LAURIER'S SPEECH

At the Dominion Day Banquet Exciting Much Talk in London.

London, June 30 .- Sir Wilfrid Laurier's strong appeal for Anglo-Ameri-can accord which he made at the Dominion day banquet last night is exciting much talk today. No one supposes he would go out of his way to talk thus on the occasion of a Cantorn lace, beads, ruffles, and a gold adian national festival without some set purpose, a purpose rising perhaps out of the sensational scheme of an imperial fiscal navy and parliament ary unity, which it is said Mr. Chamberlain has laid before the premiers. Some developments of the very highest state importance are imminent, of that there seems no doubt. In the best informed circles Premier Laurier's speech of last night seems to complicate the question of what part India will play in them.

Sir Charles Tupper reached London yesterday. A place was reserved for him at the banquet, but he did not appear.

The facade of the building in the Brompton road was simply hung with crimson cloth, above which floated the Royal Standard and the white and red ensigns; and on the steps, fully an hour before that fixed for the commencement of the ceremony, the best-dressed mob imaginable strug-gled gamely to retain a footing in order to watch the arrival of the various royal and official personages whom a constant stream of carriages was bringing literally to its feet. The arrangements here were decidedly defective; and attaches, officers, minor diplomats, and ladies with tickets admitting them to the peer's seats had to. force a passage for themselves through a crowd composed of persons socially very little removed from their own. rank, with the result that not a few trophies were picked up by individuals after the ceremony in the shape of

The only remaining life boat was then lowered amid a scene of intense emotion. A cry of anguish broke from the lips even of the men when this half capsized, throwing the sailors and the stores into the sea. After great efforts the boat was righted and the women and children were lowered into it, with the exception of Madames Gillett, Pearo and Strain, who heroically decided to share the fate of their husbands, and Misses Lloyd and Weller, who remained on board. On the one side about two hundred and fifty French settlers, who had probably never been fifty miles from home in their lives, and on the other a few hen who move in the foremost ranks in the several cities where they reside.
