

Canada In The War
Newsy Notes of Activities in Many Parts of Dominion

Fredericton has decided to raise a Patriotic Fund. Fifty-one wife deserters who have been found in the ranks of the volunteers at Valcartier are to be sent home. Private Descelles, a western volunteer, dropped dead in the ranks yesterday. Yesterday was a big day at the camp with 25,000 men being drilled in target practice and skirmishing at once.

ish and French governments against the sailing of the steamer "Red Cross" from New York with nurses and surgeons for the European battlefields, because of there being several Germans in her crew. She was loaned to the Red Cross Society by the Hamburg-American line. The expedition may be deferred for some time. Calgary, Alberta, Sept. 10.—Employees of the city of Calgary, from the \$4,000 per annum commission on the way down to the \$20 a week man, will contribute a portion of their earnings towards caring for the wives and families of those who are going to help fight the battles of the Empire. Fraternal societies have agreed to keep in good standing all members absent on war service. A firm of restaurant proprietors will give three meals a day to the families of all British reservists who are at the front, and the women's organizations are taking up the task of providing for the relatives who might otherwise be overlooked. Thus every man who volunteers for war service is assured of the welfare of those he leaves behind.

THANKSGIVING DAY CHANGED TO OCT. 12

Ottawa, Sept. 10.—The government has fixed Thanksgiving Day for October 12. The administration first fixed the day for Thursday, October 9, to adhere to the policy of making the day of thanks a part of the week end, the observance of the day was changed to Monday, the 12th.

BRITISH CAPTURES GERMAN COLLIER ON THE ATLANTIC OCEAN

London, Sept. 10.—The admiralty announced today that a British warship had captured a German collier in the Atlantic with 5,000 tons of Welsh coal aboard.

PRACTICAL HELP.

It is interesting to find that the biscuits we have been enjoying with our cup of coffee at the Daughters of the Empire booth in the Exhibition have been donated by the J. A. Marvin Co., of Moncton, makers of the well known brand of biscuits, and all credit is due to them for helping in such a practical manner to swell the patriotic fund.

KING SPENDS THE DAY WITH TROOPS

Pathfinder Sunk By Torpedo—German Prisoners May be Compelled to Take up Mines

London, Sept. 10.—King George left London this morning to spend the day with his troops at one of the great military depots. He was in uniform. London, Sept. 10.—It is said that the British cruiser, Pathfinder, which was destroyed in the North Sea on Sept. 6, supposedly by contact with a mine, was sunk by a torpedo. This information is released by the official information bureau. London, Sept. 10.—That the German prisoners will be pressed into the service in the highly hazardous work of sweeping the North Sea of mines, was a suggestion made in the House of Commons today. It is being considered.

THE EXHIBITION

Only Kindness of Weather Man Now Needed

TODAY AT THE FAIR
Some of The Special Features—Further Results of Work of The Judge at The Interesting Dog Show

TODAY'S PROGRAMME
Afternoon. 2.00 p. m.—Judging of the horses to be complete, with common and class, heavy carriage horses, saddle horses and ponies. 8.15 p. m.—Free acts before the grand stand. 8.00 p. m.—Band concert from the band stand in the Main building. Evening. 8.00 p. m.—Concert in Main Building. 8.15 p. m.—Evening performance before grand stand. 8.00 p. m.—Fire works. 10.00 p. m.—Doors close.

It is up to the weather man again today. The exhibition has demonstrated that it is a success in itself, and all that is needed to make it equally successful from the box office point of view is a reasonable degree of fine weather. In this respect the luck has been fair so far, and it is hoped that the clouds which are lowering over the city this afternoon will not develop into anything more serious. There was the usual morning attendance at the dog show, and the usual rush commencing at noon. If the weather is good the crowd should be at least as large as yesterday.

Two interesting features of the programme for this afternoon are the butter-making contest in the dairy department and the amateur judging of sheep and swine in the ring, commencing at 2.30 o'clock. A new department this year, which has attracted much attention, is the display of products of the dominion export industry. The display shows the products of the dominion farm, as a standard by which other producers may judge their own results. The display also includes samples and models of farm buildings and equipment of modern design, and the results secured by careful and efficient methods. The experts in charge have been keenly busy furnishing information to the interested.

The tea rooms in the upper floor of the east wing have been having all the business that can be handled in the space available. A different society is in charge each day and the competition between the various organizations to make the best showing is a productive of entirely satisfactory results to those who patronize the tea room. Today the members of the Ladies' Auxiliary of the Y. M. C. A. are in charge. The "Kiddies' Tea" in aid of the Free Kindergarten on Saturday will doubtless be well patronized by citizens again.

Repairs to the motor polo cars were being completed this morning in preparation for the afternoon game. While several of the players received some bad bumps yesterday, they were all on hand this morning ready to go on again. The first showing of the big fireworks feature in celebration of 100 years of peace between Canada and the United States last night made a good impression. This evening the siege of Gibraltar will be repeated, and the peace feature again tomorrow night.

The Best Quality at a Reasonable Price
Diamonds Are Cut in Belgium
Antwerp is the centre of the Diamond Cutting industry. There is no business in Antwerp now. Many of the cutters of that and other Belgian cities are with the colors.

What effect this will have on the future of Diamond cutting we are not prepared to say. It is hardly likely that it will bring about an improvement in the quality of the work when peace is declared, or cause an increase in the number of skilled workers.

Very likely the New York Diamond cutting industry will be stimulated, but it costs more to cut Diamonds in New York than in Belgium.

If you desire a Diamond, now is the time to purchase it, for our stock offers good stones of all sizes, perfectly cut, at prices that prevailed before Belgium became again a battle ground.

ST. JOHN BOYS ARE ANXIOUS FOR THE WORD TO START

Doctor Godsoe, Home From West, Tells of Visit to Camp at Valcartier

After a pleasant trip through western Canada and the states, Dr. Frank A. and Mrs. Godsoe returned to the city last night. Doctor Godsoe was a delegate from New Brunswick to the supreme convention of the Knights of Pythias in Winnipeg and following that and his wife visited Chicago, Toronto, and other cities. They also went to the big military encampment at Valcartier, where they spent an interesting day. H. R. Gantner was another delegate from St. John to the K. of P. convention. Doctor Godsoe said today that it had been remarkably successful, and all who had attended it had come home feeling well satisfied with the trip. Many matters of importance to the order had been dealt with. The delegates had been royally entertained by the Winnipeg members. Doctor Godsoe said he had been greatly impressed with the big camp at Valcartier. It was a wonderful sight to see so many men, about 35,000, bivouacked in the open air. The improvement that had been wrought about the grounds, which had been speedily converted from a barren field to a bustling military centre, was a sight to behold. The St. John boys with whom he had chatted had appeared most cheerful and contented, but were very anxious to be started on their way to the old country to get into action. This was the only source of complaint from them—they were anxious for the hour when the orders for departure would be given. It had rained almost steadily at the camp for ten days but trenches had been dug in the damp ground, thus reducing the depth of the mud. Cantennas about the grounds were being liberally patronized, and though each day brought an active round of routine duties, the lads from St. John and other centres through Canada were filled with a true soldierly spirit and entered into their rather arduous drill with cheerful countenances.

Imperial Has St. John Films Today
Today and for the remainder of the week, Imperial Theatre will show real motion pictures of the departure of the first companies of volunteers from St. John. The scenes of unbounded enthusiasm which marked this event are faithfully reproduced, and St. John people will see themselves in a spirit of uproarious enthusiasm. In the crowds surging down King street and round about Union depot, hundreds of familiar faces will be recognized. The remainder of the Imperial's bill will consist of Rae Eleanor Ball, violinist; Arthur Huskins, tenor; a two-part Alice Joyce society drama; a sparkling comedy, and Mary Pickford Picture Biograph; and some views of European royalty and soldiers now in the great conflict.

STILL PUNGENT
The small still continues unpleasant from the decaying grain at the I. C. R. elevator. People are asking whose duty it is to have it removed as soon as it is a menace to the health of those living in the vicinity, particularly children playing about the neighborhood. It is felt that immediate action should be taken.
