out at the rate of 6.68 per cent. The interest and sinking fund payments are guaranteed by the state, being covered (under a convention between the Ministry of Finance and the Co-operative Societies) by the annual reparations payments to be paid by the Treasury as war damages, which it is hoped will eventually be recovered from Germany.

WILL GO WEST.
Frederick Mall—H. P. Baird and family will leave about May 1 for Vancouver where they will reside.

FELL INTO CISTERN AND WAS DROWNED

North Gosfield Farmer Drawing Water Thought to Have Slipped.

Leamington, Ont., April 8.—Chas. Barnett, prominent farmer living in North Gosfield Township, was found drowned in a cistern near his home. He had arisen early and gone out, carrying a lantern. The body was found by Roy Barnett, a son, who, becoming alarmed when his father failed to return to the house, went in search of him. The lighted lantern standing at the cistern's edge revealed Barnett's body at the bottom in a few feet of water.

It is believed that in reaching down for a pail of water, the farmer lost his balance and fell in. Barnett was well on in years and had lived in South Essex for nearly forty years.

DELAWARE CONVICTS URGE MORE DRASTIC NARCOTIC LAW

Greenbank, Del., April 8.—An appeal to the General Assembly of Delaware to enact drastic laws for the punishment of the sellers of narcotics and the protection of drug addicts has been made by convicts of the State Workhouse here. In a set of resolutions adopted by the "honor court" convicts, who get special privi-

leges, the prisoners set forth their desires in part as follows: "We respectfully request of the next legislature the passage of more stringent laws for the punishment of dope ped-

There is constant danger in an oily skin

A skin that is too oily is easily infected by dust and dirt. Use this treatment to overcome excessive oiliness: With warm water work up a heavy lather of Woodbury's Facial Soap in your hands. Apply it to your face and rub it into the pores thoroughly—always with an upward and outward motion. Rinse with warm water, then with cold. If possible rub your face for thirty seconds with a piece of ice.

Begin this treatment tonight. Within a week or ten days you will notice a marked improvement. The Andrew Jergens Company.
