ROBBERS AT LITTLE RIVER

Post Office Broken Into Last Night; House About a Week Ago.

The Post Office at Little River was broken into last evening and \$2 in cash taken from the till in addition to a quantity of candy, groceries and tobacco and two overcoats. The post office and general store are conducted by Isaac Hamm, who resides in the upper section of the building. An entry was made by forcing a sash on one of the windows, but the thieves did it very quiet and did not awaken Mrs. Hamm's household.

About a week ago another burglary was committed at Little River when the home of John Hart was entered and goods said to be valued at \$800 were stolen. Last Tuesday while Mr Hart was in St. John his home was burned to the ground. He said he had left no fire in the house.

Dock Street Break. A break was made last night into the stores of Robertson, Foster & Smith, Messrs. Linton & Sinclair, and Remington Typewriting Company, but nothing was taken, and it is the belief that money only was sought. The offenders entered the store of Robertson, Foster & Smith from Nelson street by breaking a pane of glass in a warehouse window. The other places were reached from within. There was no damage done except a pane of one of the doors was cut so as to allow them to turn the key in the door on the other side. The police are investigating the matter.

POLICEMAN'S EVIDENCE IN HUMPHREY CASE

The evidence of Policeman Thomas was taken in the police court this morning at the resumption of a case against Herbert Humphrey, charged with an assault on George Grayley and the policeman a few days ago. The policeman said when the accused was brought into the guard room he was very abusive and caught Sergeant Scott by the throat. The accused was brought to the guard room later for identification and before he was put back in the cell the witness said he and Detective Saunders attempted to search him for concealed weapons. The witness said he struck him on the jaw and in the mouth knocking two teeth out. He said the force of the second blow knocked his head against a stone wall. He said Detective Saunders put the accused in the cell but there was no violence used by either of them. The case was postponed until next week. Theodore Saunders of Gondola Point, was charged with attack upon a Bothe-y woman while on a moving tram on January 6. He pleaded not guilty. Leonard Dryden was reported by Inspectors Jounney and Henderson on allegation of having liquor in his licensed pool room. A deposit of \$200 for appearance this afternoon was made. W. M. Ryan appeared for the prosecution and Scott E. Morrell for the defence. One man charged with drunkenness pleaded guilty and was remanded to jail.

G. P. R. STARTS TO REDUCE STAFFS

Men to Be Laid Off Where Business is Slack

Four From Bay Shore; Shorter Hours at McAdam—Grain Movement and Other Matters.

The commencement of a gradual reduction in the working staff of the Canadian Pacific railway over practically all the New Brunswick district was announced by J. M. Woodman, the general superintendent of this district, this morning. He could not say to what proportion the staff would be reduced, as it differed in each section, the extent of the cut being governed by the amount of business being transacted. Providing the business conditions remained as at present, however, the reduction would be less than fifty per cent. at the outside. A shortening of the working time in the shops at McAdam was also reported. Practically the only section not affected by the staff reduction is that in the north of the province—the Woodstock section. Here Mr. Woodman said the traffic was about the same as last year. The mechanical shops at McAdam was being put on a forty-hour week instead of forty-four, and the staff in the round house in that place was being reduced by twelve. Seven men were being allowed to go from the Brownville shops, and four from Bay Shore.

The Ocean Traffic.

Asked if a report that the C. P. O. S. had planned removing all the freight steamer from the ocean route and restricting the carriage of freight to the passenger boats, Mr. Woodman said he had heard nothing of it, but understood that some of the freighters were being laid up on the other side of the ocean.

Regarding the grain situation he said the elevators here were full and the movement of wheat from Fort William and Fort McNichol had been restricted to about fifty cars a day. At the present time there are between 6,000,000 and 6,000,000 bushels between here and lake ports, about 1,500,000 of which is in elevators at St. John and a like amount on the rails between here and Megantic.

He said there was no indication of an immediate improvement of conditions, nor would there be any until both the cost of commodities and the cost of labor resumed a more normal level. Regarding the estimates of the cost of new work to be done in this district for 1921, Mr. Woodman said that he would not have that information for some time. He did not expect that there would be any change in the business conditions improved to a great extent. He had asked for considerable work to be done, but was in doubt as to what amount would be possible under the circumstances.
