CATHEDRAL, Newpoushland.—The Newfoundland (the Rev. Dr. Spencer) the Duke of Malborough, has couraction Purcell of Cort, to build a cathedral, a his diocese, to be 120 feet long, 50 feet the tower and spire 130 feet high.—

The Derry standard cays :... We has underly on which we feel disposed to since, that the government intend to app Consent, and have him tried for high u that their object in filling the country with opreserve the peace when such an occutake place."

Mostrarat. June 22nd.—We yestet the ruins of Boucherville. We found of single chimneys pointed in nesked in leavens above, and a thin coating of brownish powder on the earth below, mained of the beautiful little eillage yills. The wings of sone streat, white beyond the main clump of buildings, a end of the village is saved, and a fe houses at the upper end. But every to gons.—barns, stables, fences, memoided in the graves are a willed, the fruit trees blackened and derlike a Russian village after a bivouse of army.

like a Russian village after a bivouse of army.

The description we gave of it yest current. The inhabitants look desolate not furniture enough saved, of every de loud half a dozen carts.

The Lady Colborne left at half-past yesterday morning with twenty-five bayes are a few barrels or pork, and 102 loaves of If har the Mayer was on board, and be Daveberville, a committee was apoin but the provisions, consisting of Pt. I ville, L. Lacosto, J. Vigneau, Th. V. 1 ville, Dr. Weilbranner, H. Descham De Lery, Alms Dugas, Chas. Deimay, Secretary.

Secretary. Aims Dugas. Chas. Demay. Secretary.
It has been ascertained that the fire by sparks from the steamhoust St. Lenis the roof of an outbuildings, in rear a brenner's house. No person had beel fluring that day.
Upwards of sixty dwelling house hurned, about two hundred building and one hundred and fifty families, co souls, have been deprived of shelter, other buildings are the Church, the School-house.

white buildings are the Church, the School-house.

(From the Montreal Geratt A gentleman From Varonnes, who to Boncheville, stated to are inform large Hotel in the fertine rulings, built co, was set on fire, it is believed, by the same ateambont, when at the widownward voyage; but that it was foldind, or Varonnes might bave share the now devolate village of Bonchervi Piux.—About half-past three o ele morning, the still house, belonging to known as Dow's browers and distill covered to be on fire. It originated be of sprits, that had leaked from one of we regret to lears, that the person charge at the time, was much scalded plosson which took place. Had it was speedy arrival of the Fire Engine, Heder, and Hose Companies, the whole cave buildings must have been confire, however, was, by great exertions rested, and the damage confired to part of the building in which it originated is in said to be about £2, perty was insured at the Montreal O BEAUMANOUS CANAL.—There is sent intention among the penceable it work impant the Canal. The same are midden driving quietty along the voxualian driving quietty along the control of the part of the care.
