AGAINST ALBERT.

The trial of Albert, the negro from West End, who is charged with the murder of Patrolman Jordan, in Bangor, Me., is going on at present. On Thursday evidence was taken which or, Me., is going on at present. On Thursday evidence was taken which showed that Albert was noticed by several to be excited and nervous on the night the shooting occurred: that he was met in the vicinity of the murder, walking very fast and that his voice was heard on the street in altercation with some one before the shot was fired. One witness testified that Albert said to him, "Stick by me. I have shot a police." Pointing, he said, "right out there." This witness also testified that when Albert came to him at this time he had a revolver in his hand. Other witnesses testified as to the finding of the body after the shooting took place and the arrest of Albert.

SEVERE VESUVIUS ERUPTION IMMINENT

NAPLES, Aug. 27—The prefecture of aples has communicated to villages in the vicinity of Vesuvius a telegram remains the vicinity of Vesuvius observatory, thich states that the great agitation the seismographic apparatus indi-

ed the volcano was Professor Krull, of Munich, who predicts that before the month is finished there will be a great eruption and an earthquake all over the world.

AN INSTRUMENT OF UTILITY.

AN INSTRUMENT OF UTILITY.

The race horse and the racing bloycle each have their uses, and each in turn bears the same relation to the rest of its kind. We hear less of bloycle racing today than when the wheel first became popular. Today the bloycle is more strictly an instrument of utility. Its usefulness in economising time; in getting quickly from place to place or as a vehicle of pleasure are all so deeply impressed upon the public and have become so commonplace that we scarcely think of them as extraordinary. Yet there are more and more wheels used every year, and new riders are constantly learning the value of the bloycle as a means of easy and speedy locomotion.

Women were first employed in the

Women were first employed in the British post office in 1870. There are now about 105,000 postmistresses and clerks.

### ASSASSIN. STILL AT LARGE.

Not Yet Known Who Murdered U. S. Vice-Consul

Demande of Reprisal From Turkey.

CONSTANTINOPLE, Aug. 28.—News of the assassination of the United States vice-consul Magelssen at Beirut, Syria, while he was driving homeward Sunday, reached here yesterday morning. The assassin is unknown and there are no further details.

United States Minister Leashman, upon hearing of the outrage, proceeded immediately to the foreign office to confer with Tewfik Pasha. Lack of proper protection for the public in Beirut has been commented on for some time. The porte has even sent a commission of inquiry there but nothing resulted.

resulted.

LONDON, Aus. 28.—In the absence of any news regarding the murder of U. S. Vice-consul Magelssen at Beirut, Syria, except that emanating from Washington, few papers comment on the danger of the Macedonian problem. The Daily Telegraph says: "If there is war in the Balkans, the prizes will fail to the Turk or his allies, even though victory should incline to the other side. It is thoroughly characteristic of eastern politics that at the moment Turkey is doing penance for the murder of the Russian consul at Monastir, some irresponsible fansite should assassinate an American consul and bring yet another angry power knocking at the gate of the Yildiz Kiosk. This time, we know what will happen. The United States is not hampered by tradition in dealing with Turkey and will not be reduced to nerveless indecision by consideration of Austrian or Russian susceptibilities."

The Daily Chronicle thinks it improbable that the deed was a mere coincidence and says it seems to point to a widespread revival of anti-Christian feeling throughout the Ottoman empire, which may assume a form which the European powers cannot Ignore.

The Daily News expresses similar

riews. PARIS, Aug. 28.—The assassination of the American vice-consul at Beirut attracts much attention here, but no information has been received in official or other quarters concerning the details. The French officials say the gravity of the situation depends on whether the shooting was done by a Turkish soldier which would make the case similar to the assassination of M. Rostkovski, the Russian consul at Monastir, and would warrant a demand on Turkey similar to that made by Russia.

Tarkey similar to that made by Russia.

The increasing gravity of the conditions in Turkey is further shown by an official report just received from Philippopolis, giving the details of the revolutionary plot to blow up the oriental express. One of the plotters had been designated to sacrifice his life by boarding the train and throwing the bombs. This plot, probably, was connected with the dynamiting of the omnibus train at Kulell Burgas, but the Philippopolis report establishes the fact that the original plan was aimed against the leading trans-European express for the purpose of impressing the world with the magnitude of the disorder.

disorder.

The reports received here from the French consuls at Salonica disclose the fact that the Turkish force, which totalled 50,000 men when the troops entered Albani six months ago, has now been reduced to 35,000 men, showing a loss of 15,000 troops. Few of the soldiers died of disease. The loss was chiefly in men killed while crushing the Albanian uprising.

LONDON, Aug, 28.— The Shanghai correspondent of the Times says Viceroy Chang Ti Lung has informed the Tao Tai of Shanghai that if the consular body will surrender the editors of the reform paper Supac, who are accused of, seditious writings that the Chinese government will give an undertaking that they shall only be sentenced to imprisonment. It is hoped, adds the correspondent, that Great Britain will not accede to the Chinese request, because summary execution would be more meriful than Chinese imprisonment.

The vicercy of Nanken has ordered the re-acrest and trial of the four reformers who were recently arrested for delivering subversive lectures and liberated on the American missionaries guaranteeing their appearance.

French Adventurer's Fantas tie Effort in Africa. .

But Came in Conflict With Authorities and Fled.

structions from the French government.

Jacques Le Baudy, one of the wealthlest young men in France, is of an original turn of mind. He has invented
an automobile, and also a successful
flying machine. Last June he organized an expedition, which landed on
the coast of Morocco, between Cape
Jubi and Cape Rojado, and weized the
territory, which was not fully occupied
by a recognized power. He issued a
circular proclaiming himself "Emperor
Jacques the First" of this territory.
He had a scheme for the construction
of a rallway across the Sahara at his
own cost, and had fixed on a place
called Troya as his future capital.
This adventure caused some commotion in political circles in Great Britain
and Spain. "The self-styled emperor,
however, had some difficulty with the
governor of Cape Jubi, and had to
leave his new dominions in a hurry,
leaving the five men referred to in the
Paris despatch, behind. His yacht,
the Frasquita, was selzed by the Spanish authorities at Las Palmas, and suits
for damages have also been entered
against him by members of his expedition.

JAMES ROSS WILL COMPOMISE.

Ex-President, of Dominion Iron and Steel Co., Agrees to New Arrangement With Coal Co.

MONTREAL, Aug. 27.—J. H. Plummer, manager and director of the Iron and Steet Compuny, returned to the head offices of the company today, after attending a conference of the executive with James Ross, in Toronto, It was officially announced that Ross, who had refused to entertain any proposition except that of separation of the two companies, had signified his willingness to compromise and arrange for a new basis from which an agreement would be made for the continuance of the existing lease. Further details will be arranged before the announcement of the agreement is made to the shareholders. Plummer will sail for England on Saturday from New York.

LIVES WITHOUT JUGULAR VEIN

fact that the Turkish force, which to the top of the third of the fact that the Turkish force, which to the top of the fact that the first state of the crater is breaking up and falling in. Visitors, however, are now allowed to approach the crater. Among those who assended the volcano was Professor Krull, of Munich, who predicts that before the month is finished there will be a great cruption and an earthquake all over the world.

In the fact that the thrikish force, which to the the the fact that the first state of the soldown men, showing a loss of 15,000 troops. Few of the soldiers died of disease. The loss was the present the preuntogastric nerve dissected in removing a tumor growing on the side of her neck, and the blood sent up the vertebral artery to the base of the brain. Dr. Neil Macphatter, of this city, performed the operation. In explaining, it last night Dr. Macphatter said that his pattent was a married woman, thirty-one years old. Six years ago she noticed a small, hard lump on the left side of her neck, but paid little attention to it. The tumor continued to grow and became trouble-some, so it was determined to operate on it.

some, so it was determined to operate on it.

"When investigation was made for that purpose it was found," he continued, "that there was a dense hard tumor surrounding the carotid arteries, the internal jugular vein and pneumogastrie nerve, and apparently penetrating into their walls. It was seen that it was impossible to remove the frowth without interference with the carotid arteries.

"Both the internal and external carotids were held firmly in the grasp of the tumor, and, moreover, their coats were seen to be diseased beyond repair. I determined to remove a segment of the common carotid, together with the entire external and internal carotids. This was done, the various branches of these arteries ligated and the blood was sent up the vertebral artery to the base of the brain, making that channel do the work of those I had removed. This changed the whole plan of the circulation of the brain, and serious consequences were apprehended. "Until the collateral circulation."

erious consequences were consequences with the collateral circulation should become sufficiently established I was prepared for symptoms of gliddiness, twitchings and mental peculiarities, but none of these supervened. The condition of the patient for the immediate day following the operation differed in no respect from the ordinary and normal. The pulse, temperature and respiration remained practically normal, or so little exceeding the normal at the of no moment.

## FEARFUL DEATH

Starved to Death.

United States Follows Russia in Tried to Found an Empire in Africa Trying to Cross Klondyke Country Alone She Perished - Body Devoured By Wild Beasts.

MINNEAPOLIS, Minn., Aug. 28.—
Edith White, former wife of John A.
White, general agent for the Deeding
division of the International Harvester
Cc., died of starvation in the Klondike
country and her body probably has
been devoured by wild beasts. Such
is the information contained in a despatch from Seattle, which gives the
details of the finding of the unfortunate woman's diary, containing a story
of her life from the time she left her
former; home in Mankato, until she
died of exposure and lack of food in
the heart of the-trackless Copper River
country.

Mrs. White was a graduate of the

the heart of the trackless Copper River country.

Mrs. White was a graduate of the dental school of the State University, and was practising dentistry in Dawson City two years ago. She wrote her relatives here, saying she was going into the interior and probably would not be heard from for some time.

In a letter written from Central Alaska, July 29, 1903, William Shafer, a petty officer in the employ of the government signal service, 'tells of finding letters and a diary tending to show that Mrs. White perished from cold and hunger while trying to make her way unaccompanied to an interior camp in the Copper River country.

SOLDIERS KILLED IN ROME.

Fatal Railway Accident Cuts Short Festivities in Honor of King

Victor.

ROME, Aug. 28.—A disastrous railway accident has cut short the festivities and demonstrations in honor of the king and queen at Udine, on the eastern frontier, sixty miles from Venice, where the sovereigns had gone to witness the grand army manoeuvres. At one o'clock last night, a train, overflowing with soldiers, collided with a freight train and sixteen soldiers were killed and over sixty injured. The trains took fire a few minutes after the collision, but the flames were soon extinguished.

Special trains brought a corps of physicians, who administered to the wounded. King Victor Emmanuel visited the hospital in person later to see the victims of the accident.

AIR BRAKES FAILED.

That Caused The Fatal Wreck of Wallace Bro., Circus Train-Engineer's Censured.

DURAND, Mich., Aug. 28.—The coroner's inquest into the death of twenty-two victims who were killed in the wreck of Wallace Bros'. circus train on the Grand Trunk railroad on August 7. was concluded yesterday. The jury rendered a verdict that the wreck was caused by the failure of the air brakes to work on the second section and that the wreck might have been averted if the engineer, Charles M. Propst, had watched the air guage before him and talso if Wallace Bros. had had their cars properly equipped with hand brakes.

The case of McNutt v. Geldart was the next case on the docket to be taken up. This was an action of debt for \$37.89. Judgment was given in favor of the plaintiff. Scott E. Morrell appeared for the plaintiff.

In the case of King v. Kate Bears and Donald Anderson, on motion of C. H. Ferguson a nolle prosequi was entered and an order made for the return of the property found on Lizzie and Coronick and now in the hands of the police to be returned to her.

#### CONSTANTINOPLE THREATENED

CONETANTINOPLE, Aug. 28.—Considerable forces of troops have been stationed in the various suburbs of Constantinople as a precautionary measure, in view of the appearance of insurgents less than a hundred miles from the capital.

A train load of troops was despatched yesterday from this city to Tocher-kekkol. Vilayet of Adrianople, near which place three Bulgarian villages were recently attacked by Circassians and their inhabitants massacred. The troops sent to reinforce the garrison at Kirkkfilsseh (32 miles from Adrianople) were routed by insurgents whose numbers in the villages of Adrianople are estimated to be 6,000.

SOFIA, Bulgaria, Aug. 28.—The government has dispatched two regiments to the frontier to strengthen the guards and enable them to exercise greater vigilance in view of the anticipated attempts of additional bands of insurgents to enter Macedonia.

### KILEY-EATMAN RACE NOT FAIR.

Wife of Prominent American County Court Jury Decides Against Kiley.

> Race Was Not Fairly Started and Winner Cannot Recover the Stake Money.

plury, reserving the right to the defendant to move for a nonsuit or new trail, in the event of the verdict going against him.

A. W. Macrae presented the case for the defence, his contention being that the evidence adduced went to show that there was no race at all. The stakes put up, he argued, were not legitimate, by reason of a recent decision in the Supreme Court of Canada.

John L. Carleton, K. C., in the presentation of the plaintiff's case to the jury, thought the question of whether there was or was not a race was not for the decision of the jury, but was wholly for the court to decide. The stakes, he said, were perfectly legitimate, and not in the nature of a bet, as the race was allowable by law. As to the contention that there was no race upon the ground that the start was false, Mr. Carleton said that the weight of the evidence was decidedly to the contrary.

His honor in addressing the jury said that the case was peculiar and novel. The race was run under an agreement, but it did not appear by the agreement who were to be the contestants in the race. He would not, however, press, that point.

His honor left the following questions to the jury:—

Was this race run between the hours of six and seven o'clock in the evening of the 22nd of June last?

Was it a fair start under the conditions of the agreement, to be paid to the winner?

His honor added to these three more the hours of the agreement to be paid to the winner?

His honor added to these three more the manely:—

Did Kiley or Eatman by themselves

or friends agree to run a foot race sub-ject to the terms of the agreement in

evidence?
Did Kiley and Eatman come to the line to be started or make ready to start, thus placing themselves under the jurisdiction of the starter?
Did the referee decide that Kiley won the race?

the race?

The jury, after being out about a quarter of an hour returned a verdict for the defendant on the ground that there had not been a fair start.

PRAY IN STREETS AS ALTAR BURNS.

Structure Built for Fast Day.

While frantic men and women prayed in the streets for its preservation an altar three stories high, at the corner of Elizabeth and Broome streets, put there in honor of the feast of St. Rocco, which occurs today, was destroyed by fire yesterday.

Several men who had been draping the altar were testing the big candles that had been imported for the feast and it is believed that a lighted match fell on the draperies. While the men were still on the altar the draperies suddenly became ablaze, and they quickly climbed to the street, narrowly escaping injury.

Firemen soon extinguished the flames, but not before the altar had been destroyed. A flag of St. Rocco, that was imported from Italy at a cost of \$1,009, and a gilded crucifix at the top of the altar were saved.

Frenzied men and women ran about the blasing structure wringing their hands and shouting, and many fell on their kness in the street and prayed that the altar destroyed had been used in Italian celebrations for many years. It was so constructed that it could easily be taken apart and stored away. It reached to the third story of a big tenement house at the corner of Elizabeth and Broome streets and was about twelve feet wide and six feet deep.—Worcester News.

KISSING LEGISLATION.

A kissing certificate may be one of the luxuries of life if a certain American physician has his way. The senate of the State of Minnesota is considering a bill for the prohibition of kissing unless the people wishing to salute each other thus possess health certificates stating that they are fit subjects. The bill has a clause forbidding such health certificates being given to people with weak hearts, as this is declared an obstacle to the emotion aroused by kissing.

THE NEW BLOCK FOR FALL, 1903 has just come to hand and we will be pleased to take orders for one of "our wn make" of Derbys.

NEGRO PRINCE IS ARRESTED.

NEGRO PRINCE IS ARRESTED.

BERLIN, Aug. 22.—Mpundo Akwa, a negro from Cameroons, calling himself a prince, who has been associated with high official society at Kiel and Hamburg was arrested today at Hamburg for not paying a \$1,760 hotel bill. The prisoner speaks English and German admirably and wrote letters in the Cameroon language for the instruction of the Oriental Seminary for Languages at Berlin. He obtained extensive credit at Hamburg by saying he was waiting for an audience with the emperor.
