

ST. JOHN, N. B., SATURDAY, JANUARY 1, 1898.

THE CANADIAN LANCET,

One of the oldest and most respected medical journals of Canada, makes the following statement in its December issue with regard to

Abbey's Effervescent Salt.

“MANY physicians of Canada are now prescribing Abbey's Effervescent Salt, which has recently been introduced here.

Abbey's Effervescent Salt is a Purely Scientific Chemical Product in the most approved form of effervescent granules, prepared by expert chemists. It is prepared to meet the requirements of the times, i. e., a more palatable form for the administration of nauseating drugs without interfering with their full medicinal effects.

An effervescent draught is recognized by the medical profession as one of the most agreeable and effective vehicles whereby to administer medicinal agents; especially as the carbonic acid gas, generated during its administration, is in itself a sedative, and is particularly soothing to a Sensitive Stomach.

One of its chief points is its superiority as an aperient, taking the place of nauseating mineral waters. It is particularly useful in cases of obstinate Constipation, without being attended with debility of the stomach and bowels; not having the reactionary effect peculiar to most aperients and cathartics. It also directly excites the hepatic function, making it invaluable in Chronic Liver Affections.

Its refrigerant qualities make it invaluable in fevers and many inflammatory affections.

It is especially useful in urinary troubles and as an antilithic in uric diathesis. It is particularly effective in the treatment of renal calculi, or kidney troubles generally. As an antacid it corrects the acidity of the stomach making it a specific in certain forms of dyspepsia and in the treatment of gout and rheumatism. It also acts as a mild alterative, rendering the blood and urine alkaline.

ONE OF THE MOST IMPORTANT CLAIMS OF ABBEY'S EFFERVESCENT SALT IS ITS ABSOLUTE PURITY

Its ingredients have been repeatedly analyzed by expert chemists, and have been pronounced fully up to the requirements of the Test for pure drugs, as laid down in the latest edition of the British Pharmacopoea.

After a careful trial we consider that this salt is Absolutely the Best Effervescing Salt made in any country. The fact that it effervesces up to the last drop is another of its excellent features.

”

This Standard English Preparation
Is Sold By All DRUGGISTS

60 Cents a LARGE BOTTLE,
Trial Size 25 Cents.
