Hundreds of persons were killed on wounded, and three streets devastated. Troops have surrounded the city and refused admission to it.

Jews Panicstricken

Warsaw, Sept. 9.-In consequence of the massacre of Jews in Siedlce the Jews here are panicstricken. Alarming reports are being circulated throughout the city.

Slaughter and Pillage. St. Petersburg, Sept. 10 .- The predictions made in a dispatch of August 23rd of a Jewish massacre at Siedlce, Russian Poland, unhappily have been justified by the fighting which broke out Saturday night and developed yesterday into a carnival of indiscriminate slaughter and pillage in which the soldiers and mob took part.

Unfortunate Jews were

Shot and Bayonetted in the streets of the town, Houses and shops were broken into and sacked. Valuables were carried off and offered for sale by soldiers to passengers on passing trains. In addition to the Jews, a number of Christians and even some officers met their death in the fighting. The number of victims has not yet been ascertained, but a conservative estimate places it at 140. The Jewish fugitives who thronged the railroad station at Siedlce are in a state of panic. Reports received here from Warsaw

and other towns in the vicinity of Siedlce place the number of victims at several hundred. The early reports of the Siedlce massacres

at the door of the terrorists, but fugitives declare that the soldiers never would have been allowed to get so completely out of hand without the connivance or the actual directions of their officers.

The first reports received of the Bialystok massacre last June said the terrorists were to blame there also.

It is difficult to obtain details of the slaughter throughout, a large portion of trouble at Siedlce as the town was surrounded yesterday by soldiers and noody was allowed to enter. Passengers, however, who arrived at Warsaw during the night gave the following account of the slaughter.

Any person seen leaving houses After the murder of a policeman by looking out of a window was shot withthe terrorists on Saturday night and out mercy.

TRIBUTES TO THE HARVARD CREW

LONDON PAPERS PRAISE PLUCK AND SPORTSMANSHIP

London, Sept. 10 .- All the morning newspapers devote much space to reporting, commenting and editorializing at New London. on the Harvard-Cambridge boat race and while glorving in the sustained prestige of Englishmanship they paid high tribute to Harvard's pluck and sportsmanship

The Daily Mail says the Americans proved gallant losers and merited the universal admiration they received, adding: "It is pleasant to discover that there are some things, we on this side of the Atlantic can still hold as our own despite the steady loss of much of our best blood to the United States and the colonies." The Daily News believes that the

Cambridge victory was not so much that of men as of method and the wellknown oarsman, R. B. O'Herrington Smith, writing for the Daily News, says he feels convinced that Harvard

had far more latent pace in their crew than the Cambridge men and if taught by one of the few good English coaches would be hard to find a crew to beat them.

The Daily Telegraph in an editorial article says: "It was a most fortunate coincidence, after the regrettable circumstances which led to the suggestion that Americans in the future would not be welcomed at Henley, that Harvard should have overcome it this summer and shown Englishmen that there are

true amateurs in America." Altdorf against a party of Swiss moun-tain climbers, alleging that their singing Guy Nickells, in the Morning Post, finds among the lessons taught by the started an avalanche which destroyed his race that "the days of the professional flock of shepe.
