

WEEKLY WEATHER SYNOPSIS.

Victoria Meteorological Office.
February 4th to 10th, 1903.

During Wednesday and Thursday, the 4th and 5th instants, an important high barometer area covered British Columbia and the North Pacific states; the weather was mostly fair and cold, with occasional light falls of snow in Oregon and Washington. On Friday, the 6th, the pressure fell and an ocean storm area approaching Vancouver Island, by nightfall the storm developed, a moderate gale from the south-east prevailing at the entrance to the Straits of Juan de Fuca, causing rain in this district and snowfall on the Lower Mainland. During the ensuing following days a succession of storms shifting from southwest to southwest rapidly passed over the province and the adjoining states, accompanied with heavy rainfall. Storm signals were displayed here, at Vancouver and Nanaimo. High winds and gales occurred along the waters of the Straits and on the outside Coast, the gales being especially heavy from Tacoma light-house southward to the mouth of the Columbia river, from which latter point an hourly wind velocity of 72 miles was reported on Saturday. On Sunday a high barometer area made its appearance on the California coast and its movement checked the progress of the storm area and forced the weather to the eastward through the province and into the Territories. By Tuesday the pressure had again increased over the Pacific states and British Columbia, and conditions once more became favorable for an interval of fairer and brighter weather. During the greater part of the week the weather was decidedly stormy and threatening, with heavy falls of rain, sleet and snow at various points. Temperatures have been lower than usual except on the 9th, when during the life and work of Miss Frances Willard, and recitations and solos by Miss Underhill and Mrs. Clyde.

At Victoria, 18 hours and 24 minutes of bright sunshine were recorded; the highest temperature was 58.1 on the 9th; and the lowest, 30.7 on the 10th; rainfall, 1.11 inches.

At New Westminster, highest temperature, 46 on 9th; lowest, 20 on 9th; rain and melted snow, 1.43 inches.

At Kamloops, no precipitation; highest temperature, 44 on 9th; lowest, 4 on 9th.

At Barkerville, snowfall, 30 inch; highest temperature, 34 on 9th; lowest, 2 below zero on 4th.

Local News.

CLEANINGS OF CITY A-J

Due to the poor attendance at the meeting of No. 6 Company, Fifth Regiment, held on Monday, election of officers was postponed until the 23rd of the month. Several reports were received, however, and a general discussion took place.

—Wm. Woodman, of this city, has received the appointment of agent for the British Columbia Permanent Loan & Savings Company in Nanaimo, in place of E. J. Platt, who has filled that position for the past twelve months. Mr. Platt goes to Sydney, Cape Breton, to take charge of the work there.

—The funeral of the late Walter J. Malone took place on Tuesday morning at the parlors of W. J. Hanna to St. Andrew's Presbyterian church. Rev. Mr. Ewing officiated at the church and also at the cemetery. The following acted as pallbearers: Messrs. W. A. James, son, Albert Pettigrew, A. J. Murtie and Herbert Taylor. There were many floral tributes.

—In order to push the work of construction on the Cloverdale and Port Guichon branch of the Victoria Terminal railway, a force of six hundred men is now employed by the company. The work is going forward vigorously in order to finish it by the beginning of May.

—The city of Toronto is seeking to have a reunion of former residents of that city during the coming summer. The intention is to have former residents gather from various parts of Canada and the United States and spend a few days in their former home. Paul Jarvis, secretary of the Toronto Board of Trade, is furthering the project, and is writing to various parties interested for suggestions in the way of making it a success.

—A meeting of the Veterans' Association was held on Tuesday, when Ed. S. Shrapnel, A. R. C. A., late lieutenant of No. 1 Co., 34th Battalion, read a paper on the Fenian Raid of 1866. There was a good attendance and the remarks of Mr. Shrapnel were listened to with great interest. It was decided that an effort should be made to increase the membership of the society and to collect the yearly dues. The chair was occupied by Major Wilson, the newly elected colonel commanding.

—Members of the city council paid an official visit to the Victoria Chemical Works Tuesday, where they inspected the plant to observe for themselves the nuisance complained of. One of the chambers of the plant had been closed down, but from what the visitors saw, and from the information supplied by the residents in that part of the city it is understood the city fathers gleaned sufficient light on which to form a conclusion on the justification for the complaints made.

—In the window of the Times office today may be seen a block of the bark which forms on the palm trees of Bonin Island in Asiatic waters. The bark was secured by one of the sailing vessels, and was given a member of the Times staff by Captain Grant, of the Victoria Seal-fur Company. The bark is known as quite an oddity. The piece of coral also exhibited in the window was picked up on the end of a codfish line in Behring Sea in thirty or forty fathoms of water. It is of a pink color.

—A concert, supper and dance was held in the school room at Colwood last Friday evening for the purpose of raising funds for the committee on new blackboards, drawing materials, etc. The programme was a good one, and was thoroughly appreciated by the audience. After a dainty supper, dancing was indulged in, about twenty couples taking part. The concert was a success, financially and in every other way. Among the audience were people from Metchoin, Rocky Point, William Head and two "buns" from the M. J. M. concert. The programme was as follows: Piano solo, Miss Muriel Nicholles; song, Miss Violet Ross; song, Henry Helgeson; song, Mrs. Hayward;

recitation, Mr. Hart; song, Mrs. Demers; piano solo, Miss Braden; reading, Mrs. Demers; song, Mr. York; piano solo, Miss Winifred Wilson; address to the children J. Cornwall. Arthur Peatt made a very efficient chairman.

—To date the sum of \$215.50 has been subscribed in aid of the Chinese lad Hey, who was injured by the street car on Fort street while attempting to escape from a crowd of white boys. The boy's right leg has been amputated below the knee.

—The Victoria Teachers' Institute will hold its regular monthly meeting in the High school on Friday, the 13th inst. Mr. Best will give a talk on the rocks around Victoria. All the teachers are requested to be present. The meeting will be called to order at 3.45 o'clock.

—C. Blaney, an inmate of the Provincial Home at Kamloops, died in that institution on Monday morning at the advanced age of 80 years. He was one of the first batch from Victoria to enter the home, the date of his admission being September 14th, 1895. He was a native of Ireland—Inland Sentinel.

—A grand reunion of the Central V. C. T. is being held this afternoon at the residence of Mrs. Wm. Grant, Point Ellice. An excellent programme has been prepared, consisting of short sketches of the life and work of Miss Frances Willard, and recitations and solos by Miss Underhill and Mrs. Clyde.

—An intermediate league game of Association football will be played on Saturday between the Victoria West and Capital teams. The match will take place at Beacon Hill, and will be refereed by Mr. Hambury.

—Three hundred and twenty-four new serge uniforms and helmets have been received for use of the members of the Fifth Regiment. These are expected to last for three years, at the expiration of which time the Regiment will be supplied with the new service suit of khaki.

—Herbert Cuthbert, secretary of the Tourist Association, has received an invitation to deliver his lecture on British Columbia and the Northwest on Wednesday evening next at Nanaimo. The address will be delivered under the auspices of the Tourist Association forming at that city.

—The Barracks will be represented by the following in the Association football game, which will be played on Saturday with the Columbia team: Goal, Harvey; backs, Gr. Price and Mitchell; half-backs, Gr. Ward, Bom. Fairless (captain) and — Colley; forwards, Gr. Wilks, Gr. Johnson, Gr. Rivers, Gr. Donley, Snapper, Clinch. P. Noot will act as referee.

—The Friendly Help Association has arranged to forward goods to Malcolin Island on Saturday for the relief of the sufferers from the recent fire. Charitably disposed people of the city are asked to send articles of clothing and household necessities to the Friendly Help rooms, marked building by to-morrow morning, and they will be dispatched with the rest. The C. P. N. Company has kindly offered to carry the goods free.

—The regular meeting of the Literary Society of the First Presbyterian church was held on Monday, and was devoted to a study of the life and works of Robert Burns. An address was given by Rev. Mr. Fraser, which was instructive and interesting. The programme was as follows: Bagpipe solo, J. McKenzie; address on Robert Burns, Rev. Mr. Fraser; solo, J. G. Brown; solo, D. A. Fraser; recitation, Mr. Hector; Misses Howell and Field; bagpipe solo, J. McKenzie; solo, Mr. Alexander. Mrs. Hall acted as accompanist.

—There is a movement on foot to bring off a whist tournament between a number of prominent players in this city and Victoria. The provincial capital can boast of some of the most scientific whist players in British Columbia, and the Capital people do not believe that Vancouver can lower their colors. While nothing definite has been as yet settled in regard to the affair, it is quite probable arrangements will be made in the course of a week or so to have the tournament take place.—Vancouver World.

—Unfortunately for the concert in the Victoria theatre Wednesday night in aid of Columbia College among the numbers was the performance of the famous piratical scene from "Il Trovatore." The part of Manrico was attempted by H. K. Emerson, of Vancouver, whose personal card announces that he was formerly with the Damosch Opera Company and other operatic organizations. The management of the theatre is not to blame for the ridiculous presentation because they were led to believe that Mr. Emerson had some pretensions to a voice. The other part of the programme, however, was altogether satisfactory. There was a small attendance.

Tuesday night's entertainment given at St. James's hall, James Bay, under the auspices of the Capital Athletic Association was a complete success. There was a large attendance, and a number of sailors and soldiers were present. The hall was prettily decorated with flags and bunting. Mr. W. J. Harrison's piccolo solo and E. Fawcett's violin solo made the hits of the evening, and were enthusiastically enjoyed. Lieut. Col. Gregory acted as chairman, and during the evening the piano, which was much appreciated. The sailors also contributed to the programme, and their efforts were heartily applauded. Refreshments were served at the close.

—The Women's Council held a meeting Monday afternoon. The committee appointed to carry out the resolutions adopted at the annual meeting of the council reported and the committee on domestic science submitted the results of their interview with the school board. On the estimates a salary for a teacher beginning with the midsummer term had been placed at the council's disposal. Steps will be taken immediately to raise the \$300 required for this work. Other committees reported favorable progress. The corresponding secretary read a letter from the Mayor, placing the committee on at the disposal of the council for regular meetings. Mrs. Marion

The Terminal City club, having been organized with a strong membership, were unable to find anchorage on the waterfront on the harbor, and at Jericho for its very suit for the reasons it was wind swept. The offer of the C. P. R. to construct a wall has been accepted, the large expense of such an undertaking being out of reach of the club. RAILWAY EXTENSION.

To the Editor:—As a resident of Alberni, I take great interest in island railroad discussion. Alberni is so situated and has such varied natural resources that it would be folly to not put the main line of road through it. This is a fine valley. I don't think it can be equalled on Vancouver island for growing vegetables and dairying, and it is of great extent, room for hundreds of settlers if opened up with railroad communication. And I don't think it would be as difficult as generally imagined. There are several routes that it could be built over. Take the wagon road to Nanaimo. The highest point is only 1,100 feet, and would be quite feasible to build over. The mountain is on the coast. I may say I have stood on top of the range at its lowest elevation, which would not be more than 900 or 950 feet. It certainly is not as high as the wagon road to Nanaimo, and from that point you can see the water on the east coast, and the water in the Alberni canal about equal distance apart. I should say it was no more than twelve miles from water to water at that point, and I believe it would be nearer and easier to come from that point by way of Alberni than to continue on to the east coast. Hoping some feasible plan may be adopted for the benefit of the whole island.

JOHN BEST.

The back division played a safe game throughout and can be relied on when the time comes. Many of the team check hard and play an aggressive game, but they should not forget to follow when there is no one to take the ball when it goes into the opposite defence, no score can result from the play of the halves, however good it may be."

After a rest of 15 minutes the men went to the mat again, and McLeod had Sharkey flat on the mat in 13 minutes. The third fall was in 12 minutes. The match was of a purse of \$1,500 and a side bet of \$500.

After having taken a few doses my head began to ease from the continual aching, and by the time one bottle was taken I was completely cured of both the indigestion and headaches.

HE MUST PAY TO DO BUSINESS HERE

THE HOME MERCHANTS

ARE TO BE PROTECTED

Outsiders Soliciting Retail Orders Are Subject to License Fee of \$50—Police Court Cases.

A representative of an Eastern tailoring establishment has contributed to the civic exchequer the sum of \$50 for the privilege of taking retail orders for his firm. Since his arrival in the city he has been actively engaged in soliciting patronage, and in the course of events came under the eagle eye of the tax collector. That official immediately laid the necessary information and the amount of the license fee on the taxpayer. He was charged with an infringement of the Revenue By-law in carrying on trade without taking out a license. The representative, however, has been disposed to fight the case, and the charge was withdrawn on his paying the amount and costs \$2.

The house represented by Mr. Arthur for that is the traveller's name, has been doing business with the people in this city for some time past. There is always a certain class of people in every community ever ready to give orders to outsiders to the detriment of local establishments, and the Eastern tailoring house, as agent for such orders, has been the city council determined to protect local merchants to the utmost, and amended the by-law by the insertion of the following clause:

10. Every person who either on his own behalf or as agent for another, sells, solicits or takes orders for any goods, by retail, of goods, wares, or merchandise to be supplied or furnished by himself or firm doing business outside of the municipality, \$50 for every six months.

It is under this clause that action was taken against the Eastern representative. The authorities intend to enforce this provision as thoroughly as possible, and in that way afford local establishments the fullest measure of protection and the encouragement which will recognize they deserve. Transient traders will also be proceeded against, and will be promptly brought before the magistrate unless they pay the sum of \$500 or over six months under the following clause:

23. Each transient trader or other person who occupies premises in the municipality for temporary periods, and who may after the expiration of any period of time for sale by auction, or in any other manner, conduct his business, or otherwise, or otherwise, or otherwise, in addition to any other license before mentioned, \$500 for every six months.

To-Day's Police Court.

The prisoners' dock at the police court Thursday was filled with occupants. Most of the first batch disposed of were Indians, and they were up on the usual charge, drunkenness. Davis, a Sanich Indian, was fined \$5 and \$1 costs; John, an Esquimalt aborigine, was fined a similar sum, minus the costs. It was probably unnecessary to requisition a carriage to convey John to the skookum house. Johnnie Jones was fined \$5 and \$1 costs. He likely has a ride, as did Harry, a Sanich Indian, who had to pay \$1 costs in addition to the usual fine. A first offender was fined \$2.50 for drunkenness. The next time he appears for his office he will find a pay twice that amount.

A sailor named Martin Nelson, who was charged with obtaining money under false pretences was dismissed with a six months' suspension from his office.
